IMPORTANT YEAR 2000 NOTICE

The University of Technology, Sydney is taking all reasonable steps to identify and remedy any Year 2000 problems which might interfere with the courses and subjects it is proposing to offer during the Year 2000. Students and prospective students are advised that the University may still find it necessary in responding to any Year 2000 problem, to change the details of any course, subject, or class described in this or any other University publication. This could include not offering subjects in a particular teaching period, altering the mode of delivery for teaching, and changing assessment requirements. The University will endeavour:

• to confine such changes to the minimum necessary to address the Year 2000 problem
• to provide advance notice to students to the full extent possible, and
• where possible, to make other reasonable arrangements to minimise any disadvantage to students.

Students and prospective students should make appropriate inquiries to determine whether a course or subject has been affected by a Year 2000 problem by contacting the relevant Faculty Office.

DISCLAIMER

This publication contains information which was current at 20 August 1999. Changes in circumstances after this date may impact upon the accuracy or currency of the information. The University takes all due care to ensure that the information contained here is accurate, but reserves the right to vary any information described in this publication without notice. EQUAL OPPORTUNITY
It is the policy of the University of Technology, Sydney to provide equal opportunity for all persons regardless of sex, race, marital status, family responsibilities, disability, sexual preference, age, political conviction or religious belief.

FREE SPEECH
The University supports the right to freedom of speech and the rights of its members to contribute to the diversity of views presented in our society.

NON-DISCRIMINATORY LANGUAGE
UTS has adopted the use of non-discriminatory language as a key strategy in providing equal opportunity for all staff and students. Guidelines for the use of non-discriminatory language have been developed and all members of the University community are encouraged to use them.

GENERAL INFORMATION

WELCOME

Welcome to the University of Technology, Sydney (UTS), one of the largest universities in New South Wales – a university with an international reputation for quality programs and flexible learning. UTS develops, and regularly revises its programs of study in partnership with industry, government and professional bodies, so that its degrees are based on the latest professional standards and current practices. As a result, UTS produces graduates who are ready for work, and this is demonstrated in the high numbers of its students who enter the workforce within four months of finishing their degree.

UTS offers its students a lively, supportive and diverse learning environment across three campuses, and a range of social, cultural and sporting facilities to enrich each student’s experience. UTS regards learning as a lifelong experience, and offers a range of programs to cater for the educational needs of people at a variety of stages in their lives, and from diverse backgrounds and cultures.

UTS offers a range of undergraduate and postgraduate degrees, which are developed by the Faculties of Business; Design, Architecture and Building; Education; Engineering; Humanities and Social Sciences; Law; Mathematical and Computing Sciences; Nursing, Midwifery and Health; and Science. Each of these faculties is responsible for a range of programs across a number of key disciplines, and many offer courses in conjunction with one another, or with the Institute for International Studies. Courses developed and delivered by these UTS faculties reflect the University’s commitment to providing a relevant education to students through flexible and work-based modes of learning and through the ongoing internationalisation of the curriculum.

ABOUT THE UTS HANDBOOKS

Every year UTS produces 10 faculty/institute handbooks which provide the latest information on approved courses and subjects to be offered in the following year. These handbooks include comprehensive details about course content and structure, subject and elective choices, attendance patterns, credit point requirements, and important faculty and student information. Many of them also contain faculty policies and guidelines for participation in specific courses. This provides students with the necessary information to meet the requirements of the course, complete a program of study, and receive a degree.

UTS also produces a companion volume to these handbooks every year. The UTS Calendar contains the University Act, By-law and Rules, a list of courses offered across the University, and other useful University information. Copies of the faculty/institute handbooks and the UTS Calendar are held in the University’s libraries and faculty offices and can be purchased at the Co-op Bookshop.

The information contained in the UTS Handbooks and Calendar is correct at the time of printing. However, UTS is continuously updating and reviewing courses and services to ensure that they meet the needs of students and industry, and as a result information contained in these publications may be subject to change.

APPLICATIONS

Undergraduate
The NSW and ACT Universities Admissions Centre (UAC) processes most applications for undergraduate courses which start at the beginning of the year. Students are required to lodge these UAC application forms between August and October. To find out more about these courses and the application procedures, check the UAC Guide, or the UAC website at: www.uac.edu.au

Students can also apply for entry to some UTS courses by lodging a UTS application form directly with the University. These are usually courses that are not available to recent school leavers.

Postgraduate
Applications for postgraduate courses should be made directly to UTS. For courses starting at the beginning of the year, most applications are open from August to October, but some may have earlier closing dates. For courses starting in the middle of the year, applications close in May.

For more information about applying to study at UTS, contact the UTS Information Service.

International students
International students' applications for both postgraduate and undergraduate courses can be made either directly to the International Programs Office or through one of the University’s registered agents. For courses starting at the beginning of the year, applications should be received by 31 December of the previous year. For courses starting in the middle of the year, applications should be received by 31 May of that year. For more information contact the International Programs Office.

Non-award and external award study
Students who want to study a single subject at UTS which is not part of a UTS degree or qualification, must apply for non-award or external award study. There are four application periods, and closing dates vary for each semester. Some faculties may have special application procedures which will depend on the subjects chosen. For more information contact the appropriate faculty office or the UTS Information Service.

FEES AND COSTS

Service Fees
Service Fees are charged to students to contribute to the cost of a range of facilities and services which are generally available to all students during the course of their study.

Variations and exemptions
Fees and charges may vary from year to year. In certain circumstances, students may not be required to pay all or part of one or more of the different components of the Service Fees.

For full details of variations and exemptions to the fees listed below, contact the UTS Information Service.
Fee Components

Union Entrance Fee
a once-only charge for new students $20

Union Fee
a semester-based charge for currently enrolled students $100 per semester

Students’ Association Fee
a yearly charge for currently enrolled students $48 per year

Student Accommodation Levy
a yearly charge for currently enrolled students $56 per year

Student Identification Card Charge
a yearly charge for students enrolled on a tuition fee basis $15 per year

Course Fees

Some courses (not local undergraduate courses) at UTS attract a course fee. This is charged to students for the course itself, in addition to the Service Fees outlined above. The level of such fees is calculated by individual faculties on a course by course basis. Payment of course fees may vary depending on a student’s status, and on conditions laid down by the faculty. Please contact your faculty office for full details.

Details of course fees are outlined under each course entry in this Handbook, but are subject to change. Always check with the faculty for the latest information.

Course Fees for International Students

Annual Course Fees for undergraduate international students range from A$17,500 to A$16,500, and for postgraduate international students from A$12,000 to A$16,500. For more information contact the International Programs Office.

Other costs

Students may incur other costs while they study at UTS. These may include books, photocopying, equipment hire, the purchase of computer software and hardware, and email and internet services.

The University’s recommended internet service provider currently charges $20 per month for 30 hours access or $30 per month for $70 hours access. These prices are subject to change.

HECS

(Higher Education Contribution Scheme)

HECS is a financial contribution paid to the Commonwealth Government by tertiary students towards the cost of their education. It is payable each teaching period and the amount paid will vary according to the number of credit points undertaken and the method of payment nominated by the student. Most students have three choices in the way they pay HECS:

1. Paying all of the HECS up front and receiving a 25% discount
2. Deferring all payment until a student’s income reaches a certain level, or
3. Paying at least $500 of the HECS contribution up front and deferring the remainder.

Note: these options may not apply to New Zealand citizens and Permanent Residents.

Commonwealth legislation sets strict conditions for HECS over which the University has no control. HECS charges are based on the subjects in which students are enrolled on the HECS census date. It is important for students to realise that any reductions in their academic workload after the census date for a particular semester will not reduce their HECS liability.

Students who defer their HECS payments become liable to commence repayment once their taxable income reaches the repayment threshold. This does not necessarily mean at the conclusion of their studies - a student’s income may reach this threshold before then.

New students, students returning from leave and students who are commencing a new or second course, must complete a Payment Options Declaration Form. This form must be lodged with the University by the census date and should show a valid Tax File Number.

For Autumn Semester the HECS census date is 31 March, and for Spring Semester the HECS census date is 31 August. HECS census dates for other teaching periods can be obtained from the UTS Information Service.

There are a number of variations to these guidelines. It is the responsibility of each student to find out which HECS conditions apply to them. Information can be obtained from the booklet HECS Your Questions Answered, which is available from the HECS office on 1800 020 108 or the UTS Information Service.
FINANCIAL HELP

Austudy/Youth Allowance

Students under 25 years old, may be eligible to receive financial assistance in the form of the Youth Allowance.

Full-time students over 25 years old may be eligible to receive Austudy which provides financial help to students who meet its income and assets requirements. Application forms and information about eligibility for Austudy are available from Student Services at Kuring-gai or City campuses.

Commonwealth legislation sets strict requirements over which the University has no control. It is important for the students concerned to understand these requirements.

Students who receive Austudy and decide to drop subjects during the semester, need to be aware that to remain eligible for Austudy they must be enrolled in a minimum of 18 credit points, or have a HECS liability for the semester of .375. The only exceptions made are for students with disabilities which interfere with their studies, students who are single supporting parents or, in some exceptional cases, those who have been directed by the University to reduce their study load.

For more information, talk to a student welfare officer in the Student Services Unit.

MESSAGE FROM THE DEAN

I welcome all students, staff and visitors in 2000. The Faculty of Law had its beginnings in 1975 when the then NSW Institute of Technology was invited by the NSW Government to offer an undergraduate course in law. Elements of that course have stood the test of time, and may be distinguished in a number of aspects from other law degrees. These include a strong professional core, a commitment to the development of professional skills and a willingness to accommodate the needs of mature students, particularly those in employment.

The Faculty has since developed combined and double degree programs and also offers graduate programs, including the Master of Laws (by coursework), Master of Law and Legal Practice and the SJD (Doctor of Juridical Science), which was the first of its kind in Australia. The Faculty has an ongoing commitment for the provision of free legal services to UTS staff and students and community legal research through the UTS Community Law and Legal Research Centre, which was opened in 1996.

As well, the Faculty, with the University of New South Wales Faculty of Law, jointly operates the Australasian Legal Information Institute (AustLII), which provides free access to Australasian legal material via the Internet. In 1990, as a result of the merger of UTS with the Kuring-gai College of Advanced Education, the Departments of Business Law in the City and Legal Studies at Kuring-gai were incorporated with the Faculty. This meant that the new Faculty would also undertake supply programs in other faculties, particularly the Faculty of Business.

1996 was a year of change for the Faculty, with major revisions to the undergraduate Law degree and the introduction of the Legal Practice major as an integral part of the undergraduate program, with progression into the new Graduate Diploma in Legal Practice to complete legal training. With its provision of 'One Stop Legal Education', the Faculty is now recognised as a major innovator of legal education.

Since 1997, the Faculty has been in new accommodation at the Haymarket campus. This incorporates a modern moot court and two practice courts within the greatly enhanced facilities.

Improved computer laboratories have afforded the Faculty the opportunity to exploit its expertise within the increasingly important area of legal technology.

During 1997, in addition to the opening of the new premises, the Faculty celebrated 20 years of teaching at UTS, as well as hosting the Australasian Law Teachers Association Conference and a major AustLII Legal Information Technology Conference.

I wish you every success and trust that your stay with us is both enjoyable and productive.
FACULTY MISSION STATEMENT

The Faculty of Law provides higher education with a professional perspective in the discipline of law at the undergraduate, graduate and postgraduate levels.

The Faculty is concerned to further the intellectual development and professional skills of students by initiating and encouraging critical analysis of legal institutions, legal theories and reasoning, principles and practices; their utilisation and their impact upon the rights and obligations of individuals, government, business, professional practice and the interests of a wider society. It is committed to the furtherance of scholarship and research into legal issues and practices; to participation in discussion and debate concerned with legal theory, legal procedures, the rule of law and the effectiveness of the legal system in societies; and to the dissemination and publication of its contribution in these areas.

The Faculty is concerned to initiate and respond to critical developments and challenges, in particular those posed by new technologies, and their interpretation and application in legal contexts; and to familiarise academic staff, members of the profession and students with the changing technological environment, and equip them to utilise new methods and tools for information gathering, storage, retrieval and analysis.

The Faculty provides specialist law teaching in diverse Law programs in order to build upon skills, knowledge and expertise in the discipline of law, and in other professional disciplines that need to understand the legal implications and environment of their professional practice.

The emphasis is upon practical legal education and the enhancement of legal practice. It provides formal training and professional qualifications on behalf of the relevant admitting authority to applicants seeking admission to practise as legal practitioners.

Faculty of Law Handbook
INFORMATION FOR LAW STUDENTS

The Faculty of Law was formally established in 1975 and began teaching in 1977. The Faculty is located at the City and Kuring-gai campuses, and offers a variety of undergraduate and postgraduate courses. The Faculty also supplies subjects in Business Law and Legal Studies. The undergraduate courses provide opportunities for full- and part-time study for those wishing to obtain professional qualifications in law.

Law Information Office

The Faculty's Information Office is situated on Level 3 of Building B, Haymarket Campus (Quay Street) and is open from 10.00 a.m. to 1.00 p.m. and from 2.00 p.m. to 6.00 p.m. during semesters. During semester breaks and tutorial weeks, the Office will only remain open until 5.00 p.m.

The assignment box for the submission of assignments is located here. Students should note that assignments received after 6.00 p.m. will be recorded as arriving the following day. The return of marked assignments to students; the issuing of seminar problems; take-home exams; and the sale of reading materials are all conducted through the Law Information Office. In addition, Faculty information, forms, timetables and examination information are available from the Office or displayed on the noticeboards in the area adjacent to the Office.

Notices

Official University notices are displayed on the noticeboards on Level 3 of the Faculty of Law at Haymarket in the City campus, and Level 4 of the Kuring-gai campus; students are required to be acquainted with the contents of those announcements that concern them. Misreading or misunderstanding of official information will not be accepted as a reason for a student being unaware of matters so notified.

Parking

At Haymarket in the City campus, the car park in Quay Street, opposite the Library, may have limited parking space available for students after 3.00 p.m. Kings car park and the Apple car park offer discounted student parking. Other commercial parking facilities are available at Her Majesty’s Theatre, Paddy’s Markets and the Entertainment Centre. Student parking is available on the Kuring-gai campus for a fee.

Law Students’ Society

The Law Students’ Society is governed by a Council of student members, elected at the Society’s Annual General Meeting held at the beginning of the Autumn semester each year. The Council in turn elects an Executive consisting of the President, Vice-President, Treasurer, ALSA (Australasian Law Students’ Association) Representative and Secretary. The Council meets on a fortnightly basis during each semester to review the Society’s activities and discuss new initiatives. Interest and input are encouraged from students; many of the ideas acted upon come from members.

Social functions are an important part of university life and the Society regularly organises functions for students. Popular events include the annual Graduation Ball and a variety of ‘drinks nights’ throughout each semester. The Society can also assist in organising functions that students wish to hold.

Services to members

Past exam papers

The Society provides members with copies of past exam papers in each core subject to enable preparation for final examinations.

Secondhand bookshop

The Society operates a secondhand bookshop through which members may buy and sell textbooks.

Mooting competition

The Society conducts an internal mooting competition in the Autumn semester each year to select representatives for participation in intervarsity competitions.

Affiliation with Australasian Law Students’ Association (ALSA)

The Society is affiliated with the ALSA, the Asian-Pacific body representing Law students. As a result, members receive copies of the Reporter (quarterly journal) and Decisions (careers journal) publications, and may attend its annual eight-day conference in July.

Student representation

The Law Students’ Society is often requested to provide students’ views on matters relating to the Law programs and to provide student input on various committees. The Society also acts as a communication channel between the Faculty and the student body. The Society provides advocacy services and other assistance with academic appeals. The Society
has also been instrumental in negotiating for reduced class sizes. As an avenue for student complaints, students may make a written submission, which the Society will bring to the attention of the Faculty.

**Publications**

The Society is responsible for the publication of the *Full Bench* magazine. This provides an outlet for the Council to communicate with its members. Also, members may submit articles of interest, either social, academic or education-based. These will be reviewed for inclusion by the Council.

*Full Bench* reports upon the recent and upcoming social events of the Society and any education issues which are relevant to Law students. Recently, the publication has included articles of social comment, allowing members to air their views.

**PRIZES AND SCHOLARSHIPS**

An annual prize ceremony is held at the Faculty of Law each year in recognition of the academic achievements of students. The following is a list of prizes awarded for the Bachelor of Laws degree. These prizes may be awarded each semester if there is a candidate who reaches a level of academic achievement acceptable to the Faculty Board in Law.

**Scholarships**

There are presently two scholarships available for the Bachelor of Laws degree. These are the Phillips Fox Scholarship in Law, and the Tress Cocks and Maddox Scholarship in Law, tenable for one year only and awarded to an enrolled Law student. Information is available from the Faculty of Law.

International Studies electives

The Institute for International Studies at UTS offers electives in language studies and in the study of contemporary societies in parts of the non-English-speaking world. All subjects are taught over one semester and have a value of 8 credit points.

Language studies

All students wishing to take language studies as a credited part of their degree are required to enrol through the Institute for International Studies, whether the language studies are undertaken on a UTS campus or elsewhere. The Institute teaches some language programs at UTS, has made arrangements with other universities for some language programs to be taught to UTS students, and can make special arrangements for individual students to attend specific language programs where academic needs demand.

The individual student's level of language proficiency before entry to the UTS program determines their level of language study. There is a range of entry levels to the various programs available. Most are available at beginners' and post-HSC levels, and some at more advanced levels.

The Institute offers language programs in Cantonese, Chinese, French, German, Greek, Indonesian, Italian, Japanese, Malaysian, Russian, Spanish, and Thai. The Institute can arrange for the teaching of other language programs depending on availability and demand.

Contemporary Society

The Institute also offers a series of subjects that provide an introduction to the contemporary societies, politics, economics and culture of the countries of East Asia and South-East Asia, Latin America and Europe that are the areas of specialisation of the Institute.

Introductory subjects on the contemporary societies of China, Japan, South-East Asia, Hong Kong, Taiwan, Latin America and Europe are available. There are no prerequisites for any of the Contemporary Society subjects. All subjects are taught in English and are available, with the permission of their faculties, to all UTS students.

Further information is available from the Institute for International Studies, UTS, 10 Quay Street, Ultimo, telephone (02) 9514 1574, fax (02) 9514 1578 and the 2000 Institute for International Studies Handbook.

Subjects open to other faculties

Students enrolled in other faculties in the University may apply for approval to enrol in Law subjects. This approval is subject to the meeting of prerequisites and to class sizes. Applications are to be made prior to enrolment to the Director of Undergraduate Programs of the Law Faculty (or his/her nominee).

Non-award students

Applications may be made by persons not enrolled in the University to enrol in Law subjects as non-award students. Applications should be directed to Admissions, Tower Building, Broadway.

Miscellaneous students

Law students who have completed the course may enrol as miscellaneous students in subjects they were not able to complete while enrolled. Applications should be directed to Admissions, Tower Building, Broadway.

Cross-institutional students

Students from other Universities may seek to enter UTS as cross-institutional students and will be permitted, with their Faculty's approval, to undertake up to a maximum of three subjects that will then be credited towards their degree. Applications should be directed to Admissions, Tower Building, Broadway.

The Summer program in Law

The Faculty offers a Summer program to enable enrolled Law students to undertake one or two electives at the conclusion of the Spring semester. The Summer program will consist of six teaching weeks in December and January and may include a weekend workshop.

Details of application procedures for the 1999/2000 Summer session will be placed on the Faculty noticeboard in September 1999.

Computer laboratory within the Faculty

Computers are available for student use at the Faculty of Law. Inquiries for booking the use of these machines should be directed to Andrew Mowbray, the Faculty's Law Computer Consultant (or his nominee).
Recommended reading prior to entry

A Guide to Legal Problem Solving for Law Students, P Keyzer, Butterworths, or A Career in Law, edited by J F Corkery, Federation Press, may be purchased from the Co-op Bookshop, the Sydney Law Cooperative Bookshop, Butterworths or the Law Book Company.

Graduate Employment and Summer Clerkship programs

Students wishing to apply to enter the programs must do so in their penultimate year of study. The Faculty of Law participates in the Graduate Employment and Summer Clerkship programs conducted by many of the law schools in NSW in conjunction with the major Sydney law firms and government departments. Many of the firms will only employ graduates through the programs.

The application closing date for the programs is normally set in April/June of each year, and interested students are advised to watch the noticeboards because the deadlines imposed are strictly adhered to. Susan Carr-Gregg is the Academic Coordinator to be contacted with regard to these programs. Applications are lodged through Careers Services at Broadway.

Assessment

While assessment varies from subject to subject, students may be required to do one or more of the following: final examinations, informal examinations, take-home examinations, assignments, research work, class participation, moot, presentation of seminar papers or a viva voce.

Coordinating examiners will advise students of the mode of assessment for their subjects in their course outline and/or by notice on the noticeboard by the end of the third week of the semester.

Lodgement of assignments

Students are required to retain a copy of any assignment lodged in the assignment box.

Students who are handing in written work must submit it, with an assignment coversheet attached, in the assignment box located on Level 3 at the Law Faculty at Haymarket. The assignment box is cleared daily at 6.00 p.m. Assignments submitted by DX, by fax or by electronic mail will not be accepted by the Faculty.

Formal requirements

Essays and other written work should be prepared in accordance with the guidelines laid down in the Faculty of Law's Guide to Essay Writing, which may be obtained from the Faculty.

All work submitted for assessment should bear an assignment coversheet. These are available from the Law Information Office.

If required by the lecturer concerned, the work must be typed.

The work must be properly written with due regard to spelling, punctuation, grammar and syntax.

Unless otherwise instructed by the lecturer concerned, all written work should include footnotes or endnotes and a bibliography in the manner set out in the Guide to Essay Writing.

Any piece of written work which does not comply with these requirements may be:

- required to be rewritten in proper form;
- penalised in marks; or
- rejected without assessment.

Late work

Any work submitted after the date for submission may be penalised in marks or rejected without assessment.

Plagiarism

Where individual work is required for the purposes of assessment, the copying, unacknowledged use of, or reliance on the work of other individuals without acknowledgment is considered to be cheating/misconduct. The penalties imposed for cheating/misconduct or allowing work to be plagiarised are severe under the University rules and regulations.

Plagiarism is one of the most serious crimes in the academic community – it indicates an attempt by someone to pass off the words and/or ideas of another as their own. To take any but a few sequential words of another without acknowledgment is plagiarism and tantamount to cheating. It will be so treated in the Faculty of Law.

Experience shows that one of the most common ways for plagiarism to occur is when students work together. It is acknowledged by the academic staff that study groups are an efficient and beneficial method of learning – peer tuition is effective – but problems arise when it is extended into the assessment process. The Faculty expects, in fact demands,
all assignments submitted to be the work of the person who is credited with the mark. It can be an extremely fine line between discussion of an essay topic with another and collaboration, but where comparisons of various students’ work indicate collaboration, this will be taken to be plagiarism and the Faculty policy will be invoked. (Faculty of Law’s Guide to Essay Writing 1999, pp.15–17.) Any acts of plagiarism will be penalised. Such penalties may include, depending upon the seriousness and nature of the offence:

• a requirement that the assignment be rewritten de novo;
• a penalty in the reduction of marks awarded to the work, which may include a reduction to zero, or a sharing of the mark awarded to the document among its apparent authors;
• a fail result in the subject concerned; and
• a referral of the matter to the Associate Dean or other appropriate body.

Progression and acceleration policy
The following policy will apply to progression and acceleration.

