

# Speculative Metaphors:

A Design-Led Approach to the Visualisation  
of Library Collections

Georgina Hibberd

Doctor of Philosophy

2018

University of Technology Sydney

# Certificate of Original Authorship

I, Georgina Hibberd declare that this thesis, is submitted in fulfilment of the requirements for the award of Doctor of Philosophy in the School of Design, Faculty of Design, Architecture and Building at the University of Technology Sydney.

This thesis is wholly my own work unless otherwise referenced or acknowledged. In addition, I certify that all information sources and literature used are indicated in the thesis.

This document has not been submitted for qualifications at any other academic institution.

This research is supported by the Australian Government Research Training Program.

Signed by Georgina Hibberd

Production Note:  
Signature removed prior to publication.

September 2018

# Acknowledgements

This thesis would never have eventuated had it not been for the unwavering confidence and support of my two supervisors, Professor Kate Sweetapple and Dr Jacqueline Lorber-Kasunic. Thank you for taking a chance on me in the first place and having the patience to stick with me to the end.

Thank you to colleagues from UTS School of Design for advice and encouragement: Chris Gaul, Dr Jacqueline Gothe, Ann Hobson, Dr Sally McLaughlin, Professor Peter McNeil and Professor Charles Rice. To Dr Zoë Sadokierski: thank you for your humour and your confidence in me. Thanks to Brittany Denes for graphic assistance in the final weeks. I would also like to acknowledge Faculty support through a DAB Faculty Scholarship.

My thanks to Michael Lynch for programming support and the UTS eResearch team in general. Without Michael's assistance I would not have been able to pursue my ideas as thoroughly.

I had several staunch PhD buddies during this process. Thank you to Evelyn Kwok for humour and dumpling-fueled support. To Erin Turner, for sharing – and understanding – the pain and Diana H Abou Saada for being one of the most positive and inspiring people I know.

The librarians. There were many who helped and inspired me throughout. Special thanks to Mal Booth for his extreme enthusiasm and support, to Josh Vawdrey for his technical help and all of the library staff at UTS. Thanks to the librarians at Southern Cross University who, via my mother, sent answers to my questions. Thank you particularly to the librarians in my family for their answers to my queries, the discussions on classification and their influence throughout my life: my mother Judy, my aunts Diane and Gabrielle, and my late grandmother, Pat.

There were people scattered in various corners of my life who helped me get this thing done. Thank you to all. My trainer, Chris Dounis, kept me sane, helped get

my deadlift over 100kg and keep it there. My former colleagues at the University of Sydney, Kimberly Dela Cruz Odom and Jenni Gordon, who encouraged me to apply in the first place and supported me in those heady early days. My dear friends Michelle Monaghan and Jason O'Brien who supplied wonderful dinners, gossip and a shared love of football.

Thank you to my parents, Noel and Judy, whose support and unwavering belief helped get me here. Thanks to my sister Madeleine for being there when I was at my best and my worst, for sending flowers and pictures of Corgis, for listening and laughter.

To Ross, the bloke who spends a lot of time with me and with whom I happen to share a son, thank you for your support throughout, particularly the football trips, the conversations and just being there whenever I needed you.

I've been told I need to thank Rosie, who sat by my side through this whole thing. So even though you're a dog who can't read, thank you big girl.

To my partner, Liz and our son Dash. A lot has happened since I set out on this journey. I am sure you thought it would never end. It has now, and I could not have done it without you.

This is for you.

