

UTS COSMOPOLITAN CIVIL SOCIETIES RESEARCH CENTRE

Environment and Society

SEMINAR SERIES 2009

When: Wednesday 11 November 2009, 4pm – 6pm

Where: Cosmopolitan Civil Societies Research Centre, UTS City Campus
Level 3, Mary Ann House, 645 Harris Street, Sydney
(a short walk from Central Railway Station)

ABOUT ENVIRONMENT AND SOCIETY

Climate change now makes daily impacts on all our lives, but societies have always been engaged with natural environments. In cities as well as in rural areas, human societies not only draw resources from the land and water, hunt animals or harvest crops or do both, but they share ancestries with heroic animals and birds, they shape their myths and philosophies around nature, and they invent wildernesses into which to retreat or over which to fight. More than physical interactions, societies make meanings from their entangled relationships with nature – they understand themselves and others through interactions with animals, plants and places. In the constant interactive processes which Appadurai has called ‘making localities’, human societies are shaped by environments at the same time as they change and reshape the places around them.

In the Environment and Society node, researchers are drawing critically on approaches such as Political Ecology, Cultural Politics and Environmental History and Anthropology as they find ways to engage social justice and cosmopolitan civil societies with conservation and environmental sustainability.

SEMINAR TOPICS

Conservation, Communities and Eco-trekking:

Understanding the impacts of World Heritage listing for the Kokoda Track, Papua New Guinea

- Stephen Wearing

Recovery, management or development?

Shifting land strategies under the Land Rights Act in NSW.

- Heidi Norman

Nature, culture, politics:

Middle Eastern experience & politics in urban Sydney’s conservation battles.

- Heather Goodall

Presentations are about 20 minutes with 10 minute Q and A, followed by 30 minutes of wider discussion. Refreshments will be provided.

More Information about additional speakers and topics will be broadcast closer to the date.
