Hi Peter,

I have confirmed with the program committee that all papers (full papers) will be peer reviewed before publication of the proceedings.

Thank you!

Kazia Ekelund

Hi Kazia,

My university requires the review process to also cover the full papers (not just the abstract). Do you know if this will also apply to the full papers?

Regards

Peter

Hi Peter,

Here is a description of our peer review process. Is this sufficient?

The abstract review committee for the PAQS2017 Congress is made up of 14 experts in the field of Quantity Surveying. All abstracts were reviewed by a minimum of two reviewers through an independent, blind peer review process. A consistent evaluation process and set of criteria were applied across the four sub-themes recognized by PAQS. All the results were carefully reviewed and confirmed by the PAQS 2017 Program Committee.

Thank you,

Kazia Ekelund
Project Manager