Students will be permitted to enrol in subjects totalling up to 28 credit points per semester with the leave of the Director of Undergraduate Programs or nominee, if:

• there is no timetable clash;
• prerequisites and corequisites are satisfied;
• class size ceilings are not exceeded;
• the student’s academic record indicates he or she is capable of performing satisfactorily when accelerating; and
• the student can demonstrate that his or her work and other non-study commitments permit him or her to accelerate without detriment to his or her studies.

The Faculty of Law is unable to guarantee that there will be no timetable clash or no final examination clashes where students do not progress normally.

Exemptions
Subject to the approval of the Faculty Board in Law, it is possible for students to obtain exemptions for both Law and non-Law subjects.

Law subjects
Students may be able to obtain an exemption from a Law subject if they are able to satisfy the Faculty Board that a comparable course of study has been successfully undertaken as an Bachelor of Laws subject within the Law Faculty of another recognised university. As a general rule, exemptions will not be given if the subject was studied more than six years ago. The period in the ‘six-year rule’ shall be calculated from the date on which the subject in which the exemption is sought was successfully completed, to when it is due to be undertaken in the Faculty of Law. However, the Faculty Board shall always retain a discretion to waive the strict application of the rule in cases where there is additional evidence of work or study experience. Indeed, in subjects where there have been significant recent changes in the law, an exemption may not be granted even though the subject was successfully completed less than six years ago.

The Faculty Board must be satisfied that the student has successfully completed a comparable subject elsewhere. To verify this, the student must produce a transcript of his or her academic record and a copy of the relevant institution’s handbook containing a detailed description of the subject, together with the reading guide that was current at the time of study.

Exemption for Law subjects will only be granted to students who have studied law in a recognised law school. Students who have studied law through the Law Extension Committee of the Supreme Court (LPAB) will not be granted exemptions. Students must complete 67 per cent of requisite law subjects at UTS.

Non-Law subjects
It is possible to obtain exemptions for non-Law electives in the Bachelor of Laws and Bachelor of Laws (Indigenous) programs if students have completed a degree, diploma or associate diploma course from a recognised tertiary institution.

The maximum exemptions that can be granted on the basis of having completed a course are as follows:

• a degree course (three years full time) – 48 credit points
• a diploma course (three years full time) – 36 credit points
• an associate diploma course (two years full time) – 24 credit points
Students wishing to study non-Law electives within their Law degree, in either other faculties of the University or within a degree course at another university, may be granted approval to undertake up to 48 credit points. Formal application to do so must be made in writing to the Faculty Board in Law. In double degree and combined degree courses this can not be permitted where students want these subjects to be accredited to their degree(s).

**Partially completed courses**

No exemptions can be sought for a partially completed diploma or associate diploma course.

Students entering the Bachelor of Laws or Bachelor of Laws (Indigenous) programs with a partially completed degree, either as transfer students from another faculty of the University or from another university, may be granted up to a maximum of 24 credit points.

Students who wish to undertake subjects at another university and receive accreditation for them must apply in writing to the Faculty Board in Law.

Students who are seeking exemptions should complete an Application for Exemptions form, which is available from the Law Information Office. It is recommended that all students seeking an exemption should make an application early in the course. Inquiries should be directed to Administration.

**Internal course transfers**

UTS students who internally transfer into the Bachelor of Laws or Bachelor of Laws (Indigenous) programs may receive up to 48 credit points of exemptions from non-Law electives for subjects which have been completed as part of their previous UTS studies.

**Exchange program**

The Law Faculty has an exchange program with the University of Westminster situated in London, UK. Under this program, it is possible to undertake three or four law electives overseas. Students should forward applications on a form, which is available from the Law Information Office, to the Associate Dean. To be eligible for the scheme, students must have a credit average or better. The number of places is limited. Applications must be lodged at least six months prior to intended departure.

Once applications have been approved by both universities, students need to obtain a study visa from the British Consulate. At UTS, you lodge a Concurrent Study form and a Variation of Program form to delete local subjects and add the subjects 7XXXXX – X Westminster Exchange Subject 1–4. Marks achieved in the Westminster subjects are adjusted and appear on your UTS transcript and may be included in Honours calculations.

For further information, contact the Associate Dean, Andrew Mowbray, on (02) 9514 3761.

**Honours**

The awarding of Honours is presently under review. Students commencing their degrees in 2000 should consult the Faculty with regard to the changes.

It will be possible for students to gain an award with Honours in the Law degree or the Law component of combined or double degrees. The Bachelor of Laws degree is awarded with Honours, and does not require an additional Honours year. To this end, the Research Project, which is a necessary requirement, must be undertaken as an elective subject of 6 credit points within the degree. This subject forms part of the credit points required for degree completion, 192 for the full-time or part-time degree, 144 for combined degrees.

Application to undertake a Research Project must be made at least one month prior to enrolling in the subject. Students should make an appointment to see the coordinator to discuss the procedure that must be followed. As a research project normally takes longer than a semester to complete, students are advised to enrol in the subject in their third last semester of study, particularly if they intend undertaking practical legal training in their final semester, for no subjects may be undertaken in conjunction with this major.

The Honours Regulations are set out below:

1. **Awards**
   
   1.1 Awards of the Law degree or the Law component of a combined degree shall be classified as follows:
   
   (a) degree (with First Class Honours);
   
   (b) degree (with Second Class Honours); and
   
   (c) degree
   
   1.2 Award of the degree with Second Class Honours shall not be graded.
2. Requirements of Honours

2.1 To qualify for an award of the degree with Honours a student shall:

(a) successfully complete the subject 76040 Research Project 4;

(b) obtain an Honours mark, calculated in accordance with the formula ‘Sum of All’ (Law subject credit points \(\times\) mark) divisible by the ‘sum of all Law subject credit points’ such that

(i) for First Class Honours – 75 per cent
(ii) for Second Class Honours – 65 per cent

(c) not fail any subject after the first semester of study;

(d) successfully complete not less than 96 credit points of Law subjects within the Faculty of Law;

(e) for the purpose of the calculation in (b), students may discount up to six of their worst subjects provided that at least 12 UTS Bachelor of Laws subjects are included in the calculation; and

(f) a student’s Honours mark shall include the mark obtained by the student in the subject Research Project notwithstanding that such mark might be one of their worst subjects.

2.2 In exceptional circumstances the Faculty Board in Law may modify or dispense with the requirements of Regulation 2.1(c) and (d).

The University medal

The University may award a medal to students who have achieved outstanding academic merit throughout their undergraduate degree course. The medal awarded within the Bachelor of Laws program is to the student achieving the highest marks at First Class Honours level.

Regulations of the Faculty of Law

These are under review. Students commencing their degrees in 2000 should consult the Faculty with regard to the changes.

The following regulations relate to the Research Project and refer only to the Bachelor of Laws program in the Faculty of Law.

Research Project regulations

1. The regulations apply to the following elective subject 76040 Research Project 4.

2. A student undertaking a research project is required to demonstrate:

(a) eligibility to graduate with Honours;

(b) a high level of understanding of the law relevant to the topic;

(c) the capacity to research and analyse legal material;

(d) the ability to use research tools and skills;

(e) the ability to present the results of the research in a coherent and comprehensive form; and

(f) the availability of an appropriate supervisor.

3. Assessment is based on a dissertation to be submitted by students, which will normally be expected to lie within the following range:

Research Project: 12,000–15,000 words.

4. Where research related to research projects has been done for another purpose either in the Faculty of Law or elsewhere, full disclosure of that prior research must be made at the time the topic is submitted for approval. If the topic is approved notwithstanding such prior research, then that research shall not form part of the work completed for the research project and shall be excluded from the final assessment. The student shall provide further information concerning that research as may be requested by the supervisor, the examiners or the subject coordinator.

5. The examiners of research projects may require the student to undergo a viva voce examination, in which case the viva voce shall form part of the assessment of the subject.

6. The Faculty Board in Law has ultimate control over all aspects of research projects. Any student, the subject coordinator or the Associate Dean has the right to approach the Board on any issue arising out of these regulations, a research project or assessment.

7. There shall be a subject coordinator for research projects who shall be appointed at the first Faculty Board meeting in the Faculty of Law each year and shall hold office until the first Faculty Board meeting the following year. During the absence of
the subject coordinator, the Director of Undergraduate Programs or Associate Dean may act in his or her stead.

8. A student may enrol in the subject Research Project only if that student has:
   (a) successfully completed Stages 1-8 of the part-time program; and
   (b) successfully completed any core subject or elective subject relevant to the topic.

9. A student wishing to undertake a research project shall submit a signed written proposal to Administration on the form available from the Law Information Office. The proposal shall include the name of the topic of the proposed research project and the name of the supervisor and must be signed by the supervisor. Copies of these proposals shall be circulated by the subject coordinator to all members of the full-time academic staff of the Faculty of Law and, if no objection to the application is received by the subject coordinator within seven days of such circulation, the subject coordinator may approve the application, including the topic and the supervisor. Approval must be granted before enrolment is allowed.

10. If the subject coordinator does not approve the application, it shall be submitted to the next meeting of the Faculty Board, which may approve the application on such terms as it thinks fit, or disapprove the application.

11. A student is required to enrol in the Research Project subject no later than the beginning of the semester following that in which the subject coordinator or the Faculty Board approved the proposed research project.

12. (a) Supervisors have the day-to-day control and supervision of research projects and students are required to meet with their supervisors regularly.
   (b) Any amendments to the research project proposal may be approved by the supervisor if the project remains within the same substantial area as previously approved. However, any substantial amendments to the student’s approved proposal shall be proposed in writing to the supervisor and subject coordinator. Copies of the proposed amendment shall be circulated by the subject coordinator to all members of the Faculty’s full-time academic staff and if no objection to the application is received within seven days of such circulation, the amendment is deemed to be approved.

13. A research project shall normally be taken over one semester and the dissertation shall be lodged with the subject coordinator not later than 5.00 p.m. on the Friday of the 13th week of the semester.

Upon the student’s written request, the subject coordinator may, with the student’s supervisor, grant the student an extension of time for the submission of the project which shall not exceed two weeks from the original date of submission. Students requiring additional time are advised to apply in writing for an extension (which may or may not receive approval) to the Examination Review Committee or to seek leave and re-enrol in the subject in the following Autumn or Spring semester.

14. The dissertation must comply with the following format rules:
   (a) Two copies of the dissertation shall be presented to the subject coordinator. One of these copies will be returned to the student after examination.
   (b) The dissertation shall be written in English in good-quality typescript on one side of the paper only. In the body of the dissertation, one-and-one-half spacing is preferred, but double spacing is permissible. Single spacing may only be used for appendices, footnotes and quotations.
   (c) The paper used shall be good-quality medium-weight white stock, sufficiently opaque for normal reading.
   (d) The size of the paper shall be ISO A4 (297 mm x 210 mm).
   (e) The margins on each sheet shall be not less than 40 mm on the left-hand side, and 20 mm on the right-hand side, top and bottom.
   (f) Both copies of the dissertation shall be accompanied by an abstract of not more than 400 words.
   (g) Both copies of the dissertation shall be presented in a permanent and legible form and if not bound, then suitable for future binding.
   (h) Each copy of the dissertation shall be enclosed in a stiff cover.
15. For the research project, there shall be two examiners, appointed by the Faculty Board. If there are any unresolved differences of opinion on any matter relevant to a student's assessment, such differences shall be resolved by an umpire appointed by the Associate Dean.

16. Prior to final assessment of a research project, the examiners may require the student to rewrite and resubmit the dissertation in whole or in part, and in such a case the examiners shall provide details of the parts of the dissertation that require amendment, and their reasons for requiring such amendment. When a student is required to rewrite and resubmit the dissertation, that student shall be permitted to extend the subject over two semesters and shall re-enrol in the subject for a second semester.

Bachelor of Laws

- Course code: LL01
- Testamur title: Bachelor of Laws
- Abbreviation: LLB
- Course fee: HECS

The objective of the Bachelor of Laws (LLB) course is to enable students to reach a stage of creativity at which they have sufficient knowledge and sufficient ability to seek their own solutions to legal problems - solutions which they can justify in legal terms by using the legal materials at their disposal in a professional way.

Australia has a highly complex legal system and, as society has developed, so has the role of the lawyer. The range of knowledge and skills which lawyers now require is extensive. Today's lawyers are increasingly called upon to act as negotiators to settle matters, and to advise and counsel parties. The function of the lawyer also includes foreseeing problems and preventing the incident of disputation, as well as resolving disputes when they cannot be avoided. The course is concerned with the total range of functions of lawyers in the community. A preventive emphasis will also be apparent in the teaching of the various subjects throughout the course. Consideration will be given to how people can organise their affairs so as to anticipate and avoid potential disputes. In this regard, consideration will be given to the application of more than one and sometimes conflicting rules to a particular set of facts.

The primary object is not to produce specialists in any particular field of law. Although a degree of specialisation is allowed for in the provision of elective subjects, the view taken is that specialisation is something which comes later. The aim of the Law course is to provide a basis upon which subsequent specialisation can be built.

The subjects have been selected on the basis of two criteria: to provide (a) an overview of the legal system as a whole, and (b) an opportunity for the student to practise legal skills in differing contexts. The subjects are introductions, not to the law as a whole, but to the relevant branch of the law. They are designed to provide an understanding of the conceptual framework involved, the development of these concepts and a consideration of areas of current controversy. It is in the last area that the opportunity will be provided for students to develop their skill in the handling of legal material and thus reach the stage of independent legal creativity.

Course structure

The duration of the Bachelor of Laws course is four years in the full-time attendance mode and six years in the part-time attendance mode. The course is arranged in stages on a semester basis.

The Autumn semester normally commences in early March and the Spring semester commences in early August.

The overall structure has two components - the core and elective subjects, which include an optional Professional Program.

Core subjects (96 credit points)

The core of 14 subjects satisfies the Priestley requirements. The new core is as follows:

- 70113 Legal Process and History 10cp
- 70105 Legal Research 4cp
- 70217 Criminal Law 6cp
- 70211 Law of Contract 8cp
- 70311 Law of Tort 8cp
- 70616 Federal Constitutional Law 8cp
- 70317 Real Property 8cp

- 70617 Administrative Law 8cp
- 70417 Corporate Law 8cp
- 70516 Equity and Trusts 8cp
- 71116 Remedies 6cp
- 71215 Law of Evidence 6cp
- 71005 Practice and Procedure 4cp
Elective subjects (up to 96 credit points)

Depending upon their course of study, students must take up to 96 credit points of elective subjects. It is anticipated that for most students this will include the 24 credit points of practical legal training.

From time to time, the Faculty Board will consider new electives devised to meet emerging legal developments or fresh areas of study. Resources permitting, an array of electives will be made available (all of 6-credit-point value) drawn from the following list:

- Administration of Criminal Justice
- Advanced Administrative Law
- Advanced Company Law
- Advanced Constitutional Law
- Advanced Contracts
- Advanced Criminal Law
- Advanced Conflict of Laws
- Advanced Public Law
- Advanced Taxation Law
- Biomedical Law and Bioethics

- Transport Law - Selected Problems
- Women and the Law

Professional Program (24 credit points)

A number of subjects offered in the Professional Program can be studied as part of the undergraduate Law degree. It is an option which may be taken by students in their final semester of study, in place of four Law elective subjects (24cp). Practical Legal Training comprises five subjects and is taught over 18 weeks from 9.00 a.m. - 5.00 p.m. Monday to Friday. The subjects are:

- Litigation 6cp
- Property Transactions 6cp
- Commercial and Estate Practice 6cp
- Professional Conduct 1 (Legal Accounting) 3cp
- Professional Conduct 2 (Legal Ethics) 3cp

In addition, students enrol in a concurrent Graduate Certificate in Legal Practice comprising three additional subjects (12 credit points) in order to complete the Professional Program. The additional subjects are:

- Legal Skills and Professional Awareness 3c
- Advocacy 6c
- Practical Experience 6c

These subjects are undertaken concurrently with the Professional Program.

The Professional Program commences prior to the first week of the University semester. Please contact the Professional Program for commencement date.

The Professional Program may be undertaken by part-time study. Subjects are taught between 5.00 p.m. and 9.00 p.m., two nights a week, with some Saturday sessions and a summer semester for Professional Conduct 1.
Undergraduate courses

Undergraduate courses include Legal Accounting, Professional Conduct 2 (Legal Ethics) and Legal Skills and Professional Awareness. Student progression is as follows:

Practical experience may be completed concurrently with part-time study of the Professional Program.

### Professional Program by flexible learning (24 credit points)

The Professional Program may be undertaken by flexible learning mode. This means students learn at a time, rate and location that suits each individual student. Students use self-managed learning tools to learn at their own pace. Because of the skills-based nature of the courses of study within the Professional Program, two compulsory Monday to Friday face-to-face schools are included in the course of study. The first school takes place at the beginning of the course of study, primarily for the Legal Skills and Professional Awareness subject, with the second at the conclusion of the course, primarily for the Advocacy subject.

Practical experience may be completed concurrently with part-time study of the Professional Program.

The subject Practical Experience requires students to undertake 16 weeks of full-time or equivalent part-time experience (approved in advance by the Faculty) following completion of the Professional Program. It is possible, however, to undertake one-half of this requirement (8 weeks of practical experience) in the year prior to commencing the Legal Practice major.

The same subjects in the Professional Program will be taught to Law graduates who wish to complete the Graduate Diploma in Legal Practice offered by the postgraduate area of the Faculty of Law.

No other subject may be taken in conjunction, and students in double degrees must have completed 48 credit points of their studies in the other degree prior to enrolling in the Professional Program.

The Professional Program commences prior to the first week of the University semester. Please contact the Professional Program for commencement date.

Priority for a place in the Professional Program will be given to UTS undergraduates who enrol by the date advertised by the Faculty.

### Non-Law electives

Because of program constraints, double and combined degree students will not be able to undertake non-Law electives.

Law students who have not sought exemptions on the basis of a prior degree may study up to 48 credit points of non-Law electives. Students will be required to obtain the permission of the Associate Dean (or nominee) if they wish to enrol in non-Law subjects offered by other faculties of the University or other universities.
In addition to seeking the approval of the Associate Dean, it will be necessary to approach the faculty or institution in which the non-Law subjects are to be studied to obtain approval, and also to ensure that any local prerequisite or corequisite requirements are satisfied.

Course program

Timetable constraints may require attendance at daytime and evening classes.

Bachelor of Laws in Australian Indigenous Studies

- Course code: LLB
- Testamur title: Bachelor of Laws in Australian Indigenous Studies
- Abbreviation: LLB
- Course fee: HECS

This degree offers students the opportunity to gain a qualification tailored to the needs of Aboriginal and Torres Strait Islander communities, and which satisfies the academic requirements of the Supreme Court of NSW for admission as a legal practitioner.

The program will allow students the option of undertaking Practical Legal Training (PLT) as part of their undergraduate studies. Concurrently, students are required to enrol in the Graduate Certificate in Legal Practice to complete the remaining component of the PLT requirements.

Alternatively, students may choose to complete their undergraduate degree from the choice of electives and delay PLT studies for up to two years, or even forego such studies completely. Applicants and students who decide on this latter course must realise that, under the current rules of the Legal Practitioners Admission Board (LPAB), upon graduation they will not be able to practise as a solicitor or barrister in NSW unless they are able to demonstrate substantial legal experience to the satisfaction of the LPAB.

Course structure

The full-time Bachelor of Laws (Indigenous) normally requires four years for completion and the part-time Bachelor of Laws, six years. All subjects are taught over one semester. Full-time students attend 10 to 14.5 hours of lectures per week and part-time students attend classes from 7 to 9.5 hours per week. Part-time students will normally be required to attend classes half a day and two evenings per week and full-time students may be required to attend evening classes. The Bachelor of Laws (Indigenous) is available at both Pass and Honours level and includes an optional Practical Legal Training component. Students who have already completed a degree in another discipline may apply for exemption from 48 credit points of non-Law electives. Students who do not apply for these exemptions may take up to 48 credit points of non-Law electives in other faculties.

The compulsory subjects in the Australian Indigenous Law component are:
- Family Law and Women's Perspectives – Aboriginal and Torres Strait Islander People;
- Criminal and Civil Law – Indigenous Perspectives;
- Indigenous Peoples and Land Law; and
- Indigenous Peoples and the Law.

Bachelor of Laws (Indigenous) students may also study up to 48 credit points of non-Law electives in other faculties. The following examples are available in the Faculty of Education:

015110 Aboriginal Cultures and Philosophies 8cp
015111 Issues in Aboriginal Education 8cp

COMBINED DEGREES

Bachelor of Business/ Bachelor of Laws

* Course code: LL02
* Testamur title: Bachelor of Business Bachelor of Laws
* Abbreviation: BBus LLB
* Course fee: HECS

This degree (two testamurs) is of five years’ duration and students undertake studies full time with classes held during the day and evening. The program will allow students the option of undertaking Practical Legal Training (PLT) as part of their undergraduate studies. Subsequently, graduates will be able to proceed, subject to the availability of places, into the Graduate Certificate in Legal Practice to complete the remaining component of the PLT requirements.

Alternatively, students may choose to complete their undergraduate degree from the choice of electives and delay PLT studies for up to two years, or even to forego such studies completely. Applicants and students who decide on this latter course must realise that, under the current rules of the Legal Practitioners Admission Board (LPAB), upon graduation they will not be able to practise as a solicitor or barrister in NSW unless they are able to demonstrate substantial legal experience to the satisfaction of the LPAB.

The Chartered Institute of Company Secretaries in Australia is the professional association for 9,000 company secretaries and other corporate managers in Australia. It is also the Australian Division of the International Institute of Chartered Secretaries and Administrators to which its Australian members also belong. Special arrangements exist between the University and the Institute under which Bachelor of Business/Bachelor of Laws students who have passed the University’s examinations in four prescribed units can satisfy the Institute’s full academic membership requirements without the need to sit the Institute’s two qualifying examinations. During the course of their studies, students are encouraged to become student members of the Institute.

For details of the prescribed subjects and student membership, contact Associate Professor Michael Adams on (02) 9514 5418.

Alternatively, contact Dr John Nelson, Director of Education and Membership, Chartered Institute of Company Secretaries, GPO Box 1594, Sydney, NSW 2001, or telephone toll free on 1800 251 849.

Bachelor of Arts/ Bachelor of Laws

Course code: LL05
Testamur title: Bachelor of Arts Bachelor of Laws
Abbreviation: BA LLB
Course fee: HECS

This course is no longer offered to new students. This course is of five years’ duration (full time) and satisfies the academic requirements of the Supreme Court of NSW for admission purposes. The program will allow students the option to undertake Practical Legal Training (PLT) as part of their undergraduate studies. Concurrently, students are required to enrol in the Graduate Certificate in Legal Practice to complete the remaining component of the PLT requirements.

Alternatively, students may choose to delay PLT studies for up to two years, or even to forego such studies completely. Students who decide on this latter course must realise that, under the current rules of the Legal Practitioners Admission Board (LPAB), they will not be able to practise as legal practitioners in NSW unless they are able to demonstrate substantial legal experience to the satisfaction of the LPAB.

1 During 1997, the Faculty of Humanities and Social Sciences agreed to the award of two separate testamurs for the Bachelor of Arts/Bachelor of Laws currently studied at UTS to be offered from 1998.

To qualify for the Bachelor of Arts award, students currently enrolled in the degree course are required to complete 96 credit points of approved subjects offered by the Faculty of Humanities and Social Sciences.

Students are enrolled in the Faculty of Law and are required to complete 240 credit points: 96 credit points in Arts and 144 credit points in Law. They will be awarded two degrees and the Law degree may be awarded with Honours.

Course structure

The course consists of 10 stages, each of one semester’s duration.

