Message from GreenCom 2016 Steering Committee

Welcome to the 12th IEEE International Conference on Green Computing and Communications (GreenCom 2016) sponsored by IEEE, IEEE Computer Society, and IEEE Technical Committee on Scalable Computing (TCSC), organized by University of Electronic Science and Technology of China, China. It is our great pleasure to hold iThings 2016 in Chengdu, December 16-19, 2016. On behalf of the organizing committee, we would like to express our cordial welcome and high respect to all participants.

GreenCom 2016 will provide a high-profile, leading-edge forum for researchers, engineers, and practitioners to present state-of-art advances and innovations in theoretical foundations, systems, infrastructure, tools, testbeds, and applications for the Internet of Things, as well as to identify emerging research topics and define the future. The iThings 2016 is the 12th edition of the successful series, previously held as GreenCom 2015 (Sydney), GreenCom 2014 (Taipei), and GreenCom 2013 (Beijing, China).

An international conference cannot be successfully organized without the supports and great voluntary efforts of many people and organizations and our main responsibility is to coordinate the various tasks carried out with other willing and talented volunteers. We would like to thank the General Chairs, Prof. Lei Guo (Northeastern University, China), Prof. Victor C. M. Leung (UBC, Canada), and Prof. Kumudu Munasinghe (University of Canberra, Australia), for very successful organization of GreenCom 2016. We would like to express our special thanks to the Program Chairs, Prof. Weigang Hou (Northeastern University, China), Prof. Xuetao Wei (University of Cincinnati, USA), and Prof. Qiang Guan (Los Alamos National Laboratory, USA) for making excellent technical program. We also would like to express our appreciation for the excellent local team for the prefect local arrangements and the detailed registration work, especially to the Executive Chair Prof. Xingang Liu (University of Electronic Science and Technology of China, China) and Prof. Huansheng Ning (University of Science and Technology Beijing, China), for their significant contribution to iThings 2016.

Finally, we also would like to take the opportunity to thank all the members of the organizing committee, the publicity chairs and technical program committee as well as all of the authors who submitted papers and the reviewers who reviewed a huge number of papers.

Prof. Laurence T. Yang (Chair), St Francis Xavier University, Canada

Prof. Jinsong Wu, University de Chile, Chile

Prof. Jianhua Ma, Hosei University, Japan

Prof. Jinjun Chen, Swinburne University of Technology, Australia

Prof. Honggang Zhang, Université Européenne de Bretagne (UEB) & Supelec/IETR, France

Steering Committee, GreenCom 2016