4.3.1	Visualising relations	137
4.3.2	Arbitrary distance within the Dewey system	141
4.3.3	Conceptualising the collection after the flock metaphor	142
 <b>CHAPTER 5 PROTOTYPE 3: <i>NEIGHBOURS</i></b>		<b>144</b>
<b>5.1</b>	<b>Metaphor: the good neighbours</b>	<b>145</b>
5.1.1	A performative approach to classification	145
<b>5.2</b>	<b>Visual design and design</b>	<b>150</b>
5.2.1	The grid	151
5.2.2	The irregular grid	153
5.2.3	The Voronoi and the Delaunay	154

<b>5.3</b>	<b>Prototyping</b>	<b>157</b>
5.3.1	Seeding the points for the Voronoi and Delaunay	157
5.3.2	Iteration: visual variations	160
5.3.3	Iteration: multiple data sets	168
5.3.4	Iteration: added functionality	175
<b>5.4</b>	<b>Findings</b>	<b>177</b>
5.4.1	Providing context	178
5.4.2	A dynamic collection without movement	185
 <b>CHAPTER 6 DISCUSSION</b>		 <b>188</b>
<b>6.1</b>	<b>Building relationships</b>	<b>188</b>
<b>6.2</b>	<b>The dynamic library collection</b>	<b>190</b>
<b>6.3</b>	<b>A processual approach to the visualisation of collection search results</b>	<b>192</b>
6.3.1	Prioritising a visual language	192
6.3.2	Evidence of patron engagement with a collection	193
 <b>CHAPTER 7 CONCLUSION</b>		 <b>195</b>
 <b>BIBLIOGRAPHY</b>		 <b>199</b>

# List of figures

## Chapter 1

- 1.1 Streaming video hosted and distributed by Alexander Street, accessed through UTS Library catalogue
- 1.2 E-book hosted and distributed by ProQuest, accessed through UTS Library catalogue.
- 1.3 E-book hosted and distributed by Project Gutenberg, accessed through UTS Library catalogue.
- 1.4 State Library of Victoria catalogue interface
- 1.5 Australian National University Library catalogue interface
- 1.6 University of Cambridge Library catalogue interface
- 1.7 Massachusetts Institute of Technology Library catalogue interface
- 1.8 Stanford University Library catalogue interface
- 1.9 University of Oxford Library catalogue interface
- 1.10 University of Technology Sydney Library catalogue interface
- 1.11 Typed catalogue card for Amelia Simmons' *American Cookery* from the Library of Congress
- 1.12 Telnet library catalogue interface
- 1.13 University of Technology Sydney 'classic' catalogue interface
- 1.14 University of Technology Sydney current catalogue interface
- 1.15 Search box from University of Technology Sydney current catalogue interface
- 1.16 OPAC interface
- 1.17 Current University of Sydney catalogue interface search results
- 1.18 University of Technology Sydney Library catalogue interface
- 1.19 *Discover the Queenslander* interface
- 1.20 *Discover the Queenslander* interface: navigation options
- 1.21 E-book icon used in University of Sydney Library catalogue interface
- 1.22 Conventional web design wireframe
- 1.23 Analytical wireframe created during this study
- 1.24 Images collected for visual analysis during the *Field* prototype

## Chapter 2

- 2.1 Library of Congress catalogue card for Mary Wollstonecraft's *A vindication of the rights of woman*.
- 2.2 Diagram illustrating elements of a catalogue card
- 2.3 Handwritten catalogue card for John James Audubon's *The Birds of America*.  
Card from the Library of Congress.
- 2.4 Typed catalogue card for James Baldwin's *The Fire Next Time*.  
Card from the Library of Congress.
- 2.5 Page from the Supply Catalog from the Library Bureau, 1902
- 2.6 Early computerised catalogue interface (OPAC)
- 2.7 Second-generation OPAC interface
- 2.8 Handwritten catalogue card for John Steinbeck's *The Grapes of Wrath*.  
Card from Library of Congress.
- 2.9 Telnet catalogue interface
- 2.10 UTS Classic catalogue menu
- 2.11 UTS Classic catalogue search
- 2.12 Australian National University catalogue
- 2.13 State Library of Queensland catalogue
- 2.14 University of Auckland catalogue search results page
- 2.15 British Library catalogue search results page
- 2.16 Conventional web design wireframe
- 2.17 Stanford University Library catalogue
- 2.18 Stanford University Library catalogue: page elements identified and overlaid  
with colour blocks
- 2.19 Stanford University Library catalogue: colour-blocked wireframe
- 2.20 16 University library catalogue interfaces: colour-blocked wireframes
- 2.21 16 Public library catalogue interfaces: colour-blocked wireframes
- 2.22 University of Technology Sydney Library catalogue interface
- 2.23 University of Technology Sydney Library catalogue interface colour-blocked  
wireframe
- 2.23 Massachusetts Institute of Technology Library catalogue interface
- 2.24 Massachusetts Institute of Technology Library catalogue interface colour-  
blocked wireframe