The sequence for the Law subjects is based on a core curriculum, which students are required to study in the sequence indicated below. The Arts component provides choices for students at all stages and will be studied in the sequences established by those student choices. Students will be required to build their own program of Arts studies within the following parameters:

1. Students must take at least 22 credit points in foundation studies, 48 credit points in a major study and up to 26 credit points in other studies (with up to 12 credit points available from faculties other than Humanities and Social Sciences and Law if desired).

2. Approximately 24 credit points should be attempted each semester.

3. Foundation studies should be taken at the start of the course, and completed by the end of Stage 3 or no later than the end of Stage 4.

4. Students should commence the major at the earliest possible time in the course, that is, Stage 2 or 3, after completion of foundation studies subjects which are prerequisites for the various majors.

Foundation studies

Students will take at least 24 credit points with at least 6 credit points from each of the three groups of subjects below by the end of the third semester. The aim of the foundation studies is to introduce a range of ideas and intellectual approaches from the broadly defined arts/social sciences as a basis for: (i) exploration of issues of social concern and public interest; (ii) development of intellectual skills; and (iii) choice of areas to study in depth.

Major study
A major is a sequence of subjects to a total of at least 48 credit points, which falls within a distinct and well-defined field of study. Several of the majors are interdisciplinary.
A major requires students to complete a minimum of 6 credit points and a maximum of 12 credit points at 100 level; a minimum of 12 credit points at 200 level; and a minimum of 12 credit points at 300 level.
Entry to 200-level subjects requires completion of prerequisites at 100-level; entry to 300-level subjects requires completion of 200-level subjects and so on.
The majors offered in the Bachelor of Arts are:
- Aboriginal Studies
- Social, Political and Historical Studies
- Multicultural Studies
- Communication and Cultural Industries
- Information
- Communication
- Cultural Studies
Full details of the Arts majors and electives are contained in the Faculty of Humanities and Social Sciences Handbook.

Bachelor of Science/Bachelor of Laws

- Course code: LL04
- Testamur title: Bachelor of Science Bachelor of Laws
- Abbreviation: BSc LLB
- Course fee: HECS

This degree (two testamurs) is of five years’ duration and students undertake studies full time with classes held in the day or evening.

Course structure
All subjects are taught over one semester. Students attend approximately 17 hours of lectures and seminars per week. Students may be required to attend evening classes. The degree requires five years’ full-time attendance for completion. The Bachelor of Laws component is available at both Pass and Honours levels and includes an optional Practical Legal Training component.

It is intended that there be a substantial degree of flexibility in the way in which students can progress through the course, although they will normally be expected to study Science subjects and Law subjects concurrently so that the two streams of study can better complement each other.

The following is a typical full-time course program.

Bachelor of Medical Science/Bachelor of Laws

- Course code: LL09
- Testamur title: Bachelor of Medical Science Bachelor of Laws
- Abbreviation: BMedSc LLB
- Course fee: HECS

This degree (two testamurs) was offered for the first time in 1998. It is of five years’ duration and students undertake studies full time with classes held in the day or evening. It enables students to obtain a professional qualification that satisfies the basic academic requirements of the Supreme Court of NSW for admission as a legal practitioner. The program will also produce graduates with a strong scientific background in human biology, behavioural science, neuroscience, pharmacology and diagnostics.

Bachelor of Laws/Bachelor of Arts in International Studies

- Course code: LLO7
- Testamur title: Bachelor of Laws Bachelor of Arts in International Studies
- Abbreviation: LLB BA
- Course fee: HECS

The Faculty of Law offers a combined, one testamur, degree with the Institute for International Studies (LLB BA). The degree is of five years' duration and students undertake studies full time with classes held throughout the day and evening. The program will allow students the option to undertake a practical legal training as part of their undergraduate studies and concurrently enrol in a Graduate Certificate in Legal Practice in order to complete their Practical Legal Training (Professional Program) requirements.

Alternatively, students may choose to complete their undergraduate degree from the choice of electives.

The Bachelor of Laws/Bachelor of Arts in International Studies program is offered jointly by the Faculty of Law and the Institute for International Studies. The degree provides full-time study for students wishing to obtain a professional qualification that satisfies the basic academic requirements of the Supreme Court of NSW for admission as a legal practitioner. A single testamur of LLB BA (International Studies) is awarded. The LLB component may be awarded with First or Second Class Honours. The program is designed for students who wish to obtain an international perspective and expertise to enable them to work overseas, provide specialised legal services to Australian ethnic communities, and satisfy the demand in firms for legal practitioners who can act for foreign investors.

In addition to pursuing the full program of the Bachelor of Laws, students are required to follow a major – a country or region of specialisation – in the International Studies program. Students study Language and Culture for at least two years in Sydney, and this is followed by a period of study overseas. The following majors are offered: Argentina, Australia and the Asia-Pacific Region, Chile, China, France, Germany, Greece, Indonesia, Italy, Japan, Malaysia, Mexico, Russia, South China, Spain, Taiwan, Thailand and Vietnam.

Students are admitted to the International Studies program with no guarantee of entry to a specific major, although every effort is made in trying to meet students' preferences. The Institute reserves the right to allocate places in majors according to its resources and arrangements with overseas universities.

In general, there are no prior language requirements for the International Studies component of this combined degree, however, some majors within the International Studies program do have specific admission requirements. Entry to the Greece and Vietnam majors is restricted to students who have a sound working knowledge of the language of their selected specialisation.

Each student's choice of major and subjects to study in the International Studies program requires the approval of the Board of Studies of the Institute for International Studies. In exceptional circumstances, students may, with the approval of the Board of Studies of the Institute for International Studies, vary the
designated subjects in their International Studies major. Refer to the ‘List of Approved Substitute Subjects’ in this handbook. All students are required to complete four consecutive semesters of study of Language and Culture before proceeding to In-country Study. There are different classes available for students with different levels of language proficiency.

The Institute for International Studies makes the arrangements for students to spend two semesters of In-country Study at an institution of higher education in the country of their major. The costs of tuition in host institutions overseas and travel between Sydney and the designated host institutions are borne by UTS except in cases where a scholarship has been awarded to the student with provision for these costs. Under those circumstances, the funds that would have otherwise been allocated towards the student’s tuition and travel will be redirected to support the In-country Study program in general. In most cases the cost of living for the period of In-country Study will not exceed the cost of living away from home in Sydney. However, students should be aware that the cost of living in some countries – notably Argentina, France, Germany, Hong Kong, Japan and Taiwan – may be higher than in Sydney.

Course structure

Each Law subject is taught over one semester. Students attend 12–15 hours of lectures and seminars per week. Students may be required to attend evening classes. The degree normally requires five years of full-time study for completion. For the International Studies component, students are required to complete a sequence of four subjects in Language and Culture; a subject in Contemporary Society; two semesters of study at an overseas university or institution of higher education; and a subject entitled International Legal Studies.

The Faculty of Law presents ‘Cross-disciplinary’ Law subjects—that is, studies in various strands of the law for students who are not aiming for a legal qualification, but who wish to become familiar with the law as it affects their chosen profession. Through its Cross-disciplinary program, the Faculty of Law presents courses to students in the Faculties of Business, Engineering, Nursing and Science.

Undergraduate cross-disciplinary subjects

Why is an understanding of the law important?

Increasingly, the modern environment requires an understanding of legal issues. Many areas are governed by complicated laws and regulations. The purpose of the Cross-Disciplinary program is to foster an awareness of the role of law as a key strategic tool; to equip potential executives with the knowledge to deal with the legal aspects of their particular profession. It is inevitable that anyone in a responsible position in a profession, commerce or the public service will need to develop a specialist knowledge of particular branches of the law. The breach of a key legal provision could result in an otherwise advantageous arrangement being rendered totally ineffective, or worse, being penalised.

As well as undertaking ‘core’ Law subjects as part of their major, Bachelor of Business students have the opportunity to select a Law sub-major—Business, Taxation or Foundations in Law. The Law sub-majors are designed to help students develop the knowledge and skills necessary to recognise legal pitfalls and to react appropriately. Students are, of course, also taught to utilise the law to achieve legitimate success. This is particularly true in the accounting and management professions.

Sub-major in Business Law

As can be seen from the list of units offered, the Business Law sub-major affords students a wide range of areas to choose from. It should be noted, however, that not all subjects listed will be offered each semester. Units offered in the Business Law sub-major include:

Sub-major in Taxation Law

The Taxation Law sub-major offers an integrated sequence of subjects enabling students to specialise in this important area of law, applicable to the business and public sectors of Australia and its international relationships. Taxation is the ultimate interface of law, accounting and business enterprises, and always requires specialist knowledge.

Students will select four units from the following:

- Advanced Revenue Law 6cp
- International Aspects of Australian Taxation Law 6cp
- Indirect Taxation 6cp
- Advanced Companies and Securities Law 6cp
- Securities Market Regulation 6cp

Sub-major in Foundations in Law

This sub-major is for students enrolled in the Bachelor of Business degree, and students considering transferring between the different degree programs, or intending to undertake Law studies as a second degree.

Students are required to study the following Law degree subjects:

- Law of Contract 8cp
- Law of Tort 8cp
- Real Property 8cp

Sub-major in E-Commerce and Information Technology Law

The sub-major will offer an integrated sequence of subjects enabling students to specialise in legal aspects, new technologies and their impact on Communications and Electronic Commerce Law.

It is proposed students will study four units:

- Law and the Digital Economy
- Legal Issues in Communications
- Computer Law
- Biotechnology: Legal and Ethical Issues

Sub-major in Corporations Law

The sub-major will offer a study of the structure and functions of the most important and widely used business and investment vehicle. The sub-major will provide the student with a thorough understanding of companies, their incorporation and structure, the stock market and its regulation, and capital financing facilities and take-overs, and the laws of corporate insolvency.

It is proposed students will study four units:

- Company Law
- Advanced Companies and Securities Law
- Corporate Insolvency and Administration
- International Business Law and Regulation
- Advanced Commercial Law
- Law and Finance
- Banking Law

1 Subject to Academic Board approval.
POSTGRADUATE COURSES

The Faculty of Law offers a range of Certificate, Diploma and Master’s coursework programs in Law, Industrial Property, International Trade Law, Legal Studies, Practical Legal Training, Taxation and Dispute Resolution. GENERAL INFORMATION

Applications

Most coursework applicants may apply for admission at three stages:

Summer program: Applications for the Summer program close at the end of October each year. Applicants are notified about their application in November. Enrolment will take place in mid-November.

Autumn semester: Applications for the Autumn semester close at the end of October each year. Applicants are notified about their application in December. Enrolment takes place in February.

Spring semester: Applications for the Spring semester close at the end of May each year. Applicants are notified about their application in June and are enrolled in July. Applicants intending to commence in the July Intensive program should make a Spring application.

Please note that the number of places available in the programs is limited. However, all appropriately qualified persons are encouraged to submit an application. Applications are assessed by the Director of Postgraduate Programs, and UTS staff will not speculate as to an applicant’s likelihood of success.

Applications are available from the University Information Office, Level 4, UTS Tower Building, 1 Broadway, the Faculty of Law Information Office, University Graduate School or can be downloaded from the web at:
http://www.gradschool.uts.edu.au

Attendance

Most postgraduate award programs can be undertaken on a full-time or part-time basis. Please note, because of visa requirements, international students must study on a full-time basis.

A number of different attendance modes are available. The majority of postgraduate subjects are offered within the Autumn and/or Spring semesters. As a guideline, a six-credit-point subject offered within the Autumn semester would normally require attendance of two to three hours each week.
over a 14-week semester. Lectures are usually scheduled in the evenings, commencing no earlier than 6.00 p.m.

**Autumn semester** – February to June 2000  
**Spring semester** – July to November 2000

The Faculty offers a number of postgraduate subjects in an intensive attendance mode in the Summer and July Intensive programs. In Summer and July Intensive program subjects, the contact hours are equivalent to those of one- or two-semester subjects, but lectures are held daily over a concentrated period. For example, a six-credit-point subject offered in the Summer program might require students to attend for two-and-a-half hours per day over 10 days. Intensive program candidates may be required to commence preparation in advance of the lectures.

The intensive attendance mode is particularly suited to candidates who wish to fast-track their program of study or for students who intend to spend limited periods of time in Sydney. Please note that students may not undertake subjects totalling more than 24 credit points in any one intensive program.

In 2000, the Summer program will be held in January/February; further intensive classes will be held in July. Some courses are not taught in the intensive programs. Please check the relevant course timetable.

Some postgraduate subjects, such as the Research Project, Research Paper and the International Comparative Law Project, do not require formal attendance at the Faculty, and may be completed externally, subject to appropriate academic supervision arrangements.

**Assessment**

While assessment varies from subject to subject, students may be required to do one or more of the following: final examinations, informal examinations, take-home examinations, assignments, research work, class participation, presentation of seminar papers or a viva voce.

Doctor of Juridical Science, Dispute Resolution and Master of Laws (by coursework) students will generally be assessed by a research essay. Legal Studies and Master of Law and Legal Practice students should expect some component of the assessment to be by examination.

The written assessment for a six-credit-point subject will normally total 6,000–7,500 words; the written assessment for a 12 credit-point subject will normally total 10,000–12,000 words.

The lecturer will advise students of the mode of assessment for their subjects by notice by the end of the third week of the semester.

**Essay requirements**

Essays and other written work should be prepared in accordance with the guidelines laid down in the Faculty of Law's *Guide to Essay Writing*, which may be obtained from the Faculty of Law Information Office (price as at 1999 is A$2.50).

**Subject exemption**

Students may apply to the Faculty for subject exemption for a subject or subjects undertaken in other award courses of this University or at other institutions, subject to University Rule 2.28 (see the UTS Calendar).

Subject exemptions may be granted within the Faculty's postgraduate law awards on the basis of equivalent subjects undertaken towards completed and uncompleted postgraduate studies.

However, no student shall receive exemption for more than one-quarter of a course of three years or less full-time duration on the basis of subjects undertaken towards completed postgraduate studies.

Please also note that no student shall receive exemption, credit or advanced standing that totals more than two-thirds of a course of three years or less full-time duration, or more than three-quarters of a course of more than three years full-time duration.

The Faculty recognises that requests for exemption may be appropriate on the basis of other forms of recognised prior learning. In cases where courses are undertaken outside the university system and are related to assessable components of a University award, exemption may be offered.

A formal application, accompanied by certified copies of academic transcripts and details of the subject content and assessment, must be produced for each exemption sought. As a general rule, exemptions may be granted for subjects studied less than five years ago – where there have been significant changes in the law within that period, such exemption will not be granted. The granting of exemptions will be at the discretion of the Faculty’s Director of Postgraduate Programs.
Cross-institutional enrolment
Subject to approval by the Director of Postgraduate Programs, candidates may apply to undertake subjects in postgraduate programs at other universities to apply to their program at UTS. Applications to undertake subjects at overseas universities will also be considered. A formal application, detailing the academic content, attendance and assessment requirements of the subject(s) proposed to be completed, must be made to the Director of Postgraduate Programs before enrolling with the other institution.

Transfers to other postgraduate programs
Candidates who wish to transfer to other postgraduate degree programs offered by the Faculty of Law must meet admission criteria (see the course entries in this handbook for further details). An internal course transfer application is available on request from the UTS Information Office or the Faculty of Law.

Deferment of enrolment
Deferment in the first semester of enrolment in postgraduate programs is not available at UTS. Offers of admission that are not accepted lapse on the date of enrolment. Applicants who do not accept an offer of admission should therefore reapply at the next intake.

Mandatory continuing legal education (MCLE)
Participation in postgraduate study may entitle practising solicitors to MCLE points. If this particular educational activity is relevant to students’ immediate or long-term needs in relation to their professional development and practise of the law, they may claim one ‘unit’ per hour of attendance – refreshment breaks not included. For further details contact the Law Society of NSW.

Scholarships
Information about the various scholarships available to postgraduate UTS candidates is available from the University Graduate School, telephone (02) 9514 1521, or visit the Graduate School website at:
http://www.gradschool.uts.edu.au
Scholarships offered include the:
• R L Werner Postgraduate Research Scholarship
• University Doctoral Research Scholarship
• Australian Postgraduate Award with Stipend.

These scholarships are designed to assist persons of exceptional research promise to undertake postgraduate thesis and doctoral programs. Applications for scholarships close at the end of October each year.

International candidates should note that, as scholarship positions vary from country to country, they should contact the Australian embassy in their country of origin to receive current information.

Other scholarships/grants include:
• The Julian Small Foundation Annual Research Grant
• Senshu University Short-Term Student Exchange Promotion Program Scholarship.

Further information regarding scholarships for study overseas is also available from the University Graduate School.

² Available to UTS LLB graduates only.

---

The fees quoted above are the overall cost of the program in 2000. Fees are subject to biennial review and variation and are charged per semester according to the credit-point value of the subject(s) in which the student is enrolled. In most cases students could expect to pay $166 per credit point.¹ For example, a standard one-semester subject is worth 6 credit points and the tuition fee for such a subject would be $996. All students are also required to pay annual Student Union and service fees.

**Fees/Equity Scholarship**

The majority of postgraduate law courses are full-fee-paying (see above). Postgraduate candidates enrolling in most full-fee-paying courses (except the Master of Law and Legal Practice and the Graduate Diploma of Law) may make an application to the Faculty for an Equity Scholarship. The Equity Scholarship entitles successful applicants to be charged HECS by the deferred taxation method for their program of study. Equity Scholarships are assessed on the grounds of financial hardship and merit and should be made well before enrolment. Application forms and further details are available from the University Graduate School or the Faculty of Law.

¹ Does not apply to students enrolled in the GOAL (LL57), international, non-award, cross-institutional or HECS-based courses.

Overseas applicants must satisfy the English language proficiency requirements of the University, which require applicants whose entry degree was conducted in a language other than English to have a minimum International English Language Testing System (IELTS) score of 6.5 before enrolling in postgraduate studies.

For further details contact:
International Programs Office
PO Box 123, Broadway NSW, 2007, Australia
telephone (02) 9514 1531
fax (02) 9514 1530
email intlprograms@uts.edu.au

Owing to student visa restrictions, international candidates must enrol on a full-time basis only.

Applicants who are neither citizens nor permanent residents of Australia should complete a UTS International Programs Application for Admission form, available from the International Programs Office. Completed applications, with originals or certified copies of all supporting documents, should be addressed to the Director of International Programs. Applications by non-residents should be accompanied by the A$50 application fee (non-refundable).

### Rules for postgraduate students

For relevant rules, candidates should consult the UTS Calendar which is online at:

Copies of the UTS Calendar may be purchased from the Co-op Bookshop, and are also held in the University Library.
RESEARCH DEGREES

Doctor of Philosophy

- Course code: LL54
- Testamur title: Doctor of Philosophy
- Abbreviation: PhD
- Course fee: Fee exempt

A candidate for the Doctor of Philosophy (PhD) is required to submit a dissertation representing an original investigation, criticism or review of a field of research, of a standard suitable for publication. The PhD is a cross-disciplinary program and is available to both Law and non-Law graduates who meet the admission requirements.

Candidates are urged to consult the Doctoral program rules in the UTS Calendar.

The particular postgraduate research interests of UTS academic staff are listed at the back of this handbook under 'Research Interests of Staff'.

Please contact:
Director of Postgraduate Law Programs
telephone (02) 9514 3757
or
Postgraduate Law Programs Office
telephone (02) 9514 3756

Admission requirements

- a Master’s degree; or
- a Bachelor’s degree with First Class Honours or Second Class Honours (Division 1).

Candidates will also be required to provide satisfactory evidence of their ability to undertake advanced research appropriate to their Doctoral program.

Course structure

- a dissertation of approximately 100,000 words in length; in
- a minimum of four semesters of full-time attendance or six semesters of part-time attendance for candidates with a Master’s degree; or
- a minimum of six semesters of full-time attendance or eight semesters of part-time attendance for candidates with a Bachelor’s degree (Honours); and
- a maximum of 10 semesters for a full-time student or 15 semesters for a part-time student.

Attendance

PhD candidates are not normally required to attend classes, though some coursework may be required before commencing the thesis. Regular contact should be maintained with the supervisor(s) throughout a candidate’s enrolment. Candidates must comply with the University Graduate School Board’s Code of Practice for Supervisors and Doctoral Candidates.

Interstate and international applicants should note that some attendance in Sydney is a requirement.

Application procedures

Applicants for the PhD degree should contact the Director of Postgraduate Programs to discuss their proposed program of study before submitting their application. Please note, the process of having a dissertation topic approved and supervisors appointed usually takes two to three months.

Application should be made on a UTS Doctoral Degrees Application for Admission form. PhD applications may be lodged at any stage of the academic year.

All applicants will receive notification in writing of the outcome of their application.

Dissertation topic

PhD candidates must provide details of their proposed topic when they submit their application. In addition, the Faculty of Law requires all applicants to provide additional documentation to accompany the application (please inquire at the Faculty of Law). The application will be submitted to the Faculty’s Graduate Studies Committee for recommendation to the University Graduate School's Graduate Students Committee. Once final approval is obtained, the topic cannot be changed except with the approval of these committees.

Supervision

So that a Doctoral degree candidate may be guided and supervised properly, there shall be at least two supervisors, one to be the principal supervisor and one to be the co-supervisor. Normally at least one of the supervisors will have a Doctoral degree. At least one of the supervisors shall be a full-time academic staff member of the University, and will be responsible for reporting progress and other matters to the University Graduate School Board. Candidates are required to meet with their supervisor(s) at least once a month, to discuss the research being undertaken.
Progress reports  
At the end of each semester of candidacy, PhD candidates must submit a report to their principal supervisor detailing their progress to date. The supervisor will indicate whether progress is satisfactory or unsatisfactory.

Doctoral Assessment  
Within the first two semesters of candidacy for full-time students or the first four semesters of candidacy for part-time students, Doctoral candidates have to complete a Doctoral Assessment. This entails the candidate presenting a seminar on his or her dissertation topic and proposed methodology. The object of the Doctoral Assessment is to ensure that the student is equipped with the knowledge to carry out his or her research program, and has made sufficient progress. A student who does not satisfy the requirements for the Doctoral Assessment will not be permitted to proceed with his or her candidature unless, with the approval of the Academic Board, they are invited to reattempt the Assessment (University Rule 3.5.7).

Oral presentation  
Approximately two months before the submission of the dissertation for examination, the candidate must make an oral presentation of the dissertation (the format is similar to that of the Doctoral Assessment. Contact the Director for further explanation).

Submission of dissertation  
Candidates must lodge a Notification of Intent to Submit a Thesis form with the University Graduate School at least two months before submitting their thesis for examination. Information about the requirements on the presentation and format of the thesis will be forwarded to candidates when this form is lodged.

Doctor of Juridical Science  
- **Course code**: LL53  
- **Testamur title**: Doctor of Juridical Science  
- **Abbreviation**: SJD  
- **Course fee**: $9,600  
  (thesis component fee exempt)

The Doctor of Juridical Science (SJD) program offered by the Faculty of Law was the first degree of its kind in Australia. It combines coursework and original research culminating in a Doctoral dissertation with a **legal focus and analysis** representing an original investigation, criticism or review of a field of legal research, of a standard suitable for publication. Topics which principally involve non-legal techniques (such as sample surveys) or the application of non-legal categories (e.g. principles of explanation of other disciplines such as those of psychology or sociology) would not qualify. In such cases students would be counselled to pursue the PhD.

The SJD program counters the isolation experienced by many PhD candidates by providing a unique combination of coursework and research. The Faculty expects candidates to develop their Doctoral topic through the coursework component of the SJD, and allows candidates to benefit from contact with other postgraduate candidates and the academic staff of the Faculty.

Candidates are urged to consult the Doctoral program rules in the *UTS Calendar*.

The particular postgraduate research interests of UTS academic staff are listed at the back of this handbook under ‘Research Interests of Staff’.

