Message from AIH-CLRA 2021 Workshop Chairs
EDOCW 2021

## 1. About the AIH-CLRA 2021 workshop

***AI for Health: Closing the Loop from Research to Applications (AIH-CLRA 2021)*** is held for the first time in conjunction with the 25th IEEE International EDOC Conference virtually from October 25th to 29th 2021.
The workshop objective is to bring AI researchers and health industry domain experts together to present and discuss the latest research in AI for health, and the challenges and opportunities in translating AI research to shape the future of healthcare applications. Special attention is devoted to building end-user trust in AI technologies through interpretability and transparency, ethics and novel technologies such as blockchain and knowledge graphs.
In total, 7 papers were submitted to the workshop and out of these, three high-quality submissions were accepted with a 43% acceptance rate. Each paper has received at least two reviews by experts in the respective research areas. We would like to thank all authors for their valuable contributions.

## 2. Workshop program

Keynote 1: A/Prof Mark Cowley, Head of Computational Biology Group, Children's Cancer Institute
Keynote 2: Daniel Uribe, MBA, CEO & Co-Founder of Genobank.io