- 2.24 Imperial College London Library catalogue interface
- 2.25 Imperial College London Library catalogue interface colour-blocked wireframe
- 2.25 National Library of Australia catalogue interface
- 2.29 National Library of Australia catalogue interface colour-blocked wireframe
- 2.30 London School of Economics catalogue search results
- 2.31 London School of Economics catalogue search results colour-blocked wireframe
- 2.32 University of Sydney catalogue search results
- 2.33 University of Sydney catalogue search results colour-blocked wireframe
- 2.34 16 University library catalogue search results interfaces colour-blocked wireframes
- 2.35 16 Public library catalogue search results interfaces: colour-blocked wireframes
- 2.36 State Library of NSW catalogue search results
- 2.37 The top result for a search on the keyword 'football' in each of the 32 libraries surveyed.
- 2.38 SFMOMA Artscope interface
- 2.39 Australian Prints + Printmaking interface
- 2.40 Australian Prints + Printmaking interface
- 2.41 Australian Prints + Printmaking interface
- 2.42 Australian Prints + Printmaking interface
- 2.43 Stanford University Library's Virtual Shelf interface
- 2.44 PACE interface
- 2.45 Virtual shelf in PACE interface
- 2.46 North Carolina State University Libraries catalogue interface
- 2.47 North Carolina State University Libraries virtual shelf interface
- 2.48 Imperial College London virtual shelf interface
- 2.49 Massachusetts Institute of Technology virtual shelf interface
- 2.50 University of Technology Sydney virtual shelf interface
- 2.51 Checkerboard Dentograph visualisation
- 2.52 Mountain Dentograph visualisation
- 2.53 Chris Gaul's Library Spectrogram

- 2.54 UTS Library Ribbon
- 2.55 UTS Library Ribbon
- 2.56 UTS Library Ribbon
- 2.57 Harvard Law Library's *Haystacks* interface
- 2.58 Harvard Law Library's *Haystacks* interface
- 2.59 Columbia University Libraries' *Catalog* interface
- 2.60 Columbia University Libraries: *Crossing Disciplines* interface
- 2.61 George Legrady's *Making the Invisible Visible*, on display in the Seattle Public Library
- 2.62 *Vital statistics* visualisation by George Legrady
- 2.63 *Floating tiles* visualisation by George Legrady
- 2.64 *Dot matrix* rain visualisation by George Legrady
- 2.65 *KeyWord map attack* visualisation by George Legrady
- 2.66 *11-808* visualisation by Elisa Lee and Adam Hinshaw
- 2.67 *11-808* visualisation by Elisa Lee and Adam Hinshaw
- 2.68 *Unstacked* interface by Elisa Lee and Adam Hinshaw
- 2.69 *Unstacked* interface by Elisa Lee and Adam Hinshaw

### Chapter 3

- 3.1 Screenshot of *Field* prototype
- 3.2 Search results for “design thinking nigel cross” in the UTS Library catalogue
- 3.3 Virtual shelf view of results for “design thinking nigel cross” in the UTS Library catalogue
- 3.4 View of shelves where Nigel Cross' *Design Thinking* is held.
- 3.5 Nigel Cross's *Design Thinking* on the shelf.
- 3.6 Shelves opposite that which holds Nigel Cross's *Design Thinking*
- 3.7 Preliminary sketch for *Field* prototype
- 3.8 Preliminary sketch for *Field* prototype
- 3.9 Preliminary sketch for *Field* prototype
- 3.10 Underlying grid structure for *Field* prototype
- 3.11 Detail from *Field* prototype
- 3.12-3.31 Screenshots from the *Field* prototype showing the growing collection of results through the transitions.