Please contact:  
Director of Postgraduate Law Programs  
third telephone (02) 954 3757  
or  
Postgraduate Law Programs Office  
third telephone (02) 954 3756

**Admission requirements**  
- A Master’s degree; or  
- a LLB with First Class Honours or Second Class Honours (Division 1).

Candidates will also be required to provide satisfactory evidence of their ability to undertake advanced research appropriate to their Doctoral program.
Course structure

- Coursework electives totalling 48 credit points;¹ and
- a Doctoral dissertation of approximately 50,000–70,000 words in length (all coursework component requirements must be completed before the dissertation is commenced);² in
- a minimum of four semesters of full-time attendance or six semesters of part-time attendance for candidates with a Master’s degree; or
- a minimum of six semesters of full-time attendance or eight semesters of part-time attendance for candidates with a Bachelor’s degree (Honours); and
- a maximum of 10 semesters for a full-time student or 15 semesters for a part-time student.

¹ For a complete list of the SJD electives please see the electives under the Master of Laws (by coursework) entry.
² The recommended SJD program structure is one-third coursework and two-thirds research.

Dissertation topic

As the SJD degree is a professional doctorate, dissertation topics should have a legal focus and analysis. SJD candidates must provide details of their proposed topic when they submit their application. In addition, the Faculty of Law requires all applicants to provide additional documentation to accompany the application (please inquire at the Faculty of Law). The application will be submitted to the Faculty’s Graduate Studies Committee for recommendation to the University Graduate School’s Graduate Students Committee. Once final approval is obtained, the topic cannot be changed except with the approval of these committees.

Supervision

So that a Doctoral degree candidate may be guided and supervised properly, there shall be at least two supervisors, one to be the principal supervisor and one to be the co-supervisor. Normally at least one of the supervisors will have a Doctoral degree. At least one of the supervisors shall be a full-time academic staff member of the University, and will be responsible for reporting progress and other matters to the University Graduate School Board. Candidates are required to meet with their supervisor(s) at least once a month, to discuss the research being undertaken.

Progress reports

At the end of each semester of candidacy, SJD candidates must submit a report to their principal supervisor detailing their progress to date. The supervisor will indicate whether progress is satisfactory or unsatisfactory.

Doctoral Assessment

A student who does not satisfy the requirements for the Doctoral Assessment will not be permitted to proceed with his or her candidature unless, with the approval of the Academic Board, they are invited to reattempt the Assessment (University Rule 3.5.7).
Oral presentation

Approximately two months before the submission of the dissertation for examination, the candidate must make an oral presentation of the dissertation (the format is similar to that of the Doctoral Assessment. Contact the Director for further explanation).

Submission of dissertation

Candidates must lodge a Notification of Intent to Submit a Thesis form with the University Graduate School at least two months before submitting their thesis. Information about the requirements on the presentation and format of the thesis will be forwarded to candidates when this form is lodged.

Master of Laws (by thesis)

- Course code: LL51
- Testamur title: Master of Laws
- Abbreviation: LLM
- Course fee: HECS

A candidate for the Master of Laws (by thesis) (LLM) is required to submit a thesis representing an original investigation, criticism or review of a field of legal research, of a standard suitable for publication.

Candidates are urged to consult the Master’s degree by thesis program rules in the UTS Calendar.

The particular postgraduate research interests of UTS academic staff are listed at the back of this handbook under ‘Research Interests of Staff’.

Please contact:
Director of Postgraduate Law Programs telephone (02) 9514 3757
or
Postgraduate Law Programs Office telephone (02) 9514 3756

Admission requirements

- An LLB degree; or
- an equivalent qualification.

Candidates will also be required to provide satisfactory evidence of their ability to undertake advanced research appropriate to their thesis program.

Course structure

- A thesis of approximately 40,000–60,000 words in length; in
- a minimum of four semesters of full-time attendance or six semesters of part-time attendance; and
- a maximum of six semesters for a full-time student or nine semesters for a part-time student.

Attendance

LLM (by thesis) candidates are not normally required to attend classes, though some coursework may be required before commencing the thesis. Regular contact should be maintained with the supervisor(s) throughout a candidate’s enrolment. Candidates must comply with the University Graduate School Board’s Code of Practice for Supervisors and Thesis Candidates.

Interstate and international applicants should note that some attendance in Sydney is a requirement.

Application procedures

Applicants for the LLM (by thesis) should contact the Director of Postgraduate Programs to discuss their proposed program of study before submitting their application. Please note, the process of having a thesis topic approved and supervisors appointed usually takes two to three months.

Application should be made on UTS Application for Candidature – Master’s Degrees by Thesis form. LLM (by thesis) applications may be lodged at any stage of the academic year.

All applicants will receive notification in writing of the success of their application.

Dissertation topic

LLM (by thesis) candidates must provide details of their proposed topic when they submit their application. In addition, the Faculty of Law requires all applicants to provide additional documentation to accompany the application (please inquire at the Faculty of Law). The application will be submitted to the Faculty’s Graduate Studies Committee for recommendation to the University Graduate School’s Graduate Students Committee. Once final approval is obtained, the topic cannot be changed except with the approval of these committees.
Supervision

So that a thesis degree candidate may be guided and supervised properly, there shall be at least two supervisors, one to be the principal supervisor and one to be the co-supervisor. Normally at least one of the supervisors must have an equivalent award. At least one of the supervisors shall be a full-time academic staff member of the University, and shall be responsible for reporting progress and other matters to the University Graduate School Board. Candidates are required to meet with their supervisor(s) at least once a month, to discuss the research being undertaken.

Progress reports

At the end of each semester of candidacy, LLM (by thesis) candidates must submit a report to their principal supervisor detailing their progress to date. The supervisor will indicate whether progress is satisfactory or unsatisfactory.

Thesis assessment

LLM (by thesis) candidates are required to undergo a Thesis Assessment within the first two semesters for full-time students or within the first three semesters for part-time students. The object of the Assessment is to ensure that candidates are equipped with the knowledge to carry out their research program, and have made sufficient progress. The Thesis Assessment may take the form of a written or oral examination. As part of the Assessment, candidates will normally present a seminar to the University on their dissertation topic and methodology of approximately one hour’s duration. A student who does not satisfy the requirements for the Assessment will not be permitted to proceed with his or her candidature unless, with the approval of the Academic Board, they are invited to reattempt the Assessment (University Rule 3.4.15.1).

Submission of thesis

Candidates must lodge a Notification of Intent to Submit a Thesis form with the University Graduate School at least two months before submitting their thesis. Information about the requirements on the presentation and format of the thesis will be forwarded to candidates when this form is lodged.

Transfer to the PhD

LLM (by thesis) candidates who do not meet the PhD admission requirements but wish to transfer into the PhD after a minimum of one year’s study must have reached a standard equivalent to that of a Bachelor’s degree with First Class Honours or Second Class Honours (Division 1). Candidates applying to transfer must also demonstrate, with the support of their supervisor(s), that their topic has Doctoral scope. Final approval of the transfer resides with the University Graduate Students Committee.
COURSEWORK PROGRAMS

Master of Laws
(by coursework)

+ Course code: LL52
+ Testamur title: Master of Laws
+ Abbreviation: LLM
+ Course fee: $9,600

The Master of Laws (LLM) (by coursework) offers candidates an interesting program that is vocationally relevant and structured to encourage students to develop a course of study to best suit their individual needs. Our small seminar-style classes are taught by a mix of practising professionals and full-time academic staff in the Faculty’s new premises on the Haymarket campus and in city locations. The LLM (by coursework) features innovative attendance patterns, including fast-tracking via our Summer and July Intensive programs. Opportunities for cross-institutional study, both inside and outside Australia, are encouraged. Close interaction between the legal profession and the Faculty of Law guarantees a close match between a first-class education and a marketable postgraduate legal qualification.

Please contact:
Director of Postgraduate Law Programs
telephone (02) 9514 3757
or
Postgraduate Law Programs Office
telephone (02) 9514 3756, (02) 9514 3753 or (02) 9514 3754

Admission requirements

Category A applicants:
• an LLB; or
• high professional standing (other additional requirements may be required).

Category B applicants:
• Legal Practitioners Admission Board/Solicitors Admission Board qualification.

1 Applicant in this category are required to attend seminars in Advanced Legal Research in their first semester of enrolment. Candidates must pass this subject and all other subjects attempted in the first year of candidacy.

Course structure

• Completion of electives totalling 48 credit points; in
• a minimum of two semesters of full-time attendance or four semesters of part-time attendance; and
• a maximum of six semesters for a full-time student or nine semesters for a part-time student.

Electives

LLM and SJD candidates will undertake a combination of the following electives totalling 48 credit points, depending on their interests and relevant experience. A limited number of electives will be offered in any one year although most electives will be offered over a two-year cycle. (Please note that timetabled subjects are offered subject to sufficient student interest.) Brief descriptions of the subjects offered in the program are given in this handbook in the ‘Subject descriptions’ section. Detailed subject descriptions are available from the Administrative Secretary (Postgraduate).

### Majors offered in the LLM (by coursework)

A student may choose an appropriate mix of subjects to constitute a major within the LLM (by coursework) program in a specific area. The majors available are:

- Dispute Resolution
- Commercial Law
- Intellectual and Industrial Property Law
- Industrial Law
- International Law

To undertake a major, candidates must complete subjects totalling a minimum of 30 credit points within the area of the major.

1 A student wishing to take more than 30 credit points in Dispute Resolution subjects should enrol in the Master of Dispute Resolution.
Awarding of Honours
To qualify for Honours in the LLM (by coursework), candidates must attain a minimum average mark of 75 per cent across all subjects attempted,¹ and must complete the two-semester 77725 Research Project.

¹ Advanced Legal Research is not included in calculating the average.

LLM students with civil law legal qualifications
Master of Laws (LLM) candidates with legal qualifications from countries with civil law, or dual civil and common law legal systems, will be required to complete 77799 Advanced Comparative Law for Civil Lawyers (6 credit points) in their first semester of enrolment. This subject is a co/prerequisite for all other LLM subjects for students with civil law legal qualifications.

Advanced Comparative Law for Civil Lawyers provides a bridge between the civil law and the common law and is offered twice-yearly in the (Australian) Summer program in February and in the July Intensive program over a three- to five-week intensive teaching period. The topics covered in this subject include the following: sources of the common law; the development of the common law in England and its reception in Australia; courts and lawyers in Australia; law finding in the common law; contract law in the common law; Australian public law; and aspects of the law regulating business transactions in Australia. Four principal areas are addressed:

• Legal technique in the common law
• Comparative law research and analysis
• Introduction to business law
• Selected issues in international and transnational law.

Transfer to the SJD
Candidates in the LLM (by coursework) program may apply to transfer to the SJD after completion of 48 credit points of LLM (by coursework) electives. Candidates applying to transfer must provide satisfactory evidence of their ability to undertake advanced research appropriate to a Doctoral program. (Please see the SJD program entry.)

Master of Dispute Resolution
- Course code: LL59
- Testamur title: Master of Dispute Resolution
- Abbreviation: MDR
- Course fee: $10,800

Graduate Certificate in Dispute Resolution
- Course code: LL69
- Testamur title: Graduate Certificate in Dispute Resolution
- Abbreviation: none
- Course fee: $4,800

Both the Master of Dispute Resolution (MDR) and the Graduate Certificate in Dispute Resolution (GCDR) programs offer students a cross-disciplinary graduate degree providing the theory, skills and practice of dispute resolution to professionals, managers and administrators. Experienced practitioners assist students to build practitioner skills and gain enriched theoretical understanding of the alternative dispute resolution process. The mixture of experience-based learning and formal lectures demonstrates the UTS commitment to excellence in teaching, research, development and training.

The electives focus on theory and practical skills and are taught in intensive block mode over four full days of lectures, workshops and seminars.

The GCDR is a shorter course for students who do not wish to undertake the full MDR program.

Awarding of Honours

To qualify for Honours in the MDR, candidates must attain a minimum average mark of 75 per cent across all subjects attempted; and must complete the two-semester 77781 Research Project (DR). Honours is not available within the GCDR program.

Dispute Resolution major in the Master of Laws/Master of Legal Studies/Graduate Diploma in Legal Studies

Subjects offered in the MDR program may also be undertaken as part of a major in Dispute Resolution within the Master of Laws (by coursework) and the Master’s/Graduate Diploma in Legal Studies programs. To undertake a major in Dispute Resolution within the LLM/MLS/GDLS programs, candidates must complete Dispute Resolution subjects totalising 30 credit points, including the compulsory core subject 77735 or 79771 Dispute Resolution. LLM, SJD, MLS and GDLS candidates are limited to a maximum of 30 credit points of Dispute Resolution subjects. Candidates who wish to complete more than 30 credit points in Dispute Resolution should enrol in the MDR or the GCDR program.

It should be noted that the MDR and GCDR program offers a more in-depth qualification in Dispute Resolution; course selection will depend upon a candidate’s career goals and other relevant considerations.

Transfer from the GCDR to the MDR

GCDR candidates who wish to transfer to the MDR program will be required to complete 77868 Master’s Qualifying Research Paper. If the subject is passed, candidates will not take cut the GCDR but will be transferred to the MDR with advanced standing.

Majors offered in the MLS/GDLS
A student may choose an appropriate mix of subjects to constitute a major within the MLS/GDLS program in a specific area. The majors available are:

- Dispute Resolution
- Commercial Law
- Intellectual and Industrial Property Law
- Industrial Law
- International Law

A student wishing to take more than 30 credit points in Dispute Resolution subjects should enrol in the Master of Dispute Resolution.

Awarding of Honours
To qualify for Honours in the MLS, candidates must attain a minimum average mark of 75 per cent across all subjects attempted; and must complete the two-semester Research Project (LS) 77800. Honours is not available within the GDLS program.

Graduate Diploma in Australian Law

- Course code: LL57
- Testamur title: Graduate Diploma in Australian Law
- Abbreviation: GradDipAustLaw
- Course fee: $6,000

The Graduate Diploma in Australian Law (GDAL) is designed to permit lawyers from common law jurisdictions other than NSW to satisfy the academic requirements for admission as a legal practitioner of the Supreme Court of NSW (this course is not appropriate for candidates who are already admitted to practise in NSW or have an undergraduate legal qualification from NSW).

Applicants should contact the Legal Practitioners Board of the NSW Supreme Court (LPAB) to determine the subjects they are required to complete to be eligible for admission to practise in NSW before lodging their application.

Students should consider enrolling on a non-award basis if the LPAB-determined subjects total less than 48 credit points. Contact Undergraduate Law Programs on (02) 9514 3760 for further details.

Please note that in order to gain admission as a legal practitioner of the Supreme Court of NSW, applicants may also be required to undertake a course in practical legal training.

Admission requirements

- A Bachelor’s degree in Law from outside NSW; or
- be admitted to practise as a solicitor or barrister in a common law jurisdiction.

Course structure

- Completion of a minimum of 48 credit points of undergraduate law subjects (each candidate’s program will vary depending on the number of subjects he or she is required to take in order to be admitted to practise in NSW); in
- a minimum of two semesters of full-time attendance or three semesters of part-time attendance; and
- a maximum of four semesters for a full-time student or eight semesters for a part-time student.

- Course fee: $10,800

Graduate Diploma in Trade Mark Law and Practice

- Course code: LL84
- Testamur title: Graduate Diploma in Trade Mark Law and Practice
- Abbreviation: GradDipTradeMarkLaw
- Course fee: $4,800

The newly developed Master of Industrial Property and Graduate Diploma in Trade Mark Law and Practice programs are intended to allow UTS to respond to changes in the statutorily established educational qualifications for intellectual property practitioners. UTS has established expertise and an existing reputation for providing courses relevant to the needs of the Patent and Trade Mark professions and, once accredited by the Professional Standards Board, the new courses will permit UTS to continue to provide relevant education qualifications which will lead to professional registration. The courses reflect the range of topics required for registration as a Registered Trade Marks Attorney or a Patent Attorney under the relevant Regulations.

On satisfactory completion of the courses, students will:

- have a body of knowledge and practical skills which will enable them to provide advice on the relevant category or categories of intellectual and industrial subject matters to provide appropriate protection for particular activities
- an appreciation of the advantages of particular forms of protection as they relate to business and professional activity and the needs of commercialisation of subject matters
- an understanding of the procedures required to obtain and to maintain appropriate protection on behalf of a client

- have acquired an understanding of the required standard of professional conduct as a Trade Marks Attorney and/or Patent Attorney.

- Course fee: $9,600

Graduate Certificate in International Trade Law

- Course code: LL82
- Testamur title: Graduate Certificate in International Trade Law
- Abbreviation: none
- Course fee: $4,800

The newly developed Master of International Trade Law and Graduate Certificate in International Trade Law will provide a suite of options for legal practitioners and a wide range of other professionals to extend their expertise and knowledge in the expanding area of international trade law. With rapid globalisation of markets and economies a prominent feature of the last decade, lawyers and other professionals have a strong imperative to extend their knowledge and expertise in the area of international trade law. UTS has provided individual subjects for many years in this area as part of the wide choice of electives made available in other postgraduate program areas.

Faculty links with the NSW Branch of the International Law Association have encouraged the Faculty to develop these programs. The Faculty has identified subjects that address a range of topics which underpin current and ongoing areas of study in International Trade Law, namely:

- Multilateral Liberalisation of Trade in Goods and Services: GATT 1994, GATS and WTO
- The Role of Regional Trading Blocs: NAFTA, ASEAN, EU, CER, Mercosour
- Exceptions to Liberalisation: Agriculture, Textiles and Clothing, Sanitary and Phytosanitary Measures, and Music and Film
- Anti-Dumping and Countervailing Duties in a Global Economy

1 The programs MITL and the GradCertIntTradeLaw are subject to final approval.
- Foreign Investment and the Multilateral Investment Agreement
- Regulation of Financial Markets: the Asian Experience
- International Commercial Arbitration
- Dispute Resolution and the WTO
- Intellectual Property and Trade: TRIPS.

Master of Laws (Mandarin International)  

- **Course code:** LL86  
- **Testamur title:** Master of Laws (Mandarin International)  
- **Abbreviation:** LLM  
- **Course fee:** $15,000  

The Master of Laws (Mandarin International) award is unique in that it is the only Master of Laws program available in Australia which is delivered and assessed entirely in the Mandarin language. The program offers Mandarin-speaking legal practitioners the opportunity to gain a postgraduate legal qualification at a time when the Chinese legal system is undergoing significant change, and there is a demand for education and experience in other legal jurisdictions.

It is envisaged that the course will be of prime interest to international candidates from the People’s Republic of China, as well as Mandarin speakers in the Asia-Pacific area. However, the course will also be available to Australian residents whose principal language is Mandarin.

Electives

LLM (Mandarin International) candidates will undertake a combination of 48 credit points of subjects. Ultimately, candidates will have access to the same electives and majors as the standard LLM program (a full list of LLM electives can be viewed in the ‘Master of Laws’ entry in this handbook). However, at this stage it is not intended to make the entire LLM subject offerings available. Subjects will be added progressively in step with market demand and available resources. Please contact the Faculty’s Postgraduate Program area for the current LLM (Mandarin International) timetable.

**Awarding of Honours**

To qualify for Honours in the LLM (Mandarin International), candidates must attain a minimum average mark of 75 per cent; and must complete the two-semester subject 77725 Research Project

**Applicants with civil law legal qualifications**

Candidates with legal qualifications from countries with civil law, or dual civil and common law, legal systems will be required to complete 77799 Advanced Comparative Law for Civil Lawyers (6 credit points) in their first semester of enrolment. This subject is a co/prerequisite for all other LLM (Mandarin International) subjects for students with civil law legal qualifications.

Advanced Comparative Law for Civil Lawyers provides a bridge between the civil law and the common law. The topics covered in this subject include the following: sources of the common law; the development of the common law in England and its reception in Australia; courts and lawyers in Australia; law finding in the common law; contract law in the common law; Australian public law; and aspects of the law regulating business transactions in Australia. Four principal areas are addressed:

- Legal technique in the common law
- Comparative law research and analysis
- Introduction to business law
- Selected issues in international and transnational law.

---

**Course structure**

- Completion of electives totalling 48 credit points; in
- a **minimum** of two semesters of full-time attendance or four semesters of part-time attendance; and
- a **maximum** of six semesters for a full-time student or nine semesters for a part-time student.  

---

**Admission requirements**

- An undergraduate legal qualification; and
- demonstrated English proficiency equivalent to an IELTS level of 5.0 or better; plus
- demonstrated proficiency in Mandarin.

---

1 The LLM (Mandarin International) program is subject to final approval.

---

1 Due to visa restrictions, international students can enrol on a full-time basis only.
Master of Law and Legal Practice

- Course code: LL78
- Testamur title: Master of Law and Legal Practice
- Abbreviation: MLLP
- Course fee: $33,600

Graduate Diploma in Law

- Course code: LL79
- Testamur title: Graduate Diploma of Law
- Abbreviation: GradDipLaw
- Course fee: $19,200

The Master of Law and Legal Practice (MLLP) is the first national example of a ‘third entry’ path into the profession of law and has been accredited by the Legal Practitioners Admission Board of the Supreme Court of NSW (LPAB). Please note that the Graduate Diploma of Law (GradDipLaw) is not an approved program of study for those who wish to seek admission as a legal practitioner.

Historically, in NSW there have been only two pathways into the profession of law, through the LPAB Diploma or the Bachelor of Laws (LLB) program. But these awards are at the undergraduate level regardless of the ‘graduate’ characteristics of the applicants.

The Faculty of Law at UTS has a strategic mission to prepare students for the practice of law in keeping with the University mission statement. Faculty core business has always been to prepare motivated and capable students for professional practice.

The Faculty holds that graduates of other disciplines have achieved more than simply meeting the entry requirements for another undergraduate qualification. They possess a greater measure of intellectual maturity and academic standing, which has prepared them for more advanced studies at the Master’s level.

Admission requirements

A Bachelor’s degree.

Subjects

Timetable constraints may require attendance at daytime and evening classes (please check the current timetable). The full-time and part-time standard progression noted below is subject to candidates meeting subject prerequisites in each semester (the subject prerequisite requirements are noted in this handbook in the ‘Subject descriptions’ section). Not all students will follow the standard progression and consequently some candidates may not complete the program in the time outlined below.

A list of the MLLP electives can be viewed under the ‘Master of Laws’ entry in this handbook.

MLLP course program

The MLLP combines the core law curriculum, plus postgraduate-level electives from the existing Master of Laws program, followed by the practical legal training requirements set by the LPAB. Please note that the practical legal training component of the program must be completed at the end of the course.

**GradDipLaw course program**

Completion of 96 credit points of core law subjects. Timetable constraints may require attendance at daytime and evening classes (please check the current timetable).

Note: The GradDipLaw is not an approved program of study for those who wish to seek admission as a legal practitioner.
PROFESSIONAL PROGRAM

Graduate Diploma in Legal Practice

- Course codes: LL74; LL75
- Testamur title: Graduate Diploma in Legal Practice
- Abbreviation: GradDipLP
- Course fees: HECS (LL74); $5,670 (LL75)

Admission by the Supreme Court of NSW to practise as either a solicitor or barrister is based upon the successful completion of an undergraduate law degree (or similar qualification e.g. LPAB) and an accredited course of practical legal training. The UTS courses have been approved by the Legal Practitioners Admission Board of the Supreme Court of NSW.

The UTS Faculty of Law Professional Program requires students to undertake an 18-week academic course (or part-time equivalent) and to undertake 16 weeks of pre-approved practical experience. This leads to the award of the Graduate Diploma of Legal Practice (GDLP). This course is also available as the Legal Practice major in the LLB program.

Students are provided with written materials and access to computerised resources (including CD-ROM and online resources) in specially-built student accommodation.

