In Fig. 2 of this article, there is no references included; the figure should have appeared as shown below.

COMET Outcome Domains		2010 – 2015	2016 – 2020
A Delivery of care	E Personal circumstances	Cousens et al. ¹⁷ SHIFT ^{18,20} Frumkin et al. ¹⁹ Ioannou et al. ²² Kalfoglou et al. ²³ Lewis et al. ²⁶ Beard et al. ¹⁵ NextGen ^{16, 24, 25} Hottkamp et al. ²¹ Hottkamp et al. ²⁰ Mathijssen et al. ²⁷ Rothwell et al. ²⁸ Tardif et al. ²⁹	
B Cognitive functioning	F Congenital, familial and genetic outcomes		
C Emotional functioning/wellbeing	G Pregnancy, puerperium, and perinatal outcomes		
D Social functioning	H Need for Further Intervention		
CODECS Outcome Domains			
Barriers, facilitators, and factors influencing patient experience			
Patient preferences			
Goals of pre- and post-test genetic counselling	A		
Timeliness			
Patient satisfaction with the processes of RGCS			
Patient attitudes, perceptions and beliefs related to RGCS			
Deliberation and informed choice	B		
Knowledge and understanding			
Psychological wellbeing	C		
Decision satisfaction and regret			
Acceptability of further testing or alternative reproductive options	D		
Privacy concerns and stigmatisation			
Reproductive decision-making			
Non-reproductive decision-making	E		
Familial implications			
Perceived utility of RGCS			
Primary outcomes of RGCS	F		
Pregnancy outcomes	G		
Further testing	H