- 3.32 Search results for keyword ‘football’ in the UTS Library catalogue, shown in a list.
- 3.33 Search results for keyword ‘football’ in the UTS Library catalogue, shown in the *Field* prototype.
- 3.34 Analysis of *Field* prototype, identifying specific subject areas and items.
- 3.35 Sketch
- 3.36 Sketch
- 3.37 *Pine Tree and Snow* by Sakenomitei Kudamaki
- 3.38 *Reticulárea* by Gego (Gertrud Goldschmidt)
- 3.39 *Predestination* by Minjung Kim
- 3.40 *Arrest, array* by Anna Hepler
- 3.41 *Drawing* by Robert Klippel
- 3.42 *201 Days* by Katie Lewis
- 3.43 *Stairway* by Chiharu Shiota
- 3.44 *Penguin Book of Elizabethan Verse* cover design by Stephen Russ
- 3.45 *Untitled (Odd/Even)* by Al Taylor
- 3.46 *Untitled (P-1304)* by Jason Karolak
- 3.47 *Untitled (D-1356)* by Jason Karolak
- 3.48 *Das Klavierkonzert* by Heinz Mack
- 3.49 *The First Circles* by Kate Castelli
- 3.50 *Sketchbook* by Roanna Wells
- 3.51 Bone marrow diagram
- 3.52 *Les Etoiles* by Louise Bourgeois
- 3.53 *Lissajous Spirals* by Brendan Dawes
- 3.54 *Here is the end of all things* by Claire Morgan
- 3.55 *Intermittent Transmissions* By Katie Lewis
- 3.56 Digital collage by Jiyen Lee
- 3.57 *Harbour* by Bernard Lang
- 3.58 *Embroidery 3* by Anette Blæsbjerg Ørom
- 3.59 *Random objectivication* by Herman de Vries
- 3.60 *Clear Lightness* by Eve Aschheim
- 3.61 *Infinity Mirrored Room – Gleaming Lights of the Souls* by Yayoi Kusama
- 3.62 *Dots and full stops 1* by Alex Dipple

- 3.63 *Plenum* by Simeon Nelson
- 3.64 *Drowning Victim, Coney Island Beach, New York* by Roanne Wells
- 3.65 *Approach/A Void 2* by Jeanne Heifetz
- 3.66 *Knotweed Stalks* by Andy Goldsworthy
- 3.67 'Lines that connect' sketch
- 3.68 'Lines that divide' sketch
- 3.69 'Lines that compose' sketch
- 3.70 'Ordered space' sketch
- 3.71 'Unordered space' sketch
- 3.72 'Clustering' sketch
- 3.73 *Murmuration #5 Rome, Italy* by Paolo Patrizi

## Chapter 4

- 4.1 Screen shot of the *Flock* prototype: 200 results from a UTS Library catalogue search, visualised using a flock algorithm.
- 4.2 Screen shot of the *Flock* prototype: 200 results from a UTS Library catalogue search, visualised using a flock algorithm.
- 4.3 Sketch of library collection concept
- 4.4 Sketch of library collection concept
- 4.5 *Starlings* by Paolo Patrizi
- 4.6 *Starlings* by Paolo Patrizi
- 4.7 *Murmur #20* by Richard Barnes
- 4.8 *Murmuration* by Milo Bostock
- 4.9 *Murmur #22* by Richard Barnes
- 4.10 *Starlings above* by Yannick Dixon
- 4.11 *Swarm* by Lukas Felzmann
- 4.12 *Starlings* by Paolo Patrizi
- 4.13 *Starlings above* by Yannick Dixon
- 4.14 *Starlings* by Paolo Patrizi
- 4.15 *Starlings above* by Yannick Dixon
- 4.16 *Starlings over Rome* by Manuel Presti
- 4.17 *Starlings above* by Yannick Dixon
- 4.18 *In the distance* by Dasar