The Professional Program, like any clinically-based education, is intensive and requires a considerable commitment from students. The subjects are more demanding, in terms of attendance, than regular undergraduate or postgraduate Law subjects. Apart from the clinical aspects, this is mainly due to the fact that many activities are interactive between teaching staff and students (e.g. practice courts, simulated practice transactions and skills exercises).

Admission requirements

- An LLB (an LLB from a university outside NSW will have to be assessed by the Legal Practitioner’s Admission Board)
- the LPAB/SAB qualification.

Course program

- Candidates must complete the following core subjects:
  75413 Advocacy 6cp
  75403 Commercial and Estate Practice 6cp
  75412 Legal Skills and Professional Awareness 6cp
  75401 Litigation 6cp
  75411 Practical Experience 0cp
  75415 Professional Conduct 1 (Legal Accounting) 3cp
  75416 Professional Conduct 2 (Legal Ethics) 3cp
  75402 Property Transactions 6cp
- in a minimum of one semester of 18 weeks of full-time attendance; or
- a minimum of three semesters of part-time attendance including Summer enrolment.

This course is offered in a full-time and in a part-time delivery mode.

The Professional Program commences prior to the commencement of the University semester. Please contact the Professional Program for commencement dates.

Graduate Diploma in Legal Practice (by Flexible Learning)

- Course codes: LL80; LL81
- Testamur title: Graduate Diploma in Legal Practice
- Abbreviation: GradDipLP
- Course fees: HECS (LL80); $5,670 (LL81)

The Professional Program may be undertaken by flexible learning mode. This means students learn at a time, rate and location that suits each individual student. Students use self-managed learning tools to learn at their own pace. Because of the skills-based nature of the courses of study within the Professional Program, two compulsory Monday to Friday face-to-face schools are included in the course of study. The first school takes place at the beginning of the course of study, primarily for the Legal Skills and Professional Awareness subject, with the second at the conclusion of the course, primarily for the Advocacy subject.

The Professional Program commences prior to the commencement of the University semester. Please contact the Professional Program for commencement dates.

**PROPOSED NEW COURSES IN 2000**

The Faculty hopes to introduce the following new programs in 2000. The introduction of these programs is subject to University approval. Please contact the Postgraduate Programs Office on (02) 9514 3756 for further details.

- Graduate Diploma Information Technology Law
- Graduate Certificate in Law for Secondary School Teachers
- Graduate Diploma in Law for Secondary School Teachers
- Master Legal Studies (Mandarin International)

**EXTERNAL AWARD STUDY**

Students who are enrolled in a postgraduate course at another tertiary institution may apply to undertake subjects with the Faculty of Law that will count towards that award. Admission is subject to the joint approval of both institutions and the availability of places. Brief descriptions of the subjects offered by the Faculty of Law are outlined in this handbook under 'Subject descriptions'. Detailed descriptions are available from the Administrative Secretary (Postgraduate). As the number of subjects offered in any year is limited, applicants should confirm the timetable for the forthcoming semester with the Faculty of Law before submitting an application.

**Admission requirements**

Applicants must be enrolled in a degree course in another tertiary institution. Please note that undergraduate students will not normally be permitted to enrol in postgraduate subjects offered by the Faculty of Law.

**Application procedures**

Applicants should complete an External Award Study – Application for Admission form. This form is available from the UTS Admission Office by calling (02) 9514 1559 or at the UTS Information Service.

Completed applications, including a curriculum vitae and certified copies of all required documents, should be sent to:

**UTS Admissions Office**

University of Technology, Sydney
PO Box 123
Broadway, NSW 2007

External award applicants must also obtain a letter of authority from their university's Registrar, which should be forwarded to the above address.

The closing dates for applications are as follows:

- **Summer program** – late October
- **Autumn semester** – late December
- **Spring semester** – late June.
EXTENSION (NON-AWARD) STUDY

Extension study in postgraduate law allows candidates who do not wish to undertake a full degree program the opportunity to learn or upgrade their knowledge in a selection of subjects.

Extension students undertake subjects offered in the Faculty’s degree programs. Brief descriptions of the subjects offered by the Faculty of Law are outlined in this handbook under ‘Subject descriptions’. Detailed descriptions are available from the Administrative Secretary (Postgraduate) if required.

In addition, extension study may entitle students to Mandatory Continuing Legal Education points. Contact the Law Society of NSW for further details.

Admission requirements

Applicants are expected to have achieved an appropriate level of knowledge in relation to the area to be studied, or to demonstrate the ability to successfully undertake postgraduate study.

Application procedures

Applicants should complete an Extension (Non-Award) Study Application form, available from the UTS Admission Office on (02) 9514 1559 or the UTS Information Service.

Completed applications, including a brief resume, and proof of age, Australian permanent residency and educational status, should be sent to:

UTS Admission Office
University of Technology, Sydney
PO Box 123
Broadway, NSW 2007

The closing dates for applications are as follows:

Summer program – 31 October
Autumn semester – 30 December
Spring semester – 30 June.

Fees

Non-award and external award fees are paid at registration where a UTS identity card will be issued for use of the Library and other student facilities. Fees are non-refundable after the commencement of semester. However, where a student is forced to withdraw due to illness or disability, a letter requesting reimbursement (supported with appropriate verification) should be submitted to the Non-Award Studies Officer for consideration.
SUBJECT DESCRIPTIONS

UNDERGRADUATE SUBJECTS

The undergraduate subject descriptions shown below indicate the subject code and name, and number of credit points for the subject (e.g. 3cp). Also shown are the prerequisites or corequisites if any, and a brief outline of the content and texts. Unless specified, the latest editions are recommended.

Prerequisites are subjects that must be completed before taking the subject to which they refer. Corequisites may be completed before or else must be taken concurrently with the subject to which they refer.

Legal Research
4cp
This subject aims to familiarise students with the basic tools available to engage in legal research. It includes an introduction to various paper-based resources (citations, digests etc.). Students are also introduced to the use of computerised systems as an aid to legal research. The emphasis is on Internet-based systems such as AustLII, Scale Plus and Butterworths Online. CD-ROM products are also briefly covered.

Legal Process and History
10cp
This subject aims to introduce students to, and to provide students with, a sound working knowledge of the Australian legal and constitutional environment. The subject also aims to equip students with certain legal skills – in particular, the skills of case analysis, statutory interpretation, legal problem solving and critical analysis – which are essential to the study and practice of the law. Students will be asked to consider what is law, who makes law, and how and why the law has developed in the way that it has. They will also examine the institutions that make up our legal system – the legislature, the Crown and the executive, the courts and the ‘legal players’ (the judge, the jury and the legal practitioner) – and explore the principles and doctrines that underpin our legal system. Further, they will be asked to consider why our legal system is so different from that of some of our regional neighbours, and to evaluate the strengths and weaknesses of the common law legal system. Valuable insight into the way our legal system operates may be gained through using a historical approach, and this means delving back into English, as well as Australian, legal and constitutional history. Such an approach also facilitates refinement of critical analysis skills. At the end of the subject, students should have a fully developed understanding of the Western legal tradition, the place of common law in that system, and the ramifications of living under a Westminster parliamentary system as well as a federal system.

Criminal Law
6cp; corequisites: 70113 Legal Process and History; 70105 Legal Research
The subject deals with the substantive criminal law, the doctrines and rules that define the conditions of criminal liability and some aspects of the procedural law. Australian common law doctrine and the Crimes Act 1900 (NSW) are considered. Topics include the nature of crime; the doctrine of mens rea and actus reus; presumption of innocence; offences against the person; property offences; strict liability; complicity; criminal defences; criminal investigation and procedure; and drug law.

Law of Tort
8cp; prerequisite: 70113 Legal Process and History; corequisites: 70105 Legal Research; 70217 Criminal Law
This subject discusses the functions and aims of the tort. It then examines the nature of tortious liability in the light of a selection of specific torts, namely, trespass to the person, goods and land; the action on the case for wilful injuries; conversion; negligence; nuisance; and defamation. Reference is also made to defences, vicarious liability and contribution between tortfeasors.
Attention is drawn to the relevance of the type of conduct complained of (intentional, reckless, careless); the nature of the various interests protected (personal security, chattels, land, reputation, economic interests, domestic relations); the adaptability of tort law to changing needs and values of society (thus the introduction, dominance and current perceived limitations of the fault concept); and the element of policy expressed or implied in judicial decisions.

Personal Property
4cp; prerequisite: 70211 Law of Contract; corequisite: 70311 Law of Tort
Topics covered include classifications of personal property, choses in action and choses in possession; acquisition of title to goods; law of bailment; insurance; securities interests in chattels; and law of negotiable instruments, with particular reference to cheques.
70417  
**Corporate Law**  
*8cp; corequisite: 70317 Real Property*

The response of the law to the activities of business entities is dealt with in this subject. Although the emphasis is on corporations, there will be a brief discussion of the manner in which non-corporate entities including partnerships are regulated. The study of corporations law will include an overview of the historical developments, the current method of regulation and the proposals for reform.

**Equity and Trusts**  
*8cp; prerequisite: 70317 Real Property; corequisite: 70417 Corporate Law*

Equity is a body of rules or principles which form an appendage to the general rules of the common law. The doctrines of equity developed as a response to defects in the English common law system which had resulted in rigidity and inflexibility. A knowledge of the principles of equity is therefore crucial to a complete understanding of the law in those areas of private law, particularly property and contract, where equity intervened to modify the operation of the rules of the common law. In that sense the doctrines of equity form part of the law of contract or property. Equity also developed remedies, such as the injunction, which were unknown to the common law and which have a continuing influence in public law as well as private law.

**Federal Constitutional Law**  
*8cp; prerequisites: 70113 Legal Process and History; 70105 Legal Research; corequisite: 70211 Law of Contract*

This subject examines the effect of the Australian Constitution on the legal and fiscal relationship of the Commonwealth and States. In order that students develop an understanding of the techniques of judicial review in the constitutional context, a range of powers given to the Commonwealth is examined. These include trade and commerce, corporations, taxation and external affairs. Other areas examined are explicit and implicit restrictions of power, the questions of inconsistency and intergovernmental relations. The general role of the High Court in Australian constitutional law is considered, along with the Separation of Powers Doctrine as it relates to the independence of the judiciary.

70617  
**Administrative Law**  
*8cp; prerequisite: 70616 Federal Constitutional Law*

This subject deals with the supervision of the executive arm of government by the courts and by other statutory mechanisms. Topics include the grounds of review of administrative decisions, in particular natural justice; *ultra vires*, jurisdictional error and error of law; remedies available at common law upon judicial review, including the prerogative writs and equitable remedies; judicial review under the *Administrative Decision (Judicial Review) Act*.
1976 (Cwlth), a review of Commonwealth decisions under the Administrative Appeals Tribunal Act 1976 (Cwlth); and the role and function of the Ombudsman. If time permits, freedom of information and privacy legislation will also be touched upon, and the role of the Independent Commission Against Corruption (ICAC).

### 71005
**Practice and Procedure**
4cp; corequisite: 70516 Equity and Trusts
Practice and Procedure is a core subject that develops the students’ understanding of the process of litigation from the commencement of proceedings through to the final hearings. Topics include statements of claim in contracts and torts; defence, cross-claims and replies; equitable proceedings; particulars; discovery, inspection and interrogatories; notice of motion; drafting affidavits; subpoenas; and advocacy skills.

### 71116
**Remedies**
6cp; corequisite: 70516 Equity and Trusts
This subject deals with the range of court-ordered remedies available to a plaintiff in civil proceedings. The more common remedies are those administered at either common law or in equity: damages; equitable remedies (declarations, specific performance, injunctions, Anton Pillar orders, account, equitable damages); and statutory and common law remedies for deceptive conduct. Bankruptcy and insolvency will also be considered.

### 71216
**Law of Evidence**
6cp; prerequisite: 70516 Equity and Trusts
This subject deals with adjectival law and the determination of how information may be presented to the court in litigation, when such information will be admissible in evidence, and how the rules of proof are applied. The inclusionary rule of relevance, the various exclusionary rules (such as hearsay, opinion, tendency, coincidence, credibility, character, privilege), and the judicial discretion to exclude will be studied, as well as the incidence of the burden of proof.

Litigation
6cp
Litigation explores, from a practical perspective, criminal practice and the justice system, civil and commercial litigation in the Local Court, District Court, Supreme Court and the Federal Court, personal injury practice (including the Motor Accidents Act 1988 (NSW)) and the specialist jurisdiction such as the Family Court of Australia, Administrative Appeals Tribunal, Land and Environment Court and the Federal Court (Bankruptcy).

75402
Property Transactions
6cp
The subject explores the legal practitioner's role in property transactions, including domestic and commercial conveyancing transactions, commercial leases, mortgages, finance and securities.

75403
Commercial and Estate Practice
6cp
The subject explores the legal practitioner's role in Commercial and Estate practice, including the sale and purchase of businesses, planning business structures, drafting and analysing wills and trust deeds, applying for probate or letters of administration, and administering estates.

75415
Professional Conduct 1 (Legal Accounting)
3cp
Professional Conduct 1 (Legal Accounting) must be done concurrently with Professional Conduct 2 (Legal Ethics) with the exception of students undertaking the part-time Graduate Diploma in Legal Practice course, who must complete Professional Conduct 1 prior to Professional Conduct 2.

75416
Professional Conduct 2 (Legal Ethics)\(^1\)
3cp; prerequisite and corequisite: 75415 Professional Conduct 1 (Legal Accounting)
Professional Conduct 2 (Legal Ethics) encompasses studies in ethical responsibility, conflict of interest and professional regulation. Professional Conduct 1 (Legal Accounting) must be done concurrently with Professional Conduct 2 (Legal Ethics) with the exception of students undertaking the part-time Graduate Diploma in Legal Practice course, who must complete Professional Conduct 1 prior to Professional Conduct 2. This subject satisfies the Legal Practitioners Admission Board's requirement for legal ethics in both academic and practical contexts.\(^1\) Required for students seeking admission to practice.

76001
Comparative Law A
6cp; prerequisite: nil
The subject deals with the comparative method of legal research and examines the growing 'interdependence' and similarity of the civil law, socialist and the common law systems. It consists of two sections. The first section is concerned with an introduction to the major legal systems in the world. Emphasis will be placed on a study of the development of the Romano-Germanic system of law, the formation of the socialist legal system and the law of the United States of America. These legal systems will be compared with the common law system. Among the topics covered will be a study of the meaning, sources and structure of law in the legal systems under consideration. The second section is devoted to the civil law method. Other topics which will be discussed include the legal profession and legal education in civil law as well as in various countries.

76008
Jurisprudence
6cp; prerequisite: 70311 Law of Tort

Deals with theoretical questions that are relevant to an understanding of the notion of law (e.g. What is the law of the state? Is there any other command, convention or the like that can also be called 'law'?). It also includes a discussion of different approaches to the study of law (e.g. philosophical, sociological, historical, analytic, international, comparative) to determine its derivation, nature and function, as well as a discussion of the doctrines and techniques of legal analysis and evaluation. The various approaches are compared and criticised in the context of sociopolitical problems, conflicts and other phenomena. Topics here include causation and the law, sovereignty and the law, legal rights and duties, law and ideology. Their treatment in the common law will be examined.
A number of theorists are considered e.g. von Savigny, Austin, de Jouvenel, Dworkin.

In conceptual terms, law is analysed as a logical system (legal), as a part of a composite system (social), and as a specific legal institution (e.g. constitutional law). Constitutionalism will be distinguished from legality, and the problem of political or social revolution addressed (in other words, how can legality be justified insofar as the ensuing struggle for sovereignty in the state which is always present in any revolution?).

76012
Criminology
6cp; prerequisite: 70217 Criminal Law

This subject explores how crime is socially constructed. A diverse range of criminological issues is considered. These include official and non-official measures of crime; theories of crime; variables of crime (age, sex, ethnicity, socioeconomic status), as well as specific offences (e.g. homicide, white-collar crime, sexual and non-sexual assault and disorderly behaviour). Additionally, methods of controlling crime and preventing crime are reviewed. Readings for this subject are derived from a collection of books, reports, articles and current conference papers.

76014
Law and Computers
6cp; prerequisites: 70105 Legal Research; 70217 Criminal Law

An introduction to computers as they relate to the administration and practice of the law, and to specific areas of the law as they relate to computers. After an analysis of computer concepts and terminology, with basic instruction in the use of personal computers, the subject deals with legal issues raised by computer technology (e.g. computer crime, software copyright and data protection), and the development of computer applications for legal use, with the major focus on leading-edge technologies, such as expert systems and hypertext systems.

Text
Electronic course materials are issued throughout the semester.

76015
Labour Law
6cp; prerequisites: 70211 Law of Contract; 70311 Law of Tort

The subject consists of two parts: individual aspects of the employment relationship; and the formation, foundation and termination of the employment contract. The subject also
examines the rights and liabilities of employers and employees under common law principles and legislation including occupational health and safety law, anti-discrimination law and remedies involving reinstatement.

**International Economic Law**

6cp; prerequisite: 70417 Corporate Law

Because of the vastness of the topic, it is not possible to cover the subject in one semester: it is therefore proposed to deal with certain basic aspects, as well as a number of topics which are particularly pertinent at the time of lecturing. In this introductory topic, the following items will be discussed: sources of law; the present regime; the new economic order; the international economic order; the economic union.

**Investment**: control of the multinational corporation; settlement of international investment disputes.

**Finance**: The International Monetary Fund; floating currencies; foreign exchange control law and international contracts (Article VII of the IMF); aspects of international fiscal law; European monetary system; sovereign debt problems; Eurocurrency markets.

**Trade**: the general agreements on tariffs and trade; the World Trade Organisation; protectionism and legal reactions; trading blocs, others; UNCTAD and the GSP; political controls and boycotts; international contracts; uniformity of international trade law; international commodity agreements.

**National law and international economic law**: sovereign immunity; extraterritorial jurisdiction; subject matter jurisdiction; antitrust law; corrupt practices; securities law; personal jurisdiction; taxation (current problems, pricing, unitary taxation).
There is no single textbook covering the whole field. However, the following texts are an excellent introduction:

Law of Insurance
6cp; prerequisites: 70211 Law of Contract; 70311 Law of Tort
The subject concentrates on a study of the general principles of insurance law, but does not examine in detail the special rules governing each class of insurance contract. After the nature of the contract of insurance is noted, key concepts will be dealt with: insurable interest, indemnity and subrogation, risk, non-disclosure, misrepresentation, conditions, warranties, premium. Subsidiary matters such as assignment of policies, liens and reinsurance will be considered. The role of insurance intermediaries in the formation of contracts of insurance will be examined. The subject thus focuses on the legal rights and liabilities of parties to an insurance contract in the context of common law principles and statutory modification. In addition, consideration will be given to the regulatory framework within which the insurance industry operates in Australia.

Jessup International Moot

6cp; by invitation only

This elective encourages participation in the Jessup International Moot. This moot was established in 1962 by the American Society of International Law and is named in honour of Professor P C Jessup, Professor of International Law and Diplomacy at Columbia, and judge of the International Court of Justice 1960–69. The moot is now organised by the Association of Student International Law Societies, which operates under the auspices of the American Society of International Law in Washington. The moot is probably the most prestigious of international moots. Australia first entered the competition in 1977 and the University first entered a team in 1983.

The workload involved is particularly demanding; the problems circulated are on complex and current issues of international law. Detailed research into both international and comparative law is essential to prepare complex pleadings for both sides with a maximum size prescribed. The work involved is certainly no less than that for a large research project. The memorials are assessed by memorial judges, often including distinguished teachers of international law who do not sit in the round. In addition, there are at least two separate assessments of the moot by benches. These will typically consist of law teachers, practitioners and judges.

Because of the rules of the Jessup Moot, no assessment will be available until after the conclusion of the Australian finals of the Jessup Moot each year.

Research Project 4

6cp; prerequisites: Honours calculation of 65 or greater in penultimate semester

The aim of the Research Project is to further develop students’ research skills. Students are required to demonstrate a high level of understanding of the law relevant to the topic; the capacity to research and analyse legal material; the ability to use research tools and skills; and the ability to present the results of the research in a coherent and comprehensive form.

Experience shows that most students require two semesters to complete a Research Project and are therefore advised to commence work and submit a proposal at least 12 months before anticipated completion of the Law course. If the project is to continue over two semesters, students must also enrol in the subject in the second semester and pay HECS.

Students must obtain the signed approval of the subject coordinator of their Research Project topic together with that of their proposed supervisor before they may enrol in the subject. The Research Project regulations are set out in this handbook under ‘Regulations of the Faculty of Law’.

Communications Law

6cp; prerequisite: 70617 Administrative Law

This course explores the laws which affect participants in Australia’s communications industries. Telecommunications, broadcasting and the print media have been the traditional focus of this course; but the blurring of the boundaries of these media, in particular the exponential growth of the Internet, now requires a much broader approach. The course is divided equally between the laws which affect the content (words, sounds and pictures) published/transmitted in these media, and the laws which affect the conduct of the corporations providing communication services.

The laws relating to defamation, contempt of court, privacy and censorship are considered in the context of the expression ‘freedom of speech’. How free is speech in Australia?
The Telecommunications Act 1997 (Cwlth), the Trade Practices Amendment (Telecommunications) Act 1997, and the Australian Communications Authority Act 1997 (Cwlth) came into effect on 1 July 1997. These Acts are the mechanism by which full competition was introduced into the Australian telecommunications market.

The wide powers given to the ACCC to prevent anti-competitive conduct in a market which, until recently, Telstra dominated through a statutory monopoly, will be examined. The role of the newly created Australian Communications Authority, which takes over roles previously performed by the Australian Telecommunications Authority and the Spectrum Management Authority, will be considered.

The Broadcasting Service Act 1992 (Cwlth), in particular the complex provisions known as 'cross-media rules', has been the subject of much criticism and review. The elements of the Act which have prevented Mr Kerry Packer acquiring control of Fairfax newspapers will be considered; as will the role of the Australian Broadcasting Authority, and industry 'self-regulation' schemes.

Advanced Family Law
6cp; prerequisite: 76516 Family Law
This subject will explore the legal relationships arising between members of families with particular emphasis on families involved in a breakdown of their family unit. Families constituted under the Family Law Act 1975 (Cwlth) and through de facto relationships will be the main focus of this subject. Other family units (e.g. gay and lesbian couples) will be referred to whenever relevant to the laws being studied.

Topics will include the financial consequences of family breakdowns; adoption and other family issues, child support, injunctive relief and apprehended violence orders; dispute resolution, practice and procedure; and reform issues.

Law and Medicine
6cp; prerequisite: 70617 Administrative Law
Deals with those areas of law that interact with the practice and administration of medicine and other health services. It is not a course on bioethics nor on medical negligence, although both of these topics are touched upon. Precise content varies according to class interest but topics are usually selected from the following: professional liability and medical negligence (including the issue of patient consent); medical ethics and issues, such as abortion, euthanasia and in vitro fertilisation; medical records (access and confidentiality); expert medical evidence in criminal and civil cases; regulation of the medical profession and health services (licensing and certification, review of administrative decisions affecting doctors and health workers, health insurance, public health); and legal aspects of mental health and intellectual disability (including legal capacity, the administration of the estates of mentally ill and intellectually handicapped persons, and the rights of mentally ill and intellectually handicapped persons generally).

Women and the Law
6cp; prerequisite: 70311 Law of Tort
This subject examines the role of the law in constructing and dismantling inequalities between men and women, and women's place in society and within the legal profession.

Students will be expected to become familiar with the substantial body of knowledge relating to feminist jurisprudence and to conduct their own research into particular areas of the law. Classes and assignments will involve the formulation of ideas and theories from relevant materials and also critical assessment of those ideas and theories. The subject deals with the role of the law in constructing and deconstructing inequalities between women and
men; women and crime (women as criminals and victims of crime); women and sexuality; and women and work.

