Dear Clara Javaherian,

for paper 181 Gaussian dephasing noise spectroscopy by qudit spectators, you indicated that you would like to present it as a poster. Here are the instructions for poster presenters.

The poster sessions for TQC 2021 will be held using the remote conferencing tool [remo.co](https://remo.co/): <https://remo.co/>

Each poster will be assigned a "table" where presenters will upload their poster in the pdf format (recommended file size: up to 5 MB). The participants will be able to interact with poster presenters using text chat, video call or a virtual "whiteboard". Participants of the discussion can also share their screen to help the discussion.

More detailed instructions on using [remo.co](https://remo.co/) will be provided next week.

To accomodate participants from different time zones, there will be two poster sessions:

- Tuesday, July 6, 9:30-11:30 (Eastern European Summer Time = UTC+3);
- Wednesday, July 7, 17:30-19:30 (Eastern European Summer Time = UTC+3);

To help us with scheduling, please complete the poster presenter form at <https://tqc2021.lu.lv/registration/poster-presenter-information-form/> by Monday, June 21, indicating your time preferences.

If your plans have changed and you no longer plan to present your poster, let us know, by sending an e-mail to [info@tqc2021.lu.lv](mailto:info@tqc2021.lu.lv).

Best wishes,  
TQC 2021 organizers