- 4.19 *Swarm* by Lukas Felzmann
- 4.20 *Swarm* by Lukas Felzmann
- 4.21 *Swarm* by Lukas Felzmann
- 4.22 *Starling murmuration* by Gill Stafford
- 4.23 *Swarm* by Lukas Felzmann
- 4.24 *Swarm* by Lukas Felzmann
- 4.25 *Starling murmuration* by Gill Stafford
- 4.26 *Swarm* by Lukas Felzmann
- 4.27 *Swarm* by Lukas Felzmann
- 4.28 *Swarm* by Lukas Felzmann
- 4.29 *Starlings* by Paolo Patrizi
- 4.30 *Murmurations: ephemeral plastic structures #6* by Alain Delorme
- 4.31 *Ballonfest* by Thom Sheriden
- 4.32 *Untitled* by Hedda Sterne
- 4.33 *Bourrasque* by Paul Cocksedge
- 4.34 *Accumulated numbness* by Katie Lewis
- 4.35 (Unknown title) painting by Thilo Heinzmann
- 4.36 Screen shot of Daniel Shiffman's flocking sketch written in Processing
- 4.37 Screen shot of Mike Bostock's SVG swarm written using D3 (Javascript).
- 4.38 Screen shot of Thomas Jansson's YABI (Yet Another Boids Implementation), written in matplotlib.
- 4.39 Screen shot of flock visualisation of 200 results returned in a keyword search for 'football' in the UTS Library catalogue.
- 4.40 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue.
- 4.41 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue.
- 4.42 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue.
- 4.43 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue, speed of birds' movement increased.
- 4.44 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue, speed of birds' movement increased.

- 4.45 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue, speed of birds' movementt increased.
- 4.46 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue, steerforce increased.
- 4.47 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue, steerforce increased.
- 4.48 Screen shot of items returned in a search for 'football' in the UTS Library catalogue, steerforce increased.
- 4.49 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue, colour removed
- 4.50 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue, colour removed
- 4.51 Screen shot of 400 items returned in a search for 'football' in the UTS Library catalogue, colour removed
- 4.52 Live search interface for the *Flock* prototype
- 4.53 Screen shot of flock visualisation of 962 results returned in a keyword search for 'atomic' in the UTS Library catalogue.
- 4.54 Screen shot of flock visualisation of 555 results returned in a keyword search for 'bacteria' in the UTS Library catalogue.
- 4.55 Screen shot of flock visualisation of 370 results returned in a keyword search for 'elephants' in the UTS Library catalogue.
- 4.56 Screen shot of flock visualisation of 909 results returned in a keyword search for 'football' in the UTS Library catalogue.
- 4.57 Screen shot of flock visualisation of 428 results returned in a keyword search for 'gardening' in the UTS Library catalogue.
- 4.58 Screen shot of flock visualisation of 363 results returned in a keyword search for 'sugar' in the UTS Library catalogue.
- 4.59 Screen shot of flock visualisation of 200 results returned in a keyword search for 'football' in the UTS Library catalogue.
- 4.60 Screen shot of flock visualisation of 200 results returned in a keyword search for 'football' in the UTS Library catalogue.
- 4.61 Screen shot of flock visualisation of 200 results returned in a keyword search for 'football' in the UTS Library catalogue.