Discrimination and the Law

prerequisite: 70311 Law of Tort

The aim is to explore the dynamics of discrimination by examining the ways in which it occurs and identifying the behaviours that give rise to (result in) discriminatory treatment. The subject has several associated objectives as follows:

- developing awareness if the interrelationship between law and citizens and the extent to which gender, class, race, disability and sexual orientation impact on that relationship;
- to identify dominant decision-making groups; explore the techniques adopted and applied in the courts; identify the origin and historical development of these techniques; and critically assess their impact on non-dominant decision-making groups;
- to examine the extent to which groupings based on gender, class and race determine relationships of and to power;
- to provide an understanding of anti-discrimination legislation;
- critique the existing legal responses and determine the limitations arising from the way legal knowledge is constructed within the Anglo-Australian legal culture;
- to encourage an appreciation of both independent and interactive learning and to develop students' research and writing skills.

Community Legal Research
6cp; prerequisite: 70617 Administrative Law
Community Legal Research is an elective subject where students will benefit in the following ways:

- students will be exposed to the dynamics of law reform, community consultations and the impact of politics on the legal system
- the research function of the UTS Community Law and Research Centre will provide students with important analytical and research skills invaluable to the legal profession
- the research and legal service functions of the Centre will provide students with a vital appreciation of the link between the profession, the community, individuals, ethics, power dynamics, social justice and the values of the legal system.

Research briefs prepared by community organisations, the Centre or other community legal services in collaboration with the Centre will be undertaken by students in research project groups of three to five students per group.

The research project will be in furtherance of the aims of the UTS Community Law and Research Centre, which are to help educate communities as to their legal rights, encourage self-help and promote community law reform. This course is unique to UTS. It is designed to illustrate the connections between and impact of the operation of law and various communities. The course emphasises and examines the potent impact that certain laws have on specific communities and the important role that legal practitioners can play in engaging in socio-legal debate and law reform.

Indigenous Peoples and the Law
6cp; prerequisite: 70317 Real Property
The relationship between Indigenous peoples and the law goes to the foundation of Australia's legal and political identity. Competition for land ownership has defined and driven race relations in Australia. This course will examine the historical dispossession of Indigenous people with reference to how this has impacted on current legal relations and debates. The dispossession by law and war together with the belated and partial recognition of Indigenous peoples in the Mabo (No. 2) decision will be evaluated. Land rights legislation, native title legislation and subsequent developments including the Wik decision will be examined.

Indigenous Australians are the most incarcerated people in the world. Indigenous peoples' relations with the criminal justice system with particular reference to community/police relations will be considered. Dispersal of communities and forced removal of children from their families have possibly had the most devastating impact of all colonial policies on Indigenous peoples. These will be considered in detail with particular reference to current impacts on these people in areas such as welfare law, juvenile justice and family law.

Between 1972 and 1995, all federal governments had a policy of self-determination with regard to Indigenous peoples. The meanings and implications of this policy will be examined in the context of self-determination policies in comparable countries such as Canada and the United States. Consideration will be given to the formation and role of Indigenous corporations. Australian and Canadian models of self-government, the Aboriginal and Torres Strait Islander Commission and international standards and developing norms.

Moot
6cp; prerequisite: 71005 Practice and Procedure
Students must participate in two moots on points of law arising from a set of agreed facts before a judge or barrister. Attendance is required at weekly seminars, each two hours long. At these seminars, part of the time will be devoted to discussion of the essentials of appellate advocacy, and part to the practice of the skills required for this task. Students must present the moot judge with written submissions, including a list of authorities, at least seven days before the scheduled date of the moot. Students must pass each of the two moots to pass the subject. Attendance at a session lasting all day on the Saturday at the end of Week 2 of the semester is compulsory.

Mauet T, Fundamentals of Trial Technique, Longman, 1993
The Willem C Vis International Commercial Arbitration Moot is an international moot that takes place every April in Vienna. Named in honour of Professor Willem Vis, a world-recognised expert in international commercial transactions and dispute settlement procedures, this moot is an acknowledgment of the business community’s marked preference for resolving international commercial disputes by arbitration.

Professor Vis began to work for European cooperation in 1957 as a member of the Council of Europe Secretariat, in its human rights and legal affairs directorates, and later, in 1965, became Deputy Secretary-General of the International Institute for the Unification of Private Law (UNIDROIT) in Rome. In 1968 he moved to the United Nations Secretariat in New York, where he became Senior Legal Officer, then Chief of the International Trade Law Branch of the United Nations Office of Legal Affairs, and Secretary of the United Nations Commission on International Trade Law (UNCITRAL).

This method of dispute resolution is offered as the clinical tool to train law students through two crucial phases: the writing of memorandums for claimant and respondent and the hearing of oral argument based upon the memorandums. The forensic and written exercises require determining questions of contract — flowing from a transaction relating to the sale or purchase of goods under the United Nations Convention on Contracts for the International Sale of Goods and other uniform international commercial law — in the context of an arbitration of a dispute under specific arbitration rules.

There are currently 64 law schools from 26 countries that send teams to Vienna. For students it is an excellent opportunity to learn an extremely valuable commercial skill, and a rare chance to meet and to form valuable professional friendships with a range of law students from around the world.

Advanced Legal Research
2cp; 1 semester; availability LLM
These seminars are on the methodology of research appropriate to graduate study involving the primary and principal secondary sources of law in NSW and the Commonwealth of Australia. In addition, the sources of law in a selected number of jurisdictions – England, United States, New Zealand, Canada and the European Union – are considered. The sources of international law constitute a special topic. Advanced Legal Research is a corequisite for Category B LLM candidates. It is a compulsory subject for MLS and GDLs.

International Economic Law
6cp; 1 semester; {c}{int}; availability LLM, SJD, MLLP
Designed to develop an understanding of the law governing the international economy and relations between participants in that economy. The concept of international economic law will be examined, and topics will include specific resource issues such as the common heritage; the deep sea bed; Antarctica; international legal regulation of investment, finance and trade; the institutions – IMF, IBRD, WTO; and the relationship between national and international economic law involving such concepts as extraterritoriality and sovereign immunity.

Current Problems of Public International Law
6cp; 1 semester; {int}; availability LLM, SJD, MLLP
Assists students to develop an advanced understanding of the subject, including topics such as recent developments; sources of public international law; dispute resolution; diplomatic immunity; the law of the sea; extradition and asylum; international protection and human rights; treaty practice and procedure; and the recognition of states and governments.

International Business Transactions
6cp; 1 semester; {c}{int}; availability LLM, SJD, MLLP, MITL, GCITL
After an introductory segment dealing with the international trading system including the expanded range of matters covered by GATT 1994, the subject is structured to give students an understanding of the law of international contracts for sale of goods at arm’s length as well as contracts concerning trade through closer business relationships with foreign entities such as joint ventures. Other contractual relationships intertwined with the principal contract for international sale of goods and/or services such as contracts for international carriage of goods and payment mechanisms are covered. Government
mechanisms for regulating international trade between 'private' traders such as the customs regime are discussed. A segment of the course is also devoted to international services trade.

77704
European Union Law
6cp; 1 semester; {c}{int}; availability LLM, SJD, MLLP, MITL, GCITL
The topics which will be discussed in this subject include the activities of the European institutions; the political and economic origins of the EU and its institutional structures (with emphasis on the European Court of Justice); the interrelationship between EU law and the law of the 15 member States; and the free movement of goods, workers, capital and services. The subject will concentrate on the emerging transnational protection of social and economic rights and the jurisprudence of the European Court of Justice.

77705
Maritime Law
12cp; 2 semesters; {c}{int}; availability LLM, SJD, MLLP
This subject is divided into two main areas – admiralty law and the law on the carriage of goods by sea. In both cases, reference will be made to pertinent international conventions and their adoption (or otherwise) in Australia, as well as to current international deliberations. Within the first main group of topics, the areas of admiralty law studied include safety; registration, nationality and ownership of ships; sale and purchase of ships; securities (mortgages and maritime liens); admiralty jurisdiction; collisions and limitation of liability; salvage, towage and piloting; and maritime employment. The second main group of topics examines the regulation of shipping conferences, and the rights and obligations of parties to contract for the carriage of goods by sea (carrier and shipper), with special reference to charter parties and bills of lading. The areas studied include anti-trust laws; the Hague; Hague–Visby and Hamburg Rules; seaworthiness and the duty to take care of cargo; and demurrage, general average, freight and marine insurance. Problems associated with inter-modal transport operations will also be discussed.

77706
Advanced Administrative Law
6cp; 1 semester; availability LLM, SJD, MLLP
Topics will include major developments in the common law and in federal administrative law. Particular attention will be paid to developing forms of remedies, the alternative forms of review of administrative action through, e.g. the Ombudsman, and current issues and prospective developments. Administrative law is relevant to all forms of government activity, including regulation of trade and commerce.

77709

Topics in this subject include government involvement in the planning and development process as developer and as intervenor; executive discretions in the development process; review of decisions; a case study for the interaction between private rights and public interests; a case study for the interaction of planning law and environmental concerns and recent developments.

77710
International and Comparative Law Project
12cp; 2 semesters; {int}; availability LLM, SJD, MLLP
Owing to career commitments, most practising lawyers are unable to undertake postgraduate work overseas, and therefore miss the advantages of studying in a different culture and environment. In an endeavour to redress this, the Faculty of Law offers the International and Comparative Law Project. This subject permits a candidate to undertake an approved course of study overseas of a limited duration, and credit this towards the LLM (by coursework), Master of Law and Legal Practice or SJD programs. Upon returning to Australia, the candidate must present evidence of work completed, which will be assessed; and further written work may be required. The Faculty has approved programs of study in various locations overseas e.g. the Hague Academy of International Law, China University of Political Science and Law, and Santa Clara University Law School. Other programs are available, or students may submit proposals for alternative programs. Further details may be obtained from the Director of Postgraduate Programs.
77711
Corporations, Finance and Securities
12cp; 2 semesters; \( \{c\}\); availability LLM, SJD, MLLP

This subject considers a number of topics of current relevance to corporations law, securities law and corporate finance. The topics covered in the course include takeovers; share buy-backs; the federal company law regime; investigations and related topics; developments in directors' duties; an overview of the financial markets; securitisation; the securities industry; controls on public offerings; criminal and civil sanctions relevant to the securities industry; financial advisers; secured and unsecured finance; corporate and unincorporated joint ventures; leasing; subordination; use of commercial paper as a financing technique; syndication and participation; credit facilities; taxation issues in the context of finance law.

77712
Deceptive Trade Practices and Product Liability
12cp; 2 semesters; \( \{c\}\); availability LLM, SJD, MLLP

An advanced study of Parts V and VI of the Trade Practices Act 1974 (Cwlth) (and analogous legislation). Topics covered include deceptive trade practices; remedies; unconscionable conduct; and the liability of suppliers, service providers and manufacturers. Emphasis is placed upon recent legal developments.

77713
Tax Procedures, Sales Tax and Stamp Duties
12cp; 2 semesters; \( \{c\}\); availability LLM, SJD, TAX, MLLP

The topics covered include the Commissioner's powers to obtain information; imputation of tax; administrative law and tax; tax avoidance; tax appeals and objections; sales tax; and stamp duties.

77714
Computerised Legal Information Systems
6cp; 1 semester; availability LLM, SJD, MLLP

The study of hypertext, free-text retrieval systems and knowledge-based applications (expert systems). Although principally a practical subject, the implementation of programs which are capable of legal reasoning will necessitate consideration of the nature and types of such reasoning.

77715
Banking Law
12cp; 2 semesters; \( \{c\}\); availability LLM, SJD, MLLP

This is an advanced study of banking law concentrating on relations between the bank and its corporate customers. The following topics are examined: the regulatory framework within which banks operate; the relationship between the bank and the customer; and the activities of banks, including cheques, bills of exchange, foreign currency lending, and secured and unsecured lending.

77716
International Trade Law
6cp; 1 semester; \( \{c\}\{int\}\); availability LLM, SJD, MLLP, MITL, SCITL

Topics include the sale of goods; representation overseas; finance; export credits and insurance; carriage of goods; arbitration and litigation; customs law; and international trade regulation.

77719
Capital Gains Tax
12cp; 2 semesters; \( \{c\}\); availability LLM, SJD, TAX, MLLP

This subject involves an in-depth study of capital gains tax (CGT) including consideration of legislative amendments since the introduction of CGT. Most of the first semester will be spent covering the CGT fundamentals such as the meaning of assets, acquisition and disposal, cost base and consideration. The second semester will consider the application of CGT in special circumstances, such as for companies, trusts and partnerships as well as the international implications.

77720
International Taxation
12cp; 2 semesters; \( \{c\}\{int\}\); availability LLM, SJD, MLLP

This subject considers the following topics: changes enacted and proposed since the 1985 tax reform measures; impact of international tax changes on Australian businesses; capitalisation and foreign controllers; the foreign credit tax system and imputation system; Australian measures against tax havens; taxation of foreign service income; relocation of corporate residence offshore; tax consequences of international information flows; non-resident trusts; transfer-pricing;

Dispute Resolution in Commerce
6cp; 1 semester; availability SJD, LLM, MDR, GCBR, MLS, GDLs, CROSS; prerequisite 79771 or 77735 Dispute Resolution or demonstrated experience in the field
This subject will explore the application of dispute resolution theory and practical skills to the corporate environment. It will explore the causes of conflict within a corporation, and between a corporation and the outside world. The range of dispute resolution processes will be studied to ascertain their relevance and the problems in applying them to the various types of dispute that occur. Students will have the opportunity to study the impediments to changing the dispute resolution culture of an organisation, and they will be encouraged to build models for implementing change in a range of corporate environments. The differences between implementation between the public and private sectors and between different sections of the corporate/business world will also be explored.

77762
Industrial Dispute Resolution
6cp; 1 semester; availability MDR, LLM, SJD, MLS, GDLs, GCBR, CROSS; corequisite: 7735 or 79771 Dispute Resolution or demonstrated experience in the field
This subject will cover the history of industrial dispute resolution in Australia. It will look at the relevance of dispute resolution to the workplace and to the relationship between unions and management. As this latter is a new area for the use of mediation and dispute resolution in Australia, the subject will seek to develop a model process for such dispute resolution, particularly in view of the introduction of enterprise bargaining and the initiative to introduce mediation/dispute resolution into the industrial relations area in NSW. Input from industry will be provided.

77763
Community Dispute Resolution
6cp; 1 semester; availability MDR, LLM, SJD, MLLP, MLS, GDLs; GCBR; CROSS; corequisite: 77735 or 79771 Dispute Resolution or demonstrated experience in the field
The course is planned to consider the nature and development of community dispute resolution both in Australia and overseas. NSW Community Justice Centres collaborate in its teaching. It will examine concepts of 'community' and 'culture' and the ways in which diverse community values and social change have affected forms of dispute resolution. Some critiques of the philosophy and use of mediation as a form of dispute resolution will be examined. Specific models and applications of community dispute resolution will be considered, including mediation with neighbourhoods, families, workplaces and organisations. The concept and operation of peer mediation programs will be explored, particularly within schools and prisons. Consideration will be given to issues and practices in managing multi-party and large-scale community disputes.

77764
Environmental Dispute Resolution
6cp; 1 semester; availability MDR, LLM, SJD, MLLP, MLS, GDLs; GCBR; CROSS; corequisite: 77735 or 79771 Dispute Resolution or demonstrated experience in the field
This subject studies the use of dispute resolution in environmental disputes and the potential for developing dispute resolution processes in this area. It will also examine the application of dispute resolution processes to planning issues, and matters currently dealt with by the Land and Environment Court of NSW. In developing students' practical skills, the subject will explore strategies that may be used for dispute resolution in multi-party disputes, for policy development and where public interest groups are involved.

77765
Court-based Dispute Resolution
6cp; 1 semester; availability MDR, LLM, SJD, MLLP, MLS, GDLs; GCBR; CROSS; corequisite: 77735 or 79771 Dispute Resolution or demonstrated experience in the field
This subject explores the incorporation of dispute resolution processes into the court system. It draws on programs in courts in Australia and overseas. It addresses the impact of dispute resolution on the formal state-provided dispute resolution system, and examines the interface of the formal and informal systems, and the effect of the informal system on society's norms and on the adversarial system of social control.
77766
Economic Law of the People’s Republic of China
6cp; 1 semester; {int}; availability LLM, SJD, MLLP
This subject provides an in-depth understanding of China’s modernisation program and its interpretation of ‘economic law’. Topics include domestic economic contract law; foreign economic contract law; and the traditional Chinese concept of ‘contract’ versus communist Chinese ideology and pragmatism.

77767
Tax Administration
6cp; 1 semester; {c}; availability TAX, LLM, SJD, MLLP
Access to timely and relevant tax-related information is crucial to the ATO’s attempts to correctly assess taxpayers and to taxpayers’ attempts to resist assessments. The subject analyses critically the rationale for and structure of the current tax administration system, and then proceeds to a detailed analysis of the key strategic elements of that system including tax audits, self-assessment, objections and appeals, and collection and recovery of unpaid tax. Alternatives for reform are also examined.

**Equity and Trusts**

*8cp; 1 semester; availability MLLP, GDL; prerequisite: 77875 Real Property; corequisite: 77877 Corporate Law*

Equity is a body of rules or principles which forms an appendage to the general rules of the common law. The doctrines of equity developed as a response to defects in the English common law system which had resulted in rigidity and inflexibility. A knowledge of the principles of equity is therefore crucial to a complete understanding of the law in those areas of private law, particularly property and contract, where equity intervened to modify the operation of the rules of the common law. In that sense the doctrines of equity form part of the law of contract or property. Equity also developed remedies, such as the injunction, which were unknown to the common law and which have a continuing influence in public law as well as private law.

79102
Law and the Digital Economy
6cp; 1 semester; prerequisite: 79202 Business Law; availability Electronic Business sub-major and sub-major in Information Technology Law and sub-major in Business Law
This subject introduces the student to the legal issues surrounding new forms of commerce that have emerged as a result of new communications technologies. The subject focuses on the challenges to current legal doctrines and categories flowing from the phenomenal spread to digital technologies and electronic commerce, in particular, laws and policies surrounding regulation of communications, intellectual property, and the law of contract and tort. The subject aims to provide both an insight into the challenges facing the legal system as well as a practical guide for those wishing to do business electronically.

79161
Introduction to Insolvency Law
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major
The aim of this unit is to introduce students to the history of bankruptcy; the law and practice of bankruptcy; the purposes of bankruptcy legislation; and procedures to be followed. The unit also compares the roles of the trustee in bankruptcy with those of corporate liquidators and the broader issues of insolvency law.

79162
Corporate Insolvency and Administration
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major
Topics covered in this unit include administration; proof of debts; mutual credit and set-off; secured creditors; property available to creditors; distribution and priority of debts; corporate insolvency (winding up); and voluntary administration.

79202
Business Law
4cp; core
This subject introduces students to the fundamental requirements of law in the contemporary business environment. Every aspect of business is now regulated by legislation and case law. All business decisions will naturally have a legal dimension to them and this may involve either a potential civil or
criminal liability. Law is a dynamic subject and is constantly changing, thus lifelong skills need to be attained, with a strong emphasis on efficient research. The content focuses on fundamental legal skills followed by solid business applications, such as contract, negligence, trade practices, the environment and others.

79211
Law for Marketing Management
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major
The aim of this unit is to provide students with a sound knowledge of the relevant federal and State laws which affect business decisions in the field of marketing and to provide them with an understanding of the complex laws regulating marketing activities. Topics include consumer protection; product liability; product safety and standards; intellectual property; the regulation of competition; and risk assessment and compliance strategies.

79264
Securities Market Regulation
6cp; 1 semester; prerequisites: 79202 Business Law; 79365 Company Law; availability Taxation Law sub-major, Business Law sub-major
The objectives of this unit are to develop an understanding of the regulatory legal and financial nature of securities markets including the process of regulation and the various players involved, and an understanding of the different theoretical frameworks within which regulations can be analysed. Topics include the process of regulation; the role of the legal regulators; the role of ethics upon the market; regulatory theories; market manipulation; insider trading; takeovers; information disclosure; and creative accounting.

79270
Industrial and Labour Law
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major, Employment Relations sub-major
The aim of this unit is to provide students with an awareness and understanding of the legal background to employer-employee relations and the industrial system as it operates, and is changing, within Australia. Topics include industrial tribunals; awards; industrial action; trade unions and employer organisations; collective bargaining; and workers' compensation.

79365
Company Law
6cp; 1 semester; prerequisite: 79202 Business Law; availability Accounting major, Business Law sub-major
This unit is designed to provide students with a sound understanding of fundamental aspects of company law as it applies to the modern business corporation. Topics include incorporation; corporate constitution; promotion and pre-incorporation; company membership; duties of controlling shareholders; the raising of equity and debt; companies in difficulty; accounts and audit; reorganisation; takeovers; and investigations.

79366
Banking Law
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major, Banking major
This unit aims to provide students with an understanding of the manner in which banking institutions are regulated, dealing with the changes following the deregulation of banking. Topics include a historical introduction to the law relating to banking; the statutory regulation of banking; the banker-customer relationship; negotiable instruments; and the provision of loans and other banking facilities.

79370
Law and Contracts
3cp; 1 semester; prerequisite: 48074 Engineering Communication and Documentation; availability Bachelor of Technology
This unit aims to familiarise the student with the Australian legal framework, the sources of commercial engineering law in Australia and the responsibilities of engineers in an industrial environment, and to prepare the student for the procedures and processes of operating and negotiating contractual matters as a client, consultant or contractor. Topics include an introduction to Australian law; elements of engineering contracting including the contract life cycle; contract organisation; application of quality assurance; occupational safety and security; environmental protection; product liability; intellectual property; and principles of employment contracts.
79371
Legal Issues in Communications
6cp; 1 semester; availability Bachelor of Engineering in Telecommunications Engineering
This unit introduces students to the legal context of telecommunications and information technology in Australia and internationally, and develops students' understanding of the interplay between technical, commercial and legal aspects of introducing a new product or service, and in particular how the regulatory structure shapes market opportunities. Topics to be covered include contract law; product liability; professional liability; intellectual property law; patents; privacy; and consumer rights.

79403
Law and the Manager
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major
This unit attempts to apply a selective number of legal topics to areas of interest to both public and private sector managers and aims to highlight a range of legal situations that directly affect managers. Topics covered include employment law; decision making and the legal consequences of decisions; administrative law; alternative dispute resolution; and intellectual property, computers and the law.

79404
Law for Third Sector Managers
6cp; 1 semester
This subject is designed to provide a basic understanding of the many strands of law that affect community managers in their work. An introduction to the legal system will be followed by consideration of areas of contract, company, taxation, employment and tort law that are relevant to community managers.

79411
Advanced Companies and Securities Law
6cp; 1 semester; prerequisites: 79202 Business Law; 79365 Company Law; availability Taxation Law sub-major, Business Law sub-major, Professional Accounting Practice sub-major
As an advanced elective unit, the aim is to examine in depth certain selected topics, with an emphasis on the practical and comprehensive treatment of topical areas, and to develop an understanding of the operations of the securities market and the Australian Securities Commission. Topics could include the following: the areas regulated by the Corporations Law; securities regulation; the broker-client relationship; the control of improper activities relating to takeovers; investigation and market manipulations; and the simplification reform program.

79462
Revenue Law
6cp; 1 semester; prerequisite: 79202 Business Law; availability Accounting major, Business Law sub-major
This unit aims to develop students’ conceptual and analytical skills and an appreciation of law as a strategic business tool. It concentrates on a study of the Australian income tax system including the Income Tax Assessment Act. Topics include the concepts of income and capital, assessable income, allowable deductions, capital gains tax, fringe benefits tax, tax accounting, trusts, partnerships and anti-avoidance.

79502
Law and Finance
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major
In this unit, students are introduced to a number of relevant aspects of law relating to private sector financing, an area of law that has undergone dramatic changes over recent years, becoming more sophisticated, complex and diverse. Topics could include an evaluation of the different methods of secured and unsecured financing, liability for financial advice, taxation aspects of financing and financial restructuring.

79603
International Business Law and Regulation
6cp; 1 semester; prerequisite: 79202 Business Law; availability International Business major, Business Law sub-major
Students are introduced to those legal rules that most directly affect traders doing business where there is an international element involved. The unit focuses on matters relating to the formation of contracts in international business transactions, municipal and international regulation of such transactions, resolution of disputes with regard to contracts, and international tortious liability.
79606
Advanced Revenue Law
6cp; 1 semester; prerequisites: 79202 Business Law; 79462 Revenue Law; availability Taxation Law sub-major, Professional Accounting Practice sub-major

Advanced Revenue Law is an elective unit building on the principles developed in Revenue Law. The aim of the unit is to consider issues that are topical, controversial and important. Because of this, the content and style of the unit will change from year to year, reflecting developments and changed emphases. Topics could include capital gains tax, fringe benefits tax and salary packaging, taxation of retirement payments and superannuation funds, liability for professional negligence, tax ethics and tax agents.

79659
Advanced Commercial Law
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major

Students are taught to develop a knowledge of business contractual obligations and their application to specific transactions. Topics include sale of goods; consumer protection; product liability; negligence; trusts; partnerships; agency; insurance; credit; negotiable instruments; and bankruptcy.

79660
Environmental Law in Business
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major, Societal and Corporate Issues in Accounting sub-major

This subject examines environmental law issues as they relate to the business community. Topics covered include international environmental law; ESD; precautionary principle; natural resources management; pollution; waste management; liability of corporate officers; risk management; environmental audits; due diligence; taxes; and tradeable permits.

79662
Business Bankruptcy
6cp; 1 semester; prerequisite: 79202 Business Law; availability Business Law sub-major

This unit aims to provide students with an appreciation of the requirements for those appointed to act as receivers and managers and to alert students to alternatives to insolvency. Topics include how and why receivers are appointed, the role of trustees in bankruptcy, and aspects of personal and partnership bankruptcies.

79666
International Aspects of Australian Taxation Law
6cp; 1 semester; prerequisites: 79202 Business Law; 79462 Revenue Law; availability Taxation Law sub-major, Professional Accounting Practice sub-major

This unit focuses on the offshore aspects of taxation. Although topics would vary from time to time, they could include an analysis of the concept of residence and source of income, the taxation of offshore royalties, the operation of double tax arrangements, and international tax planning.

79667
Indirect Taxation
6cp; 1 semester; prerequisites: 79202 Business Law; 79462 Revenue Law; availability Taxation Law sub-major, Small Business sub-major

This unit will introduce students to the policy implications raised by direct taxes. It will analyse options for reform and overseas experience with indirect tax systems and examine the basic principles of current indirect taxes in Australia and their practical implications. The topics focus on areas such as payroll tax, sales tax, land tax and stamp duty.

79991
Complex Forensic Cases (Law)
6cp; 1 semester

Students will receive training in the preparation of reports and in the presentation of evidence in court. A substantial component of this subject is a moot court.
SUBJECTS OFFERED BY OTHER FACULTIES

015110
Aboriginal Cultures and Philosophies
_BEd (Adult Ed)_
4cp
_subeject coordinator: J Newman_
This subject will introduce participants to Aboriginal culture and social organisation as expressions of Aboriginal cosmology. Contemporary Aboriginal culture will be presented as an evolving response to colonialism and as an assertion of cultural empowerment.

015111
Issues in Aboriginal Education
_BEd (Adult Ed)_
8cp; _prerequisite: 015110 Aboriginal Cultures and Philosophies_
_subeject coordinator: J Newman_
This subject provides opportunities for participants to develop a critical understanding of a range of issues concerning Aboriginal education. It explores the historical background and contemporary factors affecting Aboriginal education.

015112
Aboriginal Initiatives in Education: Towards Community Control
_BEd (Adult Ed)_
8cp; _prerequisite: 015111 Issues in Aboriginal Education_
_subeject coordinator: J Newman_
This subject provides opportunities for participants to explore critically Aboriginal initiatives in education. The major thrust of this subject will be carried out by field visits and each participant will complete an extended internship.

015114
Aboriginal Studies
_BEd (Adult Ed)_
4cp
_subeject coordinator: J Newman_
This subject will introduce students to Aboriginal culture and social organisation as expressions of Aboriginal cosmology. Contemporary Aboriginal culture will be presented as an evolving response to colonialism and as a reassertion of cultural empowerment.

015115
Introducing Aboriginal Cultures and Philosophies
_BEd (Adult Ed)_
6cp
_subeject coordinator: J Newman_
This subject introduces students to Aboriginal culture and social organisation as expressions of Aboriginal cosmology. Contemporary Aboriginal cultures will be presented as an evolving response to colonialism and as a reassertion of cultural empowerment.

21125
International Business Environment
_Undergraduate_
4cp
Introduces some key elements of the vibrant business environment that Australia faces in the coming decades. A review of recent developments in Australia and the Asia-Pacific region is followed by a more detailed examination of major international players in the region, their business philosophies and practices, and the implications these issues have for Australian business and government organisations wishing to succeed in the region. The development of competitive advantage, through understanding the business environment in the Pacific Rim, and developing skills in gathering business information, provide important focal points of the course.

21130
Management and Organisations
_Undergraduate_
4cp
Introduces students to the concept of management and the different theoretical approaches to understanding management and organisations. Examines individual and group behaviour in organisational contexts. Examines and discusses organisational issues and processes, including culture leadership, power
and control, politics, communication, and the fundamentals of organisational structure and design. Develops skills in researching literature in the field of management and organisation studies.

21609  
**Business Strategy**  
*Undergraduate*  
*4cp; prerequisites: completion of at least 36cp of a major*  
Offers 'virtual experience' in the creation and application of business strategy. It is the discipline that unites and gives purposeful expression to all the skills and knowledge previously acquired. A small number of lectures and video-tutorials give background to the subject, and prepare students for a business strategy simulation. The simulation is the major component of the subject and consumes the most student time. Students work in competing teams under time pressure and with imperfect knowledge to make strategic business decisions. Important learning comes from both the need to make the team function well to achieve results which count for marks, and the requirement to bring together and integrate diverse disciplines.

22105  
**Accounting A**  
*Undergraduate*  
*4cp*  
Introduces accounting as an information system designed to enhance decision making, accountability and control within organisations and the marketplace. Covers three broad areas: (a) the nature of accounting and its relationships to financial and products markets, and the use of accounting information in external and some internal decision contexts of the organisation; (b) the accounting process, double entry bookkeeping, definition of the elements of financial statements, preparation of financial statements; and (c) the use of computer software packages in the analysis and presentation of accounting information, and as an aid to decision making.

22205  
**Accounting B**  
*Undergraduate*  
*4cp; prerequisite: 22105 Accounting A*  
Equips students with appropriate skill in the accounting techniques necessary to participate in a managerial capacity in the analysis of accounting information as it is used to facilitate decision making. Ethical implications of decisions will be considered throughout the subject. Covers areas in both financial and management accounting, including the preparation of accounting reports for companies and partnerships; the development of relevant cost concepts used in costing systems that also facilitate product- and activity-based costing; and the use of this information in performance evaluation. Spreadsheets will be used extensively.

22730  
**Assurance for Business Systems and Information**  
*Postgraduate*  
*6cp*  
Addresses the provision of assurance and auditing services for internal and external auditing. Sets out the professional and legal expectations and responsibilities of assurance services and financial statement audits. Deals with the control framework in accounting information systems for the ensuring of security of information and other assets and the integrity of these systems. These controls are evaluated from the perspective that they permeate the entire organisation and are pervasive and inherent in the management of a business. Issues considered include, COSO and COBIT, the nature and purpose of control, its design and operation and management. Application control framework, safeguarding assets and data integrity, cryptography and encryption, electronic business environment (EDI systems), and business continuity planning and disaster recovery plans. Provides students with competencies in audit methodology of risk and control evaluation, evidence collection and evaluation in various accounting information systems environments including enterprise resource programming (ERP) systems such as SAP. Develops and expands these competencies into providing assurance services on information other than financial information. Accredited by the accounting professional bodies.

22751  
**Corporate Accounting Issues**  
*Postgraduate*  
*6cp*  
Examines the issues surrounding the provision of corporate reports to external users. Topics considered include the role of a conceptual framework of financial reporting, the role of
132 Subject descriptions

financial reporting in promoting the efficient allocation of scarce resources, corporate social responsibility in accounting, and the ‘public interest’ role of accountants.

22760
Applied Research Skills in Accounting
Postgraduate
6cp; prerequisites: Semesters 1 to 3 of the Master of Business

Provides a basis for the knowledge required to understand and use research methods and techniques. Areas of study include research methods, observational studies, data analytic techniques and computer-based statistical packages, which include experimental and case studies.

22810
Accounting Module 1
Postgraduate
6cp

Provides a basic introduction to the preparation and presentation of accounts and is one of the Professional Year subjects of The Institute of Chartered Accountants in Australia. Topics include the conceptual framework for statements of account; the role and interaction of regulatory bodies and their impact on financial reporting; documentation and recording of transactions within the historical cost model; financial statement preparation and presentation; accounting for economic entities and extended structures; accounting for partnerships, trusts, and superannuation plans; accounting for financial instruments; and areas of Corporations Law that impact upon the preparation and presentation of financial statements.

22812
Accounting Module 2
Postgraduate
6cp; prerequisite: 22810 Accounting Module 1

Provides a basic introduction to business finance, management accounting, and the professional and technical aspects of auditing, and is one of the Professional Year subjects of The Institute of Chartered Accountants in Australia.

24105
Marketing Principles
Undergraduate
4cp

Covers the basic principles of marketing. Develops an understanding of the overall processes of marketing planning, implementation and control in the contemporary international environment, as well as a basic understanding of marketing information systems, market research and marketing ethics, market segmentation, buyer behaviour, product development and the development of product, distribution, promotion and pricing strategies for both goods and services domestically and internationally.

25110
Microeconomics
Undergraduate
4cp

Develops an understanding of microeconomic theory as a basis for further business-related studies; an ability to analyse microeconomic issues; and a capacity to explain and predict microeconomic consequences of economic activities. Basic demand and supply theory; elasticity of demand and supply; simple applications of partial equilibrium; short-run and long-run cost theory; market behaviour including perfect competition; resource market theory; market failure; and income distribution.

25209
Macroeconomics
Undergraduate
4cp; prerequisite: 25110 Microeconomics

Introduces the basic tools and framework of macroeconomics. Examines the demand for goods and services, the assets market, foreign exchange market and the supply sector, and introduces dynamics. Develops a very general framework within which a large number of competing theories can be analysed.

25308
Financial Markets
Undergraduate
4cp; corequisite: 26122 Quantitative Methods for Business

Provides an understanding of the functioning of Australia's financial system and its relationship to global financial markets. Introduces students to the principles of intermediation.
and professional financial markets; the forces that influence interest and exchange rates; the roles of the Reserve Bank; and the instruments (futures, forwards, options and swaps) that can be used for financial risk management purposes.

25314
Business Finance
Undergraduate
4cp; prerequisites: 26122 Quantitative Methods for Business; 22105 Accounting A; 25110 Microeconomics; corequisite: 25308 Financial Markets

Financial mismanagement is a leading reason for business failure. Many firms invest in business ventures at prices that are not justified and then borrow huge amounts of money to finance the venture only to find that they cannot pay the interest. It is therefore critical that all business students understand, and can use, a set of analytical tools to make sound financial decisions.

Equips students with the necessary skills and knowledge to make sensible financial decisions. Reviews the traditional approaches to investment and financing decisions.

26122
Quantitative Methods for Business
Undergraduate
4cp; includes topics in two related areas - Mathematics of Finance and Business Statistics

Mathematics of Finance: simple and compound interest – annual percentage rates and annual effective rates; annuities – mortgages and financial leases; perpetuities; amortisation schedules; discounted cash flow procedures – net present value and internal rate of return techniques, the cost of capital issue, sensitivity analysis, applications in business.

Business Statistics: uses SPSS extensively as the teaching software package. Descriptive statistics – central tendency and dispersion, exploratory data analysis, graphical techniques, probability and probability distributions, especially Binomial, Poisson and Normal; statistical inference – central limit theorem, sampling distributions of the mean, confidence intervals for sample means; hypothesis testing – Type I and Type II errors, one and two sample z and t tests for sample means; correlation, covariance and linear regression; statistical process control and statistical quality control; applications of all these topic areas in business generally.

31414
Information Systems
6cp
subject coordinator: Mr C S Johnson

This subject deals with information systems in their organisational context.

The effects of information systems on society, organisations and individuals are discussed. Examples from typical organisations are used to illustrate information systems concepts. Techniques for analysing and describing user requirements are introduced.

Throughout the subject there is an emphasis on human activities, the importance of the user in the analysis phase and the usability of systems. Another theme is communication skills i.e. the ability of the analyst and designer of an information system to interview, to write reports and manuals, to design efficient and effective interfaces, and to give presentations on the system.

31415
Principles of Software Development A
6cp; corequisite: 31417 Computing Practice
subject coordinator: Dr R Rist

The principles and practice of object-oriented software construction are introduced using the programming language Eiffel. Topics include the object-oriented concepts of classes, objects, clients and suppliers, inheritance, genericity, dynamic binding and polymorphism.

31416
Computer Systems Architecture
6cp
subject coordinator: Mr C W Johnson

This subject provides a sound basis for understanding how computer hardware and data communications support higher level software constructions. All software undergoes a process of translation or interpretation which reduces it to primitive operations capable of being performed by the hardware. In this subject, these primitive operations, and the organisation and design of computer systems that execute these operations, are examined. The SPARC architecture, together with its assembly language, is studied as an example of a contemporary (and real) computer architecture. This subject also presents some fundamental concepts in data communications, as a basis for later subjects which treat the topic in greater depth.
31417
Computing Practice
6cp
subject coordinator: Mr J Colville

31424
Systems Modelling
6cp
subject coordinator: Mr J El-Den
This subject introduces information system concepts including their static and dynamic components. It describes how these concepts can be used to model information systems to correctly capture their structure and needs. It outlines how the ability to capture information about the system in ways understood by its eventual users will improve the final quality of the system.

The subject introduces analysis using various approaches found in contemporary system development, including object-oriented methods, data flow diagrams and Entity-Relationship modelling, and describes the relationships between these techniques and their application.

31425
Principles of Software Development B
6cp; prerequisite: 31415 Principles of Software Development A
subject coordinator: Dr T Osborn
The specification and implementation of stacks, queues, lists, and trees are discussed as abstract data types. Formal mathematical specification of software, and program correctness are discussed. Program testing methods are emphasised throughout the subject, as are aspects of software quality such as usability.

31428
Quantitative Modelling
6cp
subject coordinator: Dr T Osborn
Reasoning with data, descriptive statistics, probability theory, distributions, estimation, hypothesis testing, spreadsheet exercises, report writing, principles of modelling, queuing models, utility models, adaptive methods, and case studies of some basic models.

31429
Procedural Programming
6cp; prerequisite: 31415 Principles of Software Development A; corequisite: 31425 Principles of Software Development B
subject coordinator: Dr B Howarth
Top-down structured program design techniques, and their application to the development of commercial programming applications. Emphasis will be on quality and usability of the resultant systems. Debugging and testing skills are developed. The language used is C.

31434
Database Design
6cp; prerequisite: 31424 Systems Modelling
subject coordinator: Dr S Feuerlicht
This subject introduces the students to basic database design and implementation concepts. Database design techniques including relational design and E-R analysis are presented. Database programming using SQL is covered in lectures and supported by practical exercises. Object database and distributed database concepts are introduced.

31436
Systems Software and Networks
8cp; prerequisites: 31425 Principles of Software Development B; 31429 Procedural Programming; 31416 Computer Systems Architecture
subject coordinator: Mr U Szewcow
This subject builds on Computer Systems Architecture to provide an understanding of the operating system and communications hardware and software that provide support for user applications. Particular attention is paid to the role of systems software in distributed systems.

31444
Systems Design and Development
10cp; prerequisite: 31434 Database Design; corequisite: 31436 Systems Software and Networks
subject coordinator: Mr R Raban
This is a project-based subject which guides students through an information systems development process. The requirements for the information system are specified in a series of
Use Cases. The development involves designing the user interface and data system and then designing and implementing the system. The emphasis throughout the development is on meeting the user's requirements, implementing a distributed solution and integrating the new systems with the existing information systems infrastructure. Attention to quality of the system outcomes is maintained throughout the development process. Students will work in managed teams of 10. There are no formal lectures and no exams in this subject; staff/student contact takes place at regular structured project meetings and discussion meetings. Students are expected to have at least four hours of contact with their team each week and, given that this is a ten-credit-point subject, to do significant work outside of this contact time.

31454
Project Management and the Professional
6cp; prerequisites: 31444 Systems Design and Development; 31697 Industrial Training
subject coordinator: Mr D Wilson
This subject covers the management of the development and implementation of information technology solutions, with particular emphasis on information systems project management, managing software quality assurance and the professional ethics of software developers.

31455
Software Development Case Study
12cp; prerequisite: 31444 Systems Design and Development
subject coordinator: Dr R Van der Meyden
In the first semester, lectures will run in two strands: one devoted to projects, and the other to automata theory and new theory and skills. Laboratories will work on the projects.

The major project will incorporate the following stages: modular decomposition of the system; development of interfaces to the user (GUIs), between modules, to class libraries, and to other applications (code-wrapping); coping with change of specifications; detailed coding; and verification, documentation and testing. This is a full-year subject.

31464
Information Technology Planning and Design
6cp; prerequisites: 31428 Quantitative Modelling; 31436 Systems Software and Networks; 31444 Systems Design and Development; 31454 Project Management and the Professional; 31697 Industrial Training
subject coordinator: Mr C S Johnson
This subject is a capstone subject for the course and incorporates knowledge gained in previous subjects, including industrial experience. Students are required to work in groups to produce a large report based on case study material. The objective is to produce a strategic solution to the problem presented in the case study involving both planning and design. The subject emulates the commercial environment in that students work in project groups and hold weekly project review meetings. A presentation to management occurs at the end of the subject.

50105
Communication and Information Environments
6cp
Disciplinary strand – Communication and Information Studies – 100 level
The subject aims to familiarise students with the major issues in the communication and information environments in which we live, and to introduce different ways of approaching and analysing those issues. It asks questions like: What is communication? How do societies and individuals create meanings? and, How do communication technologies in their social and industrial settings structure such meanings? The subject also explores the nature of information for daily life, social interaction, change and development.

Some of the current major issues in the communications and information sphere will be explored, e.g. 'convergence', the nature of the Information Society, globalisation, questions of ownership of and access to the channels of communication and information, the division between 'public' and 'private' and the role of the state, the development of new media and information forms.

The subject will also begin to examine the various theoretical paradigms and frameworks for analysing these issues, in preparation for the second subject in the Disciplinary strand.
50106
Media, Information and Society
6cp
Disciplinary strand – Communication and Information Studies – 100 level
This subject introduces current theoretical approaches to the study of the fields of communication and information, and will compare and contrast some of the major paradigms in use in the analysis of the issues in the communication and information environments in which we live. The subject will help students understand the range of social science and social and cultural theoretical approaches relevant to the field, including liberal pluralism, Marxist and post-Marxist approaches, post-modernist and post-structuralist approaches, as well as those helpful in taking a user-oriented approach to communication and information, such as cognitive science and interpretive-constructivist traditions.
In order to anchor these theoretical approaches, the subject will concentrate on one or two of the major issues introduced in the subject Communication and Information Environments e.g. questions of globalisation and national identity in relation to communication and information, questions of power and access, especially in relation to cultural diversity, and freedom of information and censorship. The theoretical paradigms will be compared and contrasted in terms of their historical origins, their epistemological soundness, and their effectiveness as methodologies for investigating problems and issues in the field.

50107
Contemporary Cultures 1
6vp
Disciplinary strand – Cultural Studies – 100 level
This subject will investigate forms of culture as they appear in late 20th century Australia. Employing a cultural studies approach, it aims to provide methods for analysing complex cultural phenomena in a media-saturated environment. The cultural complexity studied emerges through Aboriginal, Islander, European and other traditions and their hybrid forms. Theories associated with the textual manifestations of these traditions are presented, including modes of signification and representation, cultural and social differences, canons and their contestations and generic and multi-generic forms. Media and multimedia products which have specific institutional bases (e.g. Hollywood) for their production and particular audiences for their consumption.

50108
Contemporary Cultures 2
6cp
Disciplinary strand – Cultural Studies – 100 level
This subject will introduce students to the major concepts and methods of the field of cultural studies. The subject will present critical readings in the broad field of cultural studies in the first half of the semester before proceeding in the second half to a specific case study e.g. the city, performing popular culture, bodies and sexualities, critiques of anthropology.

50109
Power and Change in Australia
6cp
Disciplinary strand – Social, Political and Historical Studies – 100 level
This subject is focused on the question of how decisions are made in Australia. Students will investigate three case studies where decisions were taken after periods of intense conflict and debate. These case studies will introduce students to the varying but complementary approaches of historians, political scientists, anthropologists and sociologists in their analyses of the ways power is exercised, of the importance of collective beliefs and values and of the many formal and informal processes by which Australians generate and experience change. Students will be asked to investigate critically the relationships between the different arenas of decision making: from the floor of Parliament to the negotiating tables ‘behind the scenes’, from the public drama of street demonstrations to the ‘private’ sites of kitchen, bedroom and everyday life.

50111
Colonialism and Modernity
6cp
Disciplinary strand – Social, Political and Historical Studies – 100 level
This subject will allow students to analyse Australia’s situation in relation to the world and our region by investigating the history of colonialism, including its engagement with modernity and the history of anti-colonial movements. Students will deepen their knowledge of the political, economic, social and cultural processes of colonial expansion.
and imperialism as they affected the colonised peoples, the colonising settlers and the metropolitan powers. The subject will investigate the development of 'modernity' in Europe and its colonies. The subject will explore the roots of many intellectual disciplines and tools, investigating, e.g. the relationship between anthropology and colonialism, as well as the role of new technologies such as photography in colonial processes. Using international and Australian comparisons, the subject will introduce students to many perspectives: those of colonised indigenous peoples; those of members of diasporas (the populations which were dispersed by invasion, slavery and indentured labor schemes); those of the invading 'settlers' who established the colonies; and those of people remaining in or migrating into the colonisers' home country.

Journalism 1
6cp
Professional strand – Journalism – 100 level
This subject is designed to introduce students to basic principles of professional journalism. Professional skills are developed in a way which encourages students to think critically about the media and the role which journalism plays in relation to audiences and the public. The emphasis is on developing practical skills in researching, interviewing and storytelling. Students produce their own reports and story ideas and are encouraged to see themselves as 'reporters'. An understanding of ethics and issues affecting the media and journalism are developed through discussion of contemporary print, radio, television and Internet media and practical student reporting tasks. Stories in this introductory subject will be produced in text (hard copy) and/or filed on the World Wide Web.