- 4.62 Screen shot of flock visualisation of 200 results returned in a keyword search for 'football' in the UTS Library catalogue.
- 4.63 Screen shot of flock visualisation of 200 results returned in a keyword search for 'football' in the UTS Library catalogue.
- 4.64 Screen shot of flock visualisation of 200 results returned in a keyword search for 'football' in the UTS Library catalogue.
- 4.65 Detail of flock visualisation

## Chapter 5

- 5.1 Visualisation of a set of 200 search results from a keyword search on 'football' in the UTS Library catalogue, using a Delaunay triangulation algorithm.
- 5.2 Visualisation of a set of 200 search results from a keyword search on 'football' in the UTS Library catalogue, using a Voronoi diagram algorithm.
- 5.3 The Warburg Library in Hamburg in the 1920s
- 5.4 The Sitterwerk Library
- 5.5 Sketches of visual organising forms indentified in visual research
- 5.6 20 points and their Voronoi cells
- 5.7 The Delaunay triangulation of a random set of 100 points on a plane
- 5.8 *Del ray Beach, Florida* by Benjamin Grant
- 5.9 *Walking* by Laurie Frick
- 5.10 *Mapa* by Ampara de la Sota
- 5.11 *Broadway Boogie Woogie* by Piet Mondrian
- 5.12 *Friendship* by Anges Martin
- 5.13 *Composition 49* by Lee Krasner
- 5.14 *Thiocyanate Bioreactor Genome Summary* by Stamen Design and Banfield Lab, UC Berkeley
- 5.15 Lead textile work by Sue Lawty
- 5.16 *Crazed 8: Incarceration* by Kathleen Loomis
- 5.17 Bojagi wrapping cloth by unknown artist
- 5.18 *Pull 1* by Emma Langridge
- 5.19 *New York City Map* by Ruben Marroquin
- 5.20 Shibori fabric print by Fritz Jeromin

- 5.21 *Grids are not flat* by Mark Bradford
- 5.22 Unknown work by Katsumi Hayakawa
- 5.23 *Vice Versa (1)* by Jennifer Davies
- 5.24 *White painting* by Mark Bradford
- 5.25 *Irregular grid* by Sol Lewitt
- 5.26 Voroni diagram
- 5.27 Voronoi diagram
- 5.28 *Cheap Voronoi* by Nicholas Barradeau
- 5.29 *Voroni* by Jurg Lehni & Jonathan Puckey
- 5.30 Embroidered notebook by unknown artist
- 5.31 *rdr\_011#3* by Leonel Cunha
- 5.32 Unknown work by Andreas Papastergiou
- 5.33 *Net series* by Paolo Ceriç
- 5.34 *Noise studies* by Diana Lange
- 5.34 20 points and their Voronoi cells.
- 5.35 Six iterations of the Hilbert Curve
- 5.36 First iteration of prototype, titled ‘Static’.
- 5.37 First iteration of prototype, titled ‘Dynamic’.
- 5.38 Image showing the nodes, links and polygons of an early iteration of *Neighbours*.
- 5.39 Second phase iteration: *Static #1*.
- 5.40 Second phase iteration: *Dyanamic #1*.
- 5.41 Second phase iteration: *Static #2*.
- 5.42 Second phase iteration: *Dynamic #2*.
- 5.43 Second phase iteration: *Static #3*.
- 5.44 Second phase iteration: *Dynamic #3*
- 5.45 Second phase iteration: *Static #4*
- 5.46 Second phase iteration: *Dynamic #4*.
- 5.47 Second phase iteration: *Dynamic #5*.
- 5.48 Second phase iteration: *Static #6*.
- 5.49 Second phase iteration: *Dynamic #6*.
- 5.50 Second phase iteration: *Static #7*.
- 5.51 Second phase iteration: *Dynamic #7*.