50115
Journalism 2
6cp
Professional strand – Journalism – 100 level
This subject develops news reporting, storytelling and writing skills to a higher level than in Journalism 1. Students are introduced to the elements of broadcast journalism and produce a number of stories in print and for radio. They develop an understanding of the similarities and differences between journalism produced for different media. Students are encouraged to see themselves as 'reporters' and an emphasis is placed on students developing a portfolio of published stories and in being able to produce work under pressure. In the context of their practical reporting, students critically explore the use of sources, journalism ethics and develop an understanding of news agendas and audiences.

50116
Media Arts and Production 1
6cp
Professional strand – Media Arts and Production – 100 level
An introduction to the history, theory and practice of the media arts, in which students explore what it means to look at, and listen to, the world anew, and then create works which embody these new-found understandings. Through a coordinated series of lectures, seminars and production workshops, students will become aware of the fundamental attributes of a range of media arts practices. A history of techniques, poetics, aesthetics and politics within the media arts will be presented in order to gain insight into how others have perceived their surroundings and acted upon and within them, and to discover what relevance those insights might have for present-day realities. Within production itself, students will collaborate with one another to produce projects in a variety of media formats, with special concentration on the interplay among film/video, multimedia and sound/radio areas, and will learn to critically scrutinise one another's work.

50117
Media Arts and Production 2
6cp
Professional strand – Media Arts and Production – 100 level
In this subject students will extend the skills, knowledge and experience introduced in Media Arts and Production 1. Lectures will present recent developments across a wide range of genres and settings, issues and theories, as both illustration and provocation of the breadth, depth and possibilities of contemporary media arts practices. Students will be expected at the end of the semester to be able to collaborate with others to critically and creatively conceive of a media project, advancing it through stages of research, through 'scripting' of narrative forms and complex interactions among elements of sound, image, graphics and text, and through production, post-production and presentation.
50120
Introduction to Social Inquiry
6cp
Professional strand – Social Inquiry and Change – 100 level
This subject introduces students to the variety of ways of seeing the social world and how people order and analyse what we see. As professionals, students need to develop understanding of the diverse approaches to the collection and interpretation of social experiences: within and across disciplines, cultures, gender and time. How do power differences affect people? How do they describe and explain societies?

Students will be encouraged to explore and question their own experiences and their abilities to observe, sort and organise what they see; including indigenous and other non-European perspectives.

50121
Theory and Method
6cp; prerequisite: 50120 Introduction to Social Enquiry
Professional strand – Social Inquiry and Change – 100 level
This subject will introduce students to systematic use and interpretation of secondary data sources. Students will start reading research and analysing existing raw data and exploring how this is used and interpreted. Students will look at how media and political groups use data; exploring how paradigms, power and perspectives can influence the collection and interpretation of research. They will involve themselves in case studies and will familiarise themselves with sources of research and methodologies for collection and interpretations. These will include Australian Bureau of Statistics data, public opinion polls, ethnographies, push polling, market research, media monitoring, audience research, family histories, official histories, community histories, Internet resources and databases. Learning how to search and select will be a core skill developed in the subject.

50128
Media, Information and the Law
8cp
Disciplinary strand – Communication and Information Studies – 200 level
This subject examines the ways in which the media and information are regulated. Rather than examining the law in isolation, the subject looks at law making and practice in the context of broader economic, political, historical and social processes. The subject begins with a comparative critique of notions of free speech and expression in different national and international contexts. While existing law in key areas (e.g. defamation, censorship, freedom of information, copyright) is outlined, there is a strong emphasis on developing a critical and comparative understanding of legal processes, the ways in which the law works in practice and the policy issues which arise. There will be an opportunity for students to select major individual or group projects in areas of professional and intellectual interest.

50129
News and Current Affairs
8cp
Disciplinary strand – Communication and Information Studies – 200 level
This subject takes a comparative theoretical approach to studying the exercise of power in the production of news and information programs in the media. It deals with the economic and institutional contexts, debates about the role of the press in democratic political processes, relations between journalists, their sources and public relations professionals, the impact of new media technologies and relations with audiences. Students are expected to develop research skills in this area, including a capacity to analyse their own media production work in the context of current scholarship in the field.

50136
Culture and Screen
8cp; prerequisites: 50107 Contemporary Cultures 1; 50108 Contemporary Cultures 2
Disciplinary strand – Cultural Studies – 200 level
This subject provides students with an in-depth analysis of a particular cinema, and introduces them to the various methodologies used in undertaking such analyses. The subject will generally focus on the study of a particular national cinema, addressing such issues as: the notion of ‘nation’, and of other contending points of cultural identification that may be in conflict with the ‘nation’, such as ethnic, religious and regional identity; the notion of a ‘social imaginary’; and film industry history. It will address how a national cinema registers its culture of origin, and projects and circulates a particular nexus of people, place and history both to itself and to the rest of the world. The
national cinemas available for study from time to time include Australian, German, Italian, Japanese and Latin American cinemas. This subject may also entail (depending on staff and student interest) a study of particular forms of cinema or periods of film history.

50142
Social Theory
8cp
Disciplinary strand – Social, Political and Historical Studies – 200 level
This subject provides an introduction to the major Western social theorists whose ideas have addressed and impacted upon industrial and post-industrial societies. It looks at competing concepts of the social in this tradition, and introduces students to key alternative epistemologies, that is, to different theories of knowledge and ways of understanding the social. This subject provides a theoretical basis for later subjects dealing with social and political research and methodology.

50164
Research Methods 1
8cp
Professional strand – Social Inquiry and Change – 200 level
This subject aims to provide students with hands-on experience of constructing research projects within a theoretical framework. It is project-based and a basic introduction to primarily quantitative social science research conventions with a sceptical and critical eye. It will concentrate on the development of skills in designing ways of collecting quantitative data and analysing these. Surveying skills will be taught as practice-based learning, with students working on projects in groups. Areas to cover include questionnaire design, drawing samples, coding and basic analysis.

50174
Professional Practice and Culture
8cp
Disciplinary strand – Communication and Information Studies – 300 level
This subject examines professional agency in the production of culture. It situates professionalism within debates about the social role of intellectuals, and takes a comparative approach to issues including the relationship of professionals to principles of public service and ethics, the impact of corporatisation and industrialisation of professional work, the impact of new communication technologies on relations with employers, clients and audiences, and the impact of increasing globalisation of professional practice. These issues are explored in relation to case studies of particular professions including journalism, communication management, the law, film and television production, and creative writing.

50198
Media Arts Project
8cp
Professional strand – Media Arts and Production – 300 level
Students produce a short piece of production work informed by theoretical study, based on original research which shows evidence of professional skills and critical and creative thinking. The project can be in any of the media arts: radio, sound, film, video, multimedia, interactive media or performance. Resource constraints may apply to project proposals.

50217
Professional Placement
8cp
Professional strand – Social Inquiry and Change – 300 level
This is a practice-based subject. It can be taken as multidisciplinary project work with other students, as individual project work and through working with organisations.

52107
History of Ideas
8cp
This subject is a general introduction to some key issues in social science. It focuses on the problem of ‘social order’ through an exploration of arguments about power and authority, exoticism and otherness, inequality and exclusion, and dissent. The material used in the subject is drawn from a variety of cultural and historical contexts.

52108
Politics and Political Institutions
8cp
This subject is an introduction to theories and debates relevant to the modern state. It provides students with an overview of the political and economic structures and institutions of the Australian State and examines theories of the state against these. Topics covered include liberal theories of the state; pluralism; critiques
of the liberal state; Australian federalism; parliament; bureaucracy; and Australian business and labour organisations.

52109
Culture, History and Society
8cp
Societies are constructed around processes of communication. These can be studied from various perspectives: anthropological, psychological, linguistic and economic. This subject compares some of these approaches and their application to the analysis of relations between social structures and communication processes. These may include structures of gender, race and ethnicity, and the ability to develop skills in the presentation of ideas and information to specific audiences. This subject lays the foundation for further communications-related subjects.

52111
Contemporary Australia
6cp
This subject is an introduction to theoretical and applied debates around the nature of public policy formation in contemporary Australia. It considers the role of the state in Australia, developments in economic, social and industrial policy over the last two decades, and the place of Australia in the world system. It focuses predominantly on applied and empirical study, requiring consideration of recent policy debates and areas of conflict.

54100
Word and Text
6cp
This subject presents a broadened conception of textuality. It moves away from those understandings of literature based on notions of great authors and canonical, trans-historically valuable works to explore questions of class, race, gender, genre, realism, narrative and post-modernism. Literary and other cultural texts are regarded as representational systems which are read differently according to different theoretical perspectives: feminism, post-colonialism and multiculturalism.

Overall, the subject emphasises a broadened notion of textuality (one which includes popular cultural texts and the practices of film/book reviewing) and a broadened notion of what it means to read a text. Just as various novels, plays, poems, films are constructed, so too are the practices of reading used to interpret them. Thus the subject concentrates on the codes and conventions which organise particular forms of textuality, while also concentrating on what particular theoretical perspectives make this possible (how does a narrative analysis or a consideration of genre differ from an author-based interpretation?).

54101
Sound and Image
6cp
This subject introduces students to a range of written, visual and aural products and texts in the context of the study of Australian culture, so as to promote discussion of the strategies underlying them. The industrial and institutional bases for the production of such texts is linked to their consequences for individuals, communities, multi- and subcultural groupings. The subject consists of lecture-tutorial arrangements coupled with viewings and auditing of selected films, videos and sound works. Computer-based exercises integrate in class teaching with students' own interests and capabilities and a major group-based project is produced.

54103
Communication Environments
6cp
This subject introduces some of the key aspects of the study of Australian communication and cultural industries, including the historical development of the major institutions and industries, their relationships to political and economic structures, the roles of media and cultural professionals, the construction of audiences and the impact of media technologies.

54230
Aboriginal Social and Political History
8cp
Examines and analyses the impact of colonialism on indigenous peoples, with particular reference to the Aboriginal inhabitants of this region. The emergence of Aboriginal social and political movements will be presented as the basis for repossession of their traditional heritage in land and culture.
54231
Aboriginal People and the Media
8cp; prerequisites: 015110 Aboriginal Cultures and Philosophies; 54230 Aboriginal Social and Political History
Familiarises students with the field of debate in relation to the representation of Aborigines in the media, and with the productions of Aboriginal media organisations. Where possible, some written, video or film production could become part of the course assessment.

54330
The Politics of Aboriginal History
8cp; prerequisites: Aboriginal Studies subjects at 100 and 200 levels
Introduces students to the wide range of historical work by Aboriginal and non-Aboriginal people over the last three decades, and encourages students to develop skills in the critical evaluation of this work in its political and social contexts. Students will enhance their knowledge of primary research materials for the field of Aboriginal history, and will develop their skills in the analysis and use of these sources.

54331
Aboriginal Forms of Discourse
8cp; prerequisites: 015110 Aboriginal Cultures and Philosophies; one Aboriginal Studies subject at the 200 level
Familiarises students with a broad range of Aboriginal forms of discourse – novels, plays, films, oral narratives – and introduces them to methods of analysis, of both text and content deriving from the disciplines of cultural studies and textual studies.

Learning strategies include lectures, tutorials, workshops and independent study. Students are required to prepare thoroughly through reading and small group work in accordance with the overall emphasis in the subject on developing independent learners.

55864
Psychology
6cp; for Bachelor of Arts/Bachelor of Laws students
Designed to introduce students to the theories, principles and practices of psychological research, emphasising those issues that are also within the framework of information provision. Learning strategies include lectures and small group work.

56955
Communication 1: Foundations of Communication
6cp
This subject extends students' understanding of, and competence in, interpersonal communication processes which are essential for the effective functioning of any professional. It introduces them to the basic models of the communication process and changing views on communication; explores the inter-relationships between communication and factors such as perception, attribution making, values, self-concept, language and culture; examines the specific skills of assertion, listening and nonverbal communication; and addresses questions of ethics and power as they affect interpersonal communication.

65101
Chemistry 1C
6cp; 6hpw; assumed knowledge: core of HSC 2-unit chemistry or equivalent
This subject is an introduction to some fundamental concepts in chemistry. Topics covered are: chemicals and chemical reactions; atomic structure; periodic table; chemical bonding; enthalpy changes in chemical reactions; and the structures and properties of solids. The subject is designed for students with a strong background in chemistry and accordingly the topics are covered to a greater depth than in 65012 Chemistry 1A. There is a laboratory program which complements the learning experiences in the lectures and tutorials. Other important aims of this subject are to enhance students' thinking skills, to foster their abilities to work cooperatively with their peers and to assist in the development of their communication skills.
65201
Chemistry 2C
6cp; 6hpw; prerequisite: 65101 Chemistry 1C or equivalent
This subject builds on the foundation studies in 65101 Chemistry 1C. Topics covered are: chemical equilibrium; acid-base theory; complex ions; electrochemistry; chemical kinetics; structure and bonding in carbon chemistry; chemical reactions of carbon compounds. There is a laboratory program which complements the learning experiences in the lectures and tutorials. The subject also aims to enhance students' thinking skills, to foster their ability to work cooperatively with their peers, and to assist in the development of their communication skills.

65241
Principles of Forensic Science
6cp; 4hpw
This subject provides a broad and sound overview of forensic science. It is designed to introduce the different disciplines, principles and concepts peculiar to forensic science. It covers, in the forensic context, the following areas: history, general definitions and concepts, sub-disciplines, methodology and methods, introduction to crime scene, trace typology, function of the expert, legal system, judicial admissibility, ethical considerations, interpretation of forensic evidence. Lectures are complemented by tutorials/workshops involving guest speakers.

68101
Physics 1C
6cp; 6hpw
This is a foundation physics subject primarily for students in the physical sciences. It covers the fundamentals of dynamics and statics, fluid mechanics, thermal physics, electricity and waves. Students are introduced to the basic techniques of measurement.

68201
Physics 2C
6cp; 6hpw; prerequisite: 68101 Physics 1C
This subject covers the fundamentals of electrostatics, electromagnetism, optics and atomic and nuclear physics, as well as extending the Physics 1C coverage of mechanics, thermal and fluids.

91313
Biochemistry 1
6cp; 6hpw; prerequisites: 91311 Biology; 65022 Chemistry 2A
Bioenergetics and physical biochemistry: energy low and transformation, laws of thermodynamics, free energy considerations in equilibrium and steady-state situations; electrolyte behaviour, pH and proton equilibrium; colligative properties, osmotic pressure; chemical kinetics, catalysis and enzyme action. Structure and function of biological molecules emphasizing structural, energy-providing and informational characteristics: carbohydrates, lipids, amino acids, peptides, proteins (including enzymes), nucleosides, nucleotides, nucleic acids. Replication and repair of DNA; recombinant DNA. Protein synthesis. Basic concepts of metabolic pathways; energetics of metabolism.

91701
Medical Science 1
6cp; 6hpw
This subject provides an introduction to the anatomy and physiology of the healthy human body. Lectures are complemented by an appropriate practical program. The content includes: the levels of organisation in the body; basic anatomy, anatomical terms, surface anatomy and body regions and overview of major organ systems. Transport of materials across membranes, osmosis diffusion, active transport. The basic concepts of microscopy and the histology of tissues and major organ systems. The general structure and functional significance of the major organ systems. Basic microbiology and aseptic technique. The basic concepts of modern genetics. Chromosomes, mitosis and meiosis, DNA, RNA, transcription, translation. Mutations and oncogenes. Genetic inheritance, disorders and pedigrees. The structure, function and histology of the integumentary system, the musculoskeletal system, the gastrointestinal system, cardio-vascular, lymphatic and renal systems. The chemical principles related to enzyme action and kinetics and the chemical reactions in digestion.

91702
Medical Science 2
6cp; 6hpw; prerequisite: 91701 Medical Science 1
This subject completes the coverage of the anatomy and physiology of the body systems begun in Medical Science 1. It is also designed
to foster an appreciation of the interactions between and control of all body systems. Independent learning as well as critical analysis and communication skills will also be developed in this unit. Topics include: structure and function of the respiratory, endocrine, nervous, reproductive and immune systems along with relevant clinical applications in each system.

**91703**

**Physiological Systems**

6cp; 5hpw; prerequisite: 91702 Medical Science 2

This subject extends the knowledge and understanding of cellular elements of the body and of certain body organ systems that were introduced in the subjects Medical Science 1 and 2. It provides an understanding of control systems, principles of mass transfer and compartmental systems analysis and how these principles apply to the body. Ion channels and membrane transport processes. Circulation and cardiovascular system. Control of metabolism and endocrine system. Formation and excretion of urine. Regulation of extracellular fluid composition and volume. Lecture material complemented by practicals, tutorials and directed self-study modules.

**91704**

**Behavioural Sciences**

6cp; 4hpw; prerequisites: 33105 Introductory Biometrics or equivalent; 91703 Physiological Systems

The overall aim of this study is to demonstrate the significance of contributions of theories and practices from the behavioural sciences to effective medical theory and practice. Key concepts, principles and theories from the behavioural sciences that have particular relevance to the medical sciences are explored within the framework of selected health care and medical scenarios such as chronic pain, the placebo effect, depression, cardiovascular disease, health promotion. Content provides an introduction to the field of behavioural medicine, which addresses the application of theory and practice of the behavioural sciences to the theory and practice of modern medicine. Students have practical experience in the application of principles from cognitive learning theory in design and completion of behavioural monitoring and self-management programs.

**91705**

**Medical Devices and Diagnostics**

6cp; 6hpw; prerequisites: 68041 Physics 1A or 68101 Physics 1C; 91703 Physiological Systems

This subject provides an introduction to the principles of operation and use of typical devices encountered in medical practice. Specific emphasis is given to various methods of transducing information from the body such as pressure, internal voltage signals, oxygen metering temperature. Principles of active stimulation of various organs such as heart, muscle and cochlear are also taught. Medical overview of the regulatory framework imaging modalities explored is also given.

**91706**

**Neuroscience**

8cp; 6hpw; prerequisite: 91703 Physiological Systems; corequisite: 91707 Pharmacology

This subject provides an advanced understanding of the physiological basis of the nervous system. Physiology of excitable tissue. Structure, function and control of ion channels. Functions of the nervous system, with special reference to systems including complex reflex systems, control of posture and movement, cutaneous, deep and visceral sensation, central regulation of visceral function vision, hearing and equilibrium; smell an taste, arousal mechanisms, sleep and electrical activity of the brain, autonomic nervous system, neural basis of instinctual behaviour and emotions. Higher functions of the nervous system. Neural nets and cybernetics. Case studies of disease states in the nervous system. Lecture material is complemented by practicals, tutorials and self-directed study modules. Emphasis on student presentation of case studies and seminars.

**91707**

**Pharmacology 1**

8cp; 6hpw (average); prerequisites: 91320 Biochemistry 2; 91703 Physiological Systems; corequisite: 91706 Neuroscience

This subject provides the introductory principles governing drug and xenobiotic action to be developed further in Pharmacology 2. It is designed to foster a problem-solving approach to pharmacology with particular emphasis on applying molecular pharmacology concepts to pathophysiological problems. Major objectives will be to develop the concepts of dose response relationships and the specificity of drug action. Therapeutic
subject descriptions

index and the concept of selective toxicity. Pharmacokinetic factors and their role in pharmacotherapy. Chemical neurotransmitters, ion channels and receptors as determinants of drug action in the central and peripheral nervous systems. Clinical efficacy of the major pharmacology drug classes used in the treatment of pathophysiological processes involving the cardiovascular, renal and nervous systems. Lectures are complemented by a tutorial/practical program which emphasises the clinical nature of the subject and develops lecture material using a variety of experimental, tutorial, computer-simulation and case-study approaches.

91708

Psychophysiology

Bcp; 6hpw; prerequisite: 91704 Behavioural Sciences

This subject builds on material provided in Behavioural Sciences. It provides the student with a solid grasp of the relationship between mind and behaviour with emphasis upon the underlying physiological mechanisms. Implications for health are emphasised throughout the course. The unit will encourage the student to evaluate the connections believed to occur between attitudes, behaviour, lifestyle, physiology, and health outcome. Lectures are complemented by practical workshops and discussion in tutorials.

91709

Pharmacology 2

Bcp; 6hpw (average); prerequisite: 91707 Pharmacology 1

This subject develops and extends the principles governing drug and xenobiotic action covered in Pharmacology 1. Objectives are to further develop the concept of receptors as cellular determinants of drug and xenobiotic action and to develop the concepts of modulated receptors and ion channels in determining anaesthetic drug action. The clinical efficacy of the major pharmacology drug classes used in the treatment of diabetes and respiratory and musculoskeletal systems disorders. Endogenous opioids in pain control mechanisms and the interaction of opioid analgesics with these systems. Selective toxicity in the treatment of microbial, viral and protozoal infections. Toxicokinetic factors, defence mechanisms, cellular reactivity, receptors and binding sites as determinants of target organ toxicity. Drugs in the conception and birthing process. Carcinogens and teratogens. Specific classes of toxic substances. Lectures are complemented by a tutorial/practical program which emphasises the clinical nature of the subject and develops lecture material using a variety of experimental tutorial, computer simulation and case-study approaches.

CENTRES WITHIN THE FACULTY

The Australasian Legal Information Institute

The Australasian Legal Information Institute (AustLII) provides free access to Australian legal material to anyone who has access to the Internet. AustLII operates one of the world’s largest publicly accessible databases of legal materials on the World Wide Web. AustLII aims to make available all public legal information: primary legal materials (legislation and decisions of courts and tribunals); and secondary materials that are (or ought to be) in the public domain or able to be licensed free of charge.

AustLII’s public policy agenda is to convince governments, courts, law reform bodies and other publicly funded organisations to make legal materials they control available free via the Internet. It has an innovative approach to computerising legal materials, based on 10 years’ research and development.

Some of AustLII’s research features are: automated rich hypertext; development and use of its own search engine (SiNO); and integration of hypertext and text retrieval. AustLII’s URL is http://www.austlii.edu.au/

AustLII is operated jointly by the Faculties of Law at UTS and the University of New South Wales (UNSW). It was established by funding from DEET and the two host universities, and also receives funding from the Australian Research Council, the Law Foundation of NSW, the Australian Business Chamber, the Council for Aboriginal Reconciliation, Department of Foreign Affairs and Trade, Asian Development Bank and other bodies.

Community Law and Legal Research Centre

The UTS Community Law and Legal Research Centre was opened in May 1996. The Centre works closely with the Faculty of Law and is under the direction of Ian Ellis-Jones, Solicitor and Lecturer in Law, and a management committee.

The Centre has two vital functions – the provision of free legal services to UTS staff and students, and community legal research. In providing a legal service, the Centre relies on the assistance of law students who volunteer three hours each per week.

The objectives of the legal service include developing effective ways of informing the community of their legal rights and responsibilities, adopting a multidisciplinary approach which recognises that many conflicts require a broader response than strict traditional legal remedies, and initiating and participating in law reform programs.

The legal research function places the Centre at the gateway for community access to the research and academic capabilities of the UTS Law Faculty. It provides metropolitan community organisations with the much-needed legal research expertise in order to respond to proposed law reform, comment on current law and its impact on the community, or generally examine the viability, fairness and importance of law in a particular area. The research function also provides students with important analytical and research skills, which are invaluable in the profession.

From the educational aspect, the Centre provides students with an understanding of the impact of law on particular communities, the dynamics of law reform, community consultations and the impact of politics on the legal system.1

It is envisaged that the Centre will enhance the Law Faculty’s research strengths and will increase the community’s awareness of the University’s value and relevance as a service provider.

For information concerning the Centre and its services, contact Louise Boon-Kuo at Blackfriars on the City campus, Blackfriars Street, Chippendale, telephone (02) 9514 2914, fax (02) 9514 2919 or log on to our website address: http://www.law.uts.edu.au/~utsclc/

1 Students can also undertake an undergraduate law elective – Community Legal Research – through the Centre.