- 5.52 *Static #3*
- 5.53 *Static #7*
- 5.54 Third phase iteration: visualisation of 12273 results returned in a keyword search for ‘architecture’ in the UTS Library catalogue.
- 5.55 Third phase iteration: visualisation of 299 results returned in a keyword search for ‘atomic’ in the UTS Library catalogue.
- 5.56 Third phase iteration: visualisation of 217 results returned in a keyword search for ‘bacteria’ in the UTS Library catalogue.
- 5.57 Third phase iteration: visualisation of 107 results returned in a keyword search for ‘elephants’ in the UTS Library catalogue.
- 5.58 Third phase iteration: visualisation of 514 results returned in a keyword search for ‘football’ in the UTS Library catalogue.
- 5.59 Third phase iteration: visualisation of 1129 results returned in a keyword search for ‘quantum’ in the UTS Library catalogue.
- 5.60 Third phase iteration: visualisation of 12273 results returned in a keyword search for ‘architecture’ in the UTS Library catalogue.
- 5.61 Third phase iteration: visualisation of 299 results returned in a keyword search for ‘atomic’ in the UTS Library catalogue.
- 5.62 Third phase iteration: visualisation of 217 results returned in a keyword search for ‘bacteria’ in the UTS Library catalogue.
- 5.63 Third phase iteration: visualisation of 107 results returned in a keyword search for ‘elephants’ in the UTS Library catalogue.
- 5.64 Third phase iteration: visualisation of 514 results returned in a keyword search for ‘football’ in the UTS Library catalogue.
- 5.65 Third phase iteration: visualisation of 1129 results returned in a keyword search for ‘quantum’ in the UTS Library catalogue.
- 5.66 Demonstration of zoom function in ‘atomic’ keyword results.
- 5.67 Iteration of search results for keyword ‘quantum’, manipulated using sliders.
- 5.68 Iteration of search results for keyword ‘quantum’, manipulated using sliders.
- 5.69 Iteration of search results for keyword ‘quantum’, manipulated using sliders.
- 5.70 Iteration of search results for keyword ‘quantum’, manipulated using sliders.

- 5.73 Delaunay-based visualisation of 12273 results returned in a keyword search for 'architecture' in the UTS Library catalogue.
- 5.74 Delaunay-based visualisation of 217 results returned in a keyword search for 'bacteria' in the UTS Library catalogue.
- 5.75 Voronoi-based visualisation of 12273 results returned in a keyword search for 'architecture' in the UTS Library catalogue.
- 5.76 Voronoi-based visualisation of 217 results returned in a keyword search for 'bacteria' in the UTS Library catalogue.
- 5.77 Voronoi-based visualisation of 1129 results returned in a keyword search for 'quantum' in the UTS Library catalogue.
- 5.78 List view of search for 'architecture' in the UTS Library catalogue
- 5.79 Delaunay-based visualisation of 'architecture' search in the UTS Library catalogue, with individual titles identified.
- 5.80 Voronoi-based visualisation of 198 results returned in a keyword search for 'football' in the UTS Library catalogue with one title identified.
- 5.81 Voronoi-based visualisation of 514 results returned in a keyword search for 'football' in the UTS Library catalogue with one title identified.

# Abstract

Library collections have changed significantly in the past 50 years. A collection in a research library has moved from a physical repository – of books stored in a building – to one that is made up of digital materials, accessible from anywhere. Correspondingly, libraries' approach to collection development has shifted. Where once libraries amassed as much material as possible, so as to fulfil any need of a patron, the library now focuses on providing access to digital items distributed across many sites. Access to library collection items is through digital interfaces, primarily the online catalogue.

The graphical conventions of these catalogue interfaces are modeled on previous incarnations of the catalogue and blended with conventions drawn from the Web search engine. These conventions are all borrowed, not developed specifically for access to a library collection through a graphical user interface. This can be seen in three primary ways: the presentation of individual library records, the use of the single search box and the use of lists to display catalogue search results. The last of these is my central point of concern. The list is a graphical form that organises information and does not provide context for or communicate different types of relationships between search results. It is time to seek alternative ways of presenting library catalogue search results that take account of the affordances of the graphical user interface. The central research question of this thesis then is: how might new visual approaches to library catalogue interfaces enhance the search experience?

Using a Research through Design methodology, I develop three prototypes through which I explore alternative approaches to the visual design of catalogue search results. The prototypes build on the research of scholars and practitioners seeking more generous approaches to library collection interfaces by providing a visual approach that contributes a relational understanding of library collections (Whitelaw 2012, 2015). This approach recognises that the graphical forms used to structure information are persuasive, rather than pragmatic and as such can be used to create new ways for researchers to understand the library collection.
